			If any problems are found issue work request
PM4607-EAF0019	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4607-EAF0020	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4607-EAF0021	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4607-EAF0022	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4607-EAF0023	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4607-EAF0024	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.

ATTACHMENT J-24
PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4607-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4607-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4607-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4607LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4607-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4607-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4607-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4607-PNL0003	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4607-PNL0004	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4607-PNL0005	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4607-PNL0006	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4607-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4607-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4607-SPR0001	Preventive Maintenance - Sprinkler System	30-Day: Wet Sprinkler System PM	Perform PM
		90-Day: Wet Sprinkler System PM	Perform PM
		365-Day: Wet Sprinkler System PM	Perform PM
PM4608LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4608-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4608-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4610-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4610-ACFLT0003	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4610-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4610-ACMP0003	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4610-ADRY0001	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/o Condenser Fan)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/o Condenser Fan)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4610-ADRY0002	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
			Lubricate condenser motor as necessary
		180-Day: Air Dryer, Refrigerant Type	Check operation and controls. If problem found then issue work request.

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Drain and flush
			Drain water separator
			Lubricate condenser motor as necessary
			Clean condenser coils
PM4610-AH0001	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4610-AH0002	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4610-AH0003	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4610-AH0004	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4610-AH0005	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4610-AH0007	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4610-AH0008	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4610-AH0009	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4610-AH0010	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary

PM4610-AH00B3	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4610-ATS0002	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4610-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4610-BFP0002	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4610-BFP0003	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4610-BLR0001	Preventive Maintenance - Steam Boiler	30-Day: Electric Boiler	Clean control box
			Check for leaks
			Lift safety valves, check dampers and stack
			Check flow or limit switches
		365-Day: Electric Boiler	Clean control box
			Check for leaks
			Lift safety valves, check dampers
			Clean interior and exterior of boiler
			Check flow or limit switches
PM4610-CRU0001	Preventive Maintenance - Computer Room Unit	30-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Inspect drains for proper flow and clarity.
		90-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type (w/sealed blower motor)	Check operation and controls. If any problems are found issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
			Clean drain pans, vacuum drains, and insure drain clarity
PM4610-CRU0002	Preventive Maintenance - Computer Room Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems found then issue work request.
			Lubricate blower motor as necessary
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4610-CRU0009	Preventive Maintenance - Computer Room Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems found then issue work request.
			Lubricate blower motor as necessary
			Check belts, change if necessary

**NNM08AA54C

PM4610-CRU0010	Preventive Maintenance - Computer Room Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems found then issue work request.
			Lubricate blower motor as necessary
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4610-CRU0013	Preventive Maintenance - Computer Room Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems found then issue work request.
			Lubricate blower motor as necessary
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4610-CRU0014	Preventive Maintenance - Computer Room Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems found then issue work request.
			Lubricate blower motor as necessary
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4610-CRU0015	Preventive Maintenance - Computer Room Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems found then issue work request.
			Lubricate blower motor as necessary
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4610-CRU0017	Preventive Maintenance - Computer Room Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems found then issue work request.
			Lubricate blower motor as necessary
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4610-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4610-DOOR0002	Preventive Maintenance - Electric Personnel Door	30-Day Personnel Doors, Electric	Check operation and controls. If any problems are found issue work request.
			Clean photocells and check range
			Check door closure pressure
			Clean tracks and check for proper alignment
			Check tolerances on locking mechanisms
			Check emergency release mechanisms (where applicable)
PM4610-DOOR0003	Preventive Maintenance - Electric Personnel Door	30-Day Personnel Doors, Electric	Check operation and controls. If any problems are found issue work request.

PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Clean photocells and check range
			Check door closure pressure
			Clean tracks and check for proper alignment
			Check tolerances on locking mechanisms
			Check emergency release mechanisms (where applicable)
PM4610-DPIP0001	Preventive Maintenance -Drain Pipe	30-Day Drain Pipe	Clean Drain
			Obtain Tri-Chem Orange solvent from dayshift ORG# 2320
			Pour Tri-Chem in floor drains and let activate for two hours
			Flush each drain with hot water using sewer sock for ten minutes
			Repeat entire process
PM4610-DXAC0002	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4610-DXAC0003	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven	Check operation and controls. If any problems are found issue work request.
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Thru The Wall Unit	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Check suction and discharge pressure
		365-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Check suction and discharge pressure
			Clean condenser and evaporator coils
			Check safety interlocks
PM4610-DXAC0004	Preventive Maintenance - Direct Expansion AC Unit	90-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request

			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4611-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4611LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4611-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Fluorescent Type	Perform 30 second light operational test
			Check condition of lamps
		365-Day: Emergency Lights - Fluorescent Type	Perform 1.5 hour light operational test
			Check condition of lamps
			Check condition of battery
PM4611-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4611-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary

ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check oil temperature
			Check compressor oil level.
			Lubricate condenser fan motors as necessary
			Run system control tests.
			Perform refrigerant leak check.
			Check refrigerant charge/level, add as necessary
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil and oil filters(s).
			Inspect safety relief valve.
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
			Clean condenser
			Clean evaporator tubes if available
PM4612C-HV0001	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4612C-HV0002	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4612C-HWP0001	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4612-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4612-CRU0001	Preventive Maintenance - Computer Room Unit	30-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Inspect drains for proper flow and clarity.
		90-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Drain and flush
			Drain water separator
			Lubricate condenser motor as necessary
			Clean condenser coils
PM4613-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4613-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4613-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4613-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4613-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4613-RV0001	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4613-RV0002	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4613-VSC0001	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4613-VSC0002	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4614-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4614-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4614-CCTWR0001	Preventive Maintenance - Cooling Tower	180-Day: Cooling Tower Cleaning	Contact HVAC Crew for Support.
			Clean and Inspect Hot Water Basin.

**NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			clean inside of water tower using water hose, if required; scrape, brush and wipe as required;
PM4614CTTR0001	Preventive Maintenance - Cooling Tower Water Treatment	7-day Cooling Tower Water Treatment PM	Perform testing on Cooling tower water system
			Add chemicals if needed
PM4614-CTWR0001	Preventive Maintenance - Cooling Tower	90-Day: Cooling Tower	Lubricate as necessary
			Check oil, add or change if necessary
			Check coupling and drives
		180-Day: Cooling Tower	Check operation of unit for water leaks, noise or vibration. If any problems found issue work request.
			Check electrical wiring and connections; make appropriate adjustments.
			Drain and flush could water sump and clean strainers; if required.
			Refill with water, check make-up water assembly for leakage, adjust electronic level controls if necessary.
			Remove clean and reinstall conductivity and ph electrodes in chemical water treatment system.
PM4614-CTWRC0001	Preventive Maintenance - Cooling Tower Controls	90-Day: Cooling Tower Controls	Inspect and calibrate controls
			Clean controls if necessary
PM4614-CWP0001	Preventive Maintenance -Condenser Water Pump	365-Day Condenser Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling.
PM4614-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4614-DXAC0001	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Clean condenser and evaporator coils

			Check safety interlocks
PM4614-DXAC0002	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4614-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4614-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4614-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4614-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4614LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4614-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4614-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4614-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4619-ATS0001	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4619-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4619-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: DX Chiller Water Cooled	Check unit's evaporator and condenser pressures.
			Check oil temperature.
			Check compressor oil level.
			Run system control tests.
			Perform refrigerant leak check.
			Check refrigerant charge/level, add as necessary
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil.
			Inspect cooler and condenser tubes for leaks.
			Inspect safety relief valve.
			Run an insulation test on the motor.
			Clean condenser tubes.
			Clean evaporator tubes if applicable.
PM4619-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4619-CRN0002	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4619-CRN0003	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form

			Lubricate blower motor as necessary
		180-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Thru The Wall Unit	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Check suction and discharge pressure
		365-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Check suction and discharge pressure
			Clean condenser and evaporator coils
			Check safety interlocks
PM4619-EAF0002	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4619-EAF0005	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4619-EAF0007	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4619-ELEV0001	Preventive Maintenance - Hydraulic Elevator	30-Day: Hydraulic Elevator with Automatic Gate	Check and clean all electrical panels
			Verify operation of emergency telephone
			Inspect hoistways and car top
			Check oil reservoir
			Check sensitivity of door closure pressure
PM4619-ELEV0002	Preventive Maintenance - Cable Elevator	30-Day: Cable Elevator with Motor Generator Drive	Verify operation of all safety edges
			Verify operation of emergency telephone
			Check and clean all electrical panels
			Inspect and lubricate governors

NNM08AA54C

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil and oil filters(s).
			Inspect safety relief valve.
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
			Clean condenser
			Clean evaporator tubes if available
PM4623-CHLR0002	Preventive Maintenance - Water Chiller	365-Day: Chiller, Air-Cooled	Check unit's evaporator and condenser pressures.
			Check fan motor if applicable for excessive noise and vibration.
			Check oil temperature
			Check compressor oil level.
			Lubricate condenser fan motors as necessary
			Run system control tests.
			Perform refrigerant leak check.
			Check refrigerant charge/level, add as necessary
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil and oil filters(s).
			Inspect safety relief valve.
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
			Clean condenser
			Clean evaporator tubes if available
PM4623-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4623-CHWP0003	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4623CWTR0001	Preventive Maintenance - Chilled Water Treatment	7-day Chilled Water Treatment PM	Perform testing on chilled water system
			Add chemicals if needed
PM4623-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request

PM4623-FILT0015	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4623-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4623-HST0002	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4623-HST0003	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4623-ICE0001	Preventive Maintenance - Ice Machine	30-Day: Ice Machine	Check water filter
		90-Day: Ice Machine	Check water filter
			Check operation and controls. If any problems are found issue work request
			Check water pressure
			Lubricate condenser fan motor as necessary
		180-Day: Ice Machine	Check water filter
			Check operation and controls. If any problems are found issue work request

