NASA JOBS SUPPORTED

There are 20 NASA federal employees and 1,653 contractors* in the state of Arizona.

For every NASA civil servant job located in Arizona, an additional 142** jobs are supported in the state economy. For every million dollars' worth of economic output generated by NASA civil service employees, an additional \$67** million worth of output is sustained throughout the state economy.

**Indirect effects are the purchases of goods and services by government agencies and private sector contractors, as well as by the industries that supply them.

**Multiplier based on IMPLAN Input Output (I-O) model. To learn more, please visit: <https://blog.implan.com/understanding-implan-multipliers>

Forty-one (41) Arizona suppliers contributed to NASA's Artemis program. An example of the state's contributions is providing critical materials for NASA's Orion spacecraft - the only spacecraft capable of crewed deep spaceflight and high-speed re-entry from the vicinity of the Moon.

NASA astronauts Kate Rubins and Andre Douglas recently performed four moonwalk simulations to help NASA prepare for its Artemis III mission. Artemis III will land two, yet-to-be-selected, astronauts at the Moon's South Pole for the first time.