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check water pressure
			Lubricate condenser fan motor as necessary
			Clean condenser coils
PM4623LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4623-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4623-LTS0002	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4623-ODT0001	Preventive Maintenance - Oxygen Detection System	30-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Verify ODT is required at this location. If unit is not needed issue work request to remove unit
		180-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Calibrate system
			Check all alarm points
			Verify ODT is still required at this location. If unit is not needed issue work request to remove unit
PM4623-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4623-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4623-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary

			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4628-ADRY0001	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems are found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4628-AH0001	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4628-AH0002	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4628-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4628-CC0001	Preventive Maintenance - Condenser Water	90-Day: Condenser Water	Check for corrosion
PM4628-CC0002	Preventive Maintenance - Condenser Water	90-Day: Condenser Water	Check for corrosion
PM4628-CCTWR0001	Preventive Maintenance - Cooling Tower	180-Day: Cooling Tower Cleaning	Contact HVAC Crew for Support.
			Clean and Inspect Hot Water Basin.
			clean inside of water tower using water hose, if required; scrape, brush and wipe as required;
PM4628-CFC0001	Preventive Maintenance - Condenser Water	30-Day: Condenser Water	Clean Conductivity Probes
PM4628-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: DX Chiller Water Cooled	Check unit's evaporator and condenser pressures.
			Check oil temperature.
			Check compressor oil level.
			Run system control tests.
			Perform refrigerant leak check.
			Check refrigerant charge/level, add as necessary
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil.
			Inspect cooler and condenser tubes for leaks.
			Inspect safety relief valve.
			Run an insulation test on the motor.

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Clean condenser tubes.
			Clean evaporator tubes if applicable.
PM4628-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4628-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4628CTTR0001	Preventive Maintenance - Cooling Tower Water Treatment	7-day Cooling Tower Water Treatment PM	Perform testing on Cooling tower water system
			Add chemicals if needed
PM4628-CTWR0001	Preventive Maintenance - Cooling Tower	90-Day: Cooling Tower	Lubricate as necessary
			Check oil, add or change if necessary
			Check coupling and drives
		180-Day: Cooling Tower	Check operation of unit for water leaks, noise or vibration. If any problems found issue work request.
			Check electrical wiring and connections; make appropriate adjustments.
			Drain and flush could water sump and clean strainers; if required.
			Refill with water, check make-up water assembly for leakage, adjust electronic level controls if necessary.
			Remove clean and reinstall conductivity and ph electrodes in chemical water treatment system.
PM4628-CTWRC0001	Preventive Maintenance - Cooling Tower Controls	90-Day: Cooling Tower Controls	Inspect and calibrate controls
			Clean controls if necessary
PM4628-CWP0001	Preventive Maintenance -Condenser Water Pump	365-Day Condenser Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling.
PM4628CWTR0001	Preventive Maintenance - Chilled Water Treatment	7-day Chilled Water Treatment PM	Perform testing on chilled water system
			Add chemicals if needed

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4628-DOOR0004	Preventive Maintenance - Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4628-DOOR0005	Preventive Maintenance - Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4628-DOOR0006	Preventive Maintenance - Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4628-DOOR0007	Preventive Maintenance - Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4628-DXAC0001	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4628-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4628-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4628-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4628-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4628-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4628-HDT0001	Preventive Maintenance - Hydrogen Detection System	30-Day: Hydrogen Detection System	Perform visual inspection
		180-Day: Hydrogen Detection System	Perform visual inspection
			Calibrate system
			Check all alarm points
PM4628-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.

**NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4628-HST0002	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4628-HST0003	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4628-HST0004	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4628-HST0005	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4628LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4628-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4628-LTS0002	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4628-ODT0001	Preventive Maintenance - Oxygen Detection System	30-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Verify ODT is required at this location. If unit is not needed issue work request to remove unit
		180-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Calibrate system
			Check all alarm points
			Verify ODT is still required at this location. If unit is not needed issue work request to remove unit
PM4628-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4628-PMP0001	Preventive Maintenance - Circulating Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4628-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4628-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4628-PNL0003	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4628-PNL0004	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4628-PNL0005	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4628-PNL0006	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4628-PNL0007	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times

			Install knockout hole plugs as necessary
PM4628-PNL0009	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4628-PNL0010	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4628-PNL0011	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4628-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4628-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4628-RV0001	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4628-SH0001	Preventive Maintenance - Safety Shower	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4628-SH0002	Preventive Maintenance - Safety Shower	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4628-SH0003	Preventive Maintenance - Safety Shower	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4628-SHEW0004	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4629-AH0001	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4629-ATS0001	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4629-BATB0001	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Sealed	Check connections
			Clean and lubricate terminals
			Clean battery if necessary
PM4629-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: Chiller, Air-Cooled	Check unit's evaporator and condenser pressures.
			Check fan motor if applicable for excessive noise and vibration.

**NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check oil temperature
			Check compressor oil level.
			Lubricate condenser fan motors as necessary
			Run system control tests.
			Perform refrigerant leak check.
			Check refrigerant charge/level, add as necessary
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil and oil filters(s).
			Inspect safety relief valve.
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
			Clean condenser
			Clean evaporator tubes if available
PM4629-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4629-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4629-DXAC0002	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4629-DXAC0003	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary

PM4629-FILT0005	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4629-GEN0001	Preventive Maintenance - Emergency Generator	30-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Verify day tank's fuel level is topped off between float ranges, if applicable.
		90-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Check generator output
			Verify day tank's fuel level is topped off between float ranges, if applicable.
		365-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.

			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Check generator output
			Winterize system
			Verify continuity of generator ground, including the fuel tank ground
			Verify day tank's fuel level is topped off between float ranges, if applicable.
PM4629LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4629-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4629-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4629-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4629-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4629-PNL0003	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary

PM4630-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4631-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4631-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4631-ADRY0001	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
			Lubricate condenser motor as necessary
		180-Day: Air Dryer, Refrigerant Type	Check operation and controls. If problem found then issue work request.
			Drain and flush
			Drain water separator
			Lubricate condenser motor as necessary
			Clean condenser coils
PM4631-AH0001	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4631-AH0002	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4631-AH0003	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4631-AH0004	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4631-AH0005	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4631-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: Chiller, Air-Cooled	Check unit's evaporator and condenser pressures.
			Check fan motor if applicable for excessive noise and vibration.
			Check oil temperature
			Check compressor oil level.
			Lubricate condenser fan motors as necessary
			Run system control tests.
			Perform refrigerant leak check.
			Check refrigerant charge/level, add as necessary
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil and oil filters(s).
			Inspect safety relief valve.
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
			Clean condenser
			Clean evaporator tubes if available
PM4631-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4631-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4631-CRU0001	Preventive Maintenance - Computer Room Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4631-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4631-DOOR0002	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4631-DOOR0003	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4631-DOOR0004	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4631-DOOR0005	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4631-DOOR0006	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4631-DOOR0007	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4631-DOOR0008	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4631-DOOR0009	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4631-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4631-EAF0002	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4631-EAF0003	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4631-EAF0004	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			If any problems are found issue work request
PM4631-EW0001	Preventive Maintenance - EyeWash	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4631-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4631-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4631-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4631-FILT0004	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4631-FILT0005	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4631-FILT0006	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4631-FILT0007	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4631-FILT0008	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4631-HUM0001	Preventive Maintenance - Dehumidifier	90-Day Humidifier, Ionic Bed Type	Check operation and controls. If any problems are found issue work request
			Check/Clean make-up water filter (prefilter).
			Perform diagnostic test.
			Inspect vapor hoses.
			Inspect ionic bed door gasket for leakage.
			Inspect ionic bed filters and replace as necessary.
			Inspect tank for excess scale.
			Check terminals.
			Report any deficiencies that were unable to be corrected.
PM4631-HUM0002	Preventive Maintenance - Dehumidifier	90-Day Humidifier, Ionic Bed Type	Check operation and controls. If any problems are found issue work request
			Check/Clean make-up water filter (prefilter).
			Perform diagnostic test.
			Inspect vapor hoses.
			Inspect ionic bed door gasket for leakage.
			Inspect ionic bed filters and replace as necessary.
			Inspect tank for excess scale.
			Check terminals.
			Report any deficiencies that were unable to be corrected.
PM4631-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4631-LTS0002	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head

			Install knockout hole plugs as necessary
PM4645-PNL0004	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4645-PNL0005	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4645-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4646-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4646-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4646-ADRY0001	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems are found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4646-AH0001	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4646-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: DX Chiller Water Cooled	Check unit's evaporator and condenser pressures.
			Check oil temperature.
			Check compressor oil level.
			Run system control tests.
			Perform refrigerant leak check.

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check refrigerant charge/level, add as necessary
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil.
			Inspect cooler and condenser tubes for leaks.
			Inspect safety relief valve.
			Run an insulation test on the motor.
			Clean condenser tubes.
			Clean evaporator tubes if applicable.
PM4646-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4646-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4646-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4646-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4646-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4646LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4646-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4646-LTS0002	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4646-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4646-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4649-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4649-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4649-CRN0002	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4649-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4649-DXAC0005	Preventive Maintenance - Direct Expansion AC Unit	90-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		180-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Thru The Wall Unit (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		365-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Clean condenser and evaporator coils
			Check safety interlocks
PM4649-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.

			Verify ODT is still required at this location. If unit is not needed issue work request to remove unit
PM4650-PCHLR0001	Preventive Maintenance - Water Chiller	365-Day: Chiller, Centrifugal, Water-Cooled	Check unit's evaporator and condenser pressures, oil tank pressure, differential oil pressure, and discharge oil pressure.
			Check oil level in chiller oil sump.
			Check oil temperature
			Check dehydrator or purge system; replace purge filter and inspect sight glass, replace if needed.
			Run system control tests
			Check refrigerant charge/level, add as necessary.
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Clean dehydrator float valve.
			Perform spectrochemical analysis of compressor oil.
			Replace oil and oil filter(s)
			Inspect cooler and condenser tubes for leaks.
			Inspect utility vessel vent piping and safety relief valve.
			Inspect/clean the economizer (vane), gas line damper valve, and actuator arm.
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
PM4650-PCHLR0002	Preventive Maintenance - Water Chiller	365-Day: Chiller, Centrifugal, Water-Cooled	Check unit's evaporator and condenser pressures, oil tank pressure, differential oil pressure, and discharge oil pressure.
			Check oil level in chiller oil sump.
			Check oil temperature
			Check dehydrator or purge system; replace purge filter and inspect sight glass, replace if needed.
			Run system control tests
			Check refrigerant charge/level, add as necessary.
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.

			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/o Condenser Fan)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4653-ADRY0002	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems are found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4653-AH0001	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4653-AH0002	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4653-AH0003	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4653-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4653-BFP0002	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4653-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: Chiller, Air-Cooled	Check unit's evaporator and condenser pressures.
			Check fan motor if applicable for excessive noise and vibration.
			Check oil temperature
			Check compressor oil level.
			Lubricate condenser fan motors as necessary
			Run system control tests.
			Perform refrigerant leak check.
			Check refrigerant charge/level, add as necessary

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil and oil filters(s).
			Inspect safety relief valve.
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
			Clean condenser
			Clean evaporator tubes if available
PM4653-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4653-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4653-CNDP0001	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4653-CNDP0002	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4653CWTR0001	Preventive Maintenance - Chilled Water Treatment	7-day Chilled Water Treatment PM	Perform testing on chilled water system
			Add chemicals if needed
PM4653-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4653-DOOR0002	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks

**NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4653-DXAC0001	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4653-DXAC0002	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check belts, change if necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4653-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4653-EROOM0002	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4653-EROOM0003	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4653-EW0001	Preventive Maintenance - Safety Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Date and initial inspection tag
PM4653-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4653-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4653-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4653-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4653-FILT0005	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4653-FILT0006	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4653-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4653-HST0002	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4653-HST0003	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4653-HWP0001	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4653-HWP0003	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling

			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4654-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4654-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4654-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4654-PNL0003	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4654-PNL0004	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4654-PNL0005	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4654-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4654-RV0001	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4655-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4655-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4655-CNDP0002	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4655-CNDP0003	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4655-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4655-CRN0002	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4655-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4655-DOOR0002	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4655-DXAC0001	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request

**NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4655-DXAC0002	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate blower motor as necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate blower motor as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4655-DXAC0003	Preventive Maintenance - Direct Expansion AC Unit	90-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		180-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Thru The Wall Unit (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		365-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Clean condenser and evaporator coils
			Check safety interlocks
PM4655-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4655-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4655-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4655-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4655-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4655-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4655-FILT0004	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4655-HP0002	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4655LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4655-LROD0001	Preventive Maintenance - Lightning Protection System	365 Day: Lightning Protection System	Measure and record resistance readings
			Inspect rods, cables, and fasteners
			Attach and turn in ground readings with PM sheet
PM4655-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4655-LTS0002	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4655-LTS0003	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4655-LTS0004	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4655-LTS0005	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4655-ODT0001	Preventive Maintenance - Oxygen Detection System	30-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Verify ODT is required at this location. If unit is not needed issue work request to remove unit
		180-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Calibrate system
			Check all alarm points
			Verify ODT is still required at this location. If unit is not needed issue work request to remove unit
PM4655-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4655-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4655-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary

PM4655-PNL0006	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4655-PNL0007	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4655-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4655-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4655-RV0001	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4656-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4656-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4656-ADRY0001	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/o Condenser Fan)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/o Condenser Fan)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4656-AH0001	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable

ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4656-BATB0001	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Wet Cell (UPS)	Check and refill battery
			Check connections
			Clean and lubricate terminals
			Clean battery if necessary
			Check operation and controls
			Take specific gravity and voltage readings
			Check pilot cell temperature
PM4656-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4656-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: Chiller, Air-Cooled	Check unit's evaporator and condenser pressures.
			Check fan motor if applicable for excessive noise and vibration.
			Check oil temperature
			Check compressor oil level.
			Lubricate condenser fan motors as necessary
			Run system control tests.
			Perform refrigerant leak check.
			Check refrigerant charge/level, add as necessary
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil and oil filters(s).
			Inspect safety relief valve.
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
			Clean condenser
			Clean evaporator tubes if available
PM4656-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4656-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4656-CNDP0001	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4656-CNDP0002	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request

PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4656-CNDP0003	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4656-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4656-CRN0002	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4656CWTR0001	Preventive Maintenance - Chilled Water Treatment	7-day Chilled Water Treatment PM	Perform testing on chilled water system
			Add chemicals if needed
PM4656-DOOR0001	Preventive Maintenance - Sliding Door	180-Day Sliding Door, Automatic	Lubricate tracks as necessary
			Inspect drive mechanism
			Check stops and tethers
			Inspect tracks for debris
			If any problems are found issue work request
PM4656-DOOR0002	Preventive Maintenance - Sliding Door	180-Day Sliding Door, Automatic	Lubricate tracks as necessary
			Inspect drive mechanism
			Check stops and tethers
			Inspect tracks for debris
			If any problems are found issue work request
PM4656-DXAC0001	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary

			Check belts, change if necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4656-DXAC0004	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven	Check operation and controls. If any problems are found issue work request.
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Thru The Wall Unit	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Check suction and discharge pressure
		365-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Check suction and discharge pressure
			Clean condenser and evaporator coils
			Check safety interlocks
PM4656-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4656-EROOM0002	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4656-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells

			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4656-LTS0002	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4656-LTS0003	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4656-LTS0004	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4656-LTS0005	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4656-LTS0006	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4659-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4659-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4659-ADRY0001	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/o Condenser Fan)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/o Condenser Fan)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4659-CNDP0001	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4659-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4659-CRN0002	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4659-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism

**NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4659-DOOR0002	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4659-DXAC0001	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4659-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4659-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4659-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4659-LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4659-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head

			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4660-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4660-PBLR0001	Preventive Maintenance - Steam Boiler	30-Day: Boiler in dry lay-up	Perform safety walk-through Clean boiler area, if necessary
PM4660-PBLR0003	Preventive Maintenance - Steam Boiler	30-Day: Boiler in dry lay-up	Perform safety walk-through Clean boiler area, if necessary
PM4660-PBLR0004	Preventive Maintenance - Steam Boiler	30-Day: Boiler in dry lay-up	Perform safety walk-through Clean boiler area, if necessary
PM4660-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects. Apply insecticides or poisons as required. Complete chemical applications records.
PM4660-PMP0001	Preventive Maintenance - Fuel Pump	90-Day: Pump 180-Day: Pump	Check operation and controls. If any problems are found issue work request Check for proper operation of pump. If any problems are found issue work request Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary. Lubricate pump and motor as necessary
PM4660-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times Install knockout hole plugs as necessary
PM4660-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times Install knockout hole plugs as necessary
PM4660-PNL0003	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times Install knockout hole plugs as necessary
PM4660-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4660-RV0001	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4660-SHEW0001	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request Flush system for 2 minute minimum Date and initial inspection tag
PM4661LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting Inspect all Parking Lot Lighting Report Findings to Electrical Supervisor
PM4661-ODT0001	Preventive Maintenance - Oxygen Detection System	30-Day Oxygen Detection System, Wet Cell Type	Inspect system and calibrate Check water levels if applicable, add if necessary Verify ODT is still required at this location. If unit is no longer needed issue work request to remove unit
PM4661-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects. Apply insecticides or poisons as required. Complete chemical applications records.
PM4661-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times Install knockout hole plugs as necessary
PM4661-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4663A-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.

**NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE**

PMNUM	PM DESCRIPTION		TASK DESCRIPTION
PM4663A-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4663A-ADRY0001	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/o Condenser Fan)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/o Condenser Fan)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
PM4663A-AH0001	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Clean condenser coils
			Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
PM4663A-AH0002	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check air bleed valves for proper operation where applicable
			Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
PM4663A-AH0004	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check air bleed valves for proper operation where applicable
			Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
PM4663A-AH0005	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check air bleed valves for proper operation where applicable
			Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663A-AH0007	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.

PM4663A-AH0012	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663A-AH002A	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663A-AH021A	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4663A-AH021B	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4663A-AH022A	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663A-AH022B	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4663A-AH023A	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4663A-AH023B	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4663A-AH0B3B	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663A-ATS0001	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment

PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4663A-ATS0002	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4663AB-AH0001	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663A-BATB0001	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Wet Cell (UPS)	Check and refill battery
			Check connections
			Clean and lubricate terminals
			Clean battery if necessary
			Check operation and controls
			Take specific gravity and voltage readings
			Check pilot cell temperature
PM4663A-CRU0001	Preventive Maintenance - Computer Room Unit	30-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Inspect drains for proper flow and clarity.
		90-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Lubricate blower motor as necessary
			Check safety interlocks
			Clean drain pans, vacuum drains, and insure drain clarity
PM4663A-CRU0002	Preventive Maintenance - Computer Room Unit	30-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Inspect drains for proper flow and clarity.
		90-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary

PM4663B-ACMP002B	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4663B-ADRY0001	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems are found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4663B-ADRY0002	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems are found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4663B-AH0001	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663B-AH0004	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663B-AH0007	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663B-AH0008	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663B-AH0010	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663B-AH0011	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663B-AH0012	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4663B-AH0013	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable

PM4663B-CCTWR0001	Preventive Maintenance - Cooling Tower	180-Day: Cooling Tower Cleaning	Contact HVAC Crew for Support.
			Clean and Inspect Hot Water Basin.
			clean inside of water tower using water hose, if required; scrape, brush and wipe as required;
PM4663B-CCTWR0002	Preventive Maintenance - Cooling Tower	180-Day: Cooling Tower Cleaning	Contact HVAC Crew for Support.
			Clean and Inspect Hot Water Basin.
			clean inside of water tower using water hose, if required; scrape, brush and wipe as required;
PM4663B-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: Chiller, Centrifugal, Water-Cooled	Check unit's evaporator and condenser pressures, oil tank pressure, differential oil pressure, and discharge oil pressure.
			Check oil level in chiller oil sump.
			Check oil temperature
			Check dehydrator or purge system; replace purge filter and inspect sight glass, replace if needed.
			Run system control tests
			Check refrigerant charge/level, add as necessary.
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Clean dehydrator float valve.
			Perform spectrochemical analysis of compressor oil.
			Replace oil and oil filter(s)
			Inspect cooler and condenser tubes for leaks.
			Inspect utility vessel vent piping and safety relief valve.
			Inspect/clean the economizer (vane), gas line damper valve, and actuator arm.
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
PM4663B-CHLR0003	Preventive Maintenance - Water Chiller	365-Day: Chiller, Centrifugal, Water-Cooled	Check unit's evaporator and condenser pressures, oil tank pressure, differential oil pressure, and discharge oil pressure.
			Check oil level in chiller oil sump.

			Check stops and tethers
			If any problems are found issue work request
PM4663B-DXAC0002	Preventive Maintenance - Critical DXAC Unit	90-Day: Critical Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Check safety interlocks
		180-Day: Critical Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls
			Check belts, change if necessary
			Lubricate condenser fan
			Lubricate blower motor
			Check and lubricate bearings
			Check suction and discharge pressure
			Check safety interlocks
			Clean condenser and evaporator coils
PM4663B-DXAC0003	Preventive Maintenance - Critical DXAC Unit	90-Day: Critical Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Check safety interlocks
		180-Day: Critical Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls
			Check belts, change if necessary
			Lubricate condenser fan
			Lubricate blower motor
			Check and lubricate bearings
			Check suction and discharge pressure
			Check safety interlocks
			Clean condenser and evaporator coils
PM4663B-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request

PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4663B-ELEV0001	Preventive Maintenance - Hydraulic Elevator	30-Day: Hydraulic Elevator with Automatic Gate	Check and clean all electrical panels
			Verify operation of emergency telephone
			Inspect hoistways and car top
			Check oil reservoir
			Check sensitivity of door closure pressure
PM4663B-ELEV0002	Preventive Maintenance - Hydraulic Elevator	30-Day: Hydraulic Elevator with Automatic Gate	Check and clean all electrical panels
			Verify operation of emergency telephone
			Inspect hoistways and car top
			Check oil reservoir
			Check sensitivity of door closure pressure
PM4663B-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
		30-Day: Fire Alarm System	Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4663B-FILT0001	Preventive Maintenance - Filters	30-Day: Filter PM	Check Filters, change if necessary
PM4663B-HWP0001	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4663B-HWP0002	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4663B-HWP0003	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4663B-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test

ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Verify day tank's fuel level is topped off between float ranges, if applicable.
PM4663-GEN0005	Preventive Maintenance - Emergency Generator	30-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Verify day tank's fuel level is topped off between float ranges, if applicable.
		90-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Check generator output
			Verify day tank's fuel level is topped off between float ranges, if applicable.
		365-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Check generator output
			Winterize system
			Verify continuity of generator ground, including the fuel tank ground
			Verify day tank's fuel level is topped off between float ranges, if applicable.
PM4663HWTR0001	Preventive Maintenance - Hot Water Treatment	7-day Hot Water Treatment PM	Perform testing on hot water system
			Add chemicals if needed
PM4663LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4663M-AH0001	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663M-AH0002	Preventive Maintenance - Air Handling Unit	90-Day: Mini-Mate Air Handling Unit, Chill Water	Check controls and unit for proper operation. If any problems are found then issue work request.
			Lubricate shaft and motor bearings as necessary.
PM4663M-AH0003	Preventive Maintenance - Air Handling Unit	90-Day: Mini-Mate Air Handling Unit, Chill Water	Check controls and unit for proper operation. If any problems are found then issue work request.
			Lubricate shaft and motor bearings as necessary.
PM4663M-AH0015	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4663M-ATS0001	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4663M-BATB0001	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Sealed	Check connections
			Clean and lubricate terminals
			Clean battery if necessary
PM4663M-BATB0002	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Sealed	Check connections
			Clean and lubricate terminals
			Clean battery if necessary
PM4663M-CRU0002	Preventive Maintenance - Computer Room Unit	30-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check and lubricate bearings as necessary
			Inspect drains for proper flow and clarity.
		90-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Lubricate blower motor as necessary
			Check safety interlocks
			Clean drain pans, vacuum drains, and insure drain clarity
PM4663M-CRU0004	Preventive Maintenance - Computer Room Unit	30-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type (w/ all sealed bearings)	Check operation and controls. If any problems are found issue work request.
			Check belts, change if necessary
			Inspect drains for proper flow and clarity.
		90-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type (w/ all sealed bearings)	Check operation and controls. If any problems are found issue work order.
			Check belts, change if necessary
			Check safety interlocks
			Clean drain pans, vacuum drains, and insure drain clarity
PM4663M-CRU0007	Preventive Maintenance - Computer Room Unit	30-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Inspect drains for proper flow and clarity.
		90-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Lubricate blower motor as necessary
			Check safety interlocks
			Clean drain pans, vacuum drains, and insure drain clarity
PM4663M-CRU0008	Preventive Maintenance - Computer Room Unit	30-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Inspect drains for proper flow and clarity.
		90-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Lubricate blower motor as necessary
			Check safety interlocks
			Clean drain pans, vacuum drains, and insure drain clarity

			Check belts, change if necessary
			Inspect drains for proper flow and clarity.
		90-Day: Critical Computer Room Type Air Handling Unit, Chill Water or Water-Cooled Combination Type (w/ all sealed bearings)	Check operation and controls. If any problems are found issue work order.
			Check belts, change if necessary
			Check safety interlocks
			Clean drain pans, vacuum drains, and insure drain clarity
PM4663M-EW0001	Preventive Maintenance - EyeWash	30-Day: Portable Eyewash Station	Check fluid levels.
			Check spray heads for cleanliness.
			Clean unit as necessary.
			Date and initial inspection tag
		180-Day: Portable Eyewash Station	Change saline solution.
			Check spray heads for cleanliness.
			Clean unit as necessary.
			Date and initial inspection tag
PM4663M-EW0002	Preventive Maintenance - EyeWash	30-Day: Portable Eyewash Station	Check fluid levels.
			Check spray heads for cleanliness.
			Clean unit as necessary.
			Date and initial inspection tag
		180-Day: Portable Eyewash Station	Change saline solution.
			Check spray heads for cleanliness.
			Clean unit as necessary.
			Date and initial inspection tag
PM4663M-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4663M-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4663M-LTS0002	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4663M-LTS0003	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check panel schedule
PM4663M-SWGR0001	Preventive Maintenance- Switch Gear (4663 Outage)	365-Day: Switch Gear (4663 Outage)	Operate Switch/Breakers
			Clean Contacts and Components
			Check Lugs for Tightness
PM4663M-UPS0001	Preventive Maintenance - UPS Power System	90-Day: UPS System	Perform visual safety check
			Check amperage and voltage
		180-Day: UPS System	Perform visual safety check
			Check amperage and voltage
			Check operation and controls
		365-Day: UPS System	Perform visual safety check
			Check amperage and voltage
			Check operation and controls
			Check termination points
			Inspect and clean all modules
PM4663-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4663-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4663-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4663-ROOF0003	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4663-ROOF0004	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4663-ROOF0005	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system

PM4663-RV0001	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4663-SLPPM0001	Preventive Maintenance - Sewage Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
PM4665-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4666-AH0001	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4666-AH0002	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4666-AH0003	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4666-AH0004	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4666-AH0005	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4666-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4666-CC0001	Preventive Maintenance - Condenser Water	90-Day: Condenser Water	Check for corrosion
PM4666-CC0002	Preventive Maintenance - Condenser Water	90-Day: Condenser Water	Check for corrosion
PM4666-CCTWR0001	Preventive Maintenance - Cooling Tower	180-Day: Cooling Tower Cleaning	Contact HVAC Crew for Support.
			Clean and Inspect Hot Water Basin.
			clean inside of water tower using water hose, if required; scrape, brush and wipe as required;
PM4666-CFC0001	Preventive Maintenance - Condenser Water	30-Day: Condenser Water	Clean Conductivity Probes
PM4666-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: Chiller, Centrifugal, Water-Cooled	Check unit's evaporator and condenser pressures, oil tank pressure, differential oil pressure, and discharge oil pressure.
			Check oil level in chiller oil sump.
			Check oil temperature
			Check dehydrator or purge system; replace purge filter and inspect sight glass, replace if needed.
			Run system control tests
			Check refrigerant charge/level, add as necessary.
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Clean dehydrator float valve.
			Perform spectrochemical analysis of compressor oil.
			Replace oil and oil filter(s)
			Inspect cooler and condenser tubes for leaks.
			Inspect utility vessel vent piping and safety relief valve.

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Inspect/clean the economizer (vane), gas line damper valve, and actuator arm.
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
PM4666-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4666-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4666-CHWP0003	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4666-CNDP0001	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4666-CNDP0002	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4666-CNDP0003	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4666-CNDP0004	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4666-CNDP0005	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4666-CNDP0006	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4666-CRU0001	Preventive Maintenance - Computer Room Unit	90-Day: Computer Room Type, Direct Expansion and Combination Unit	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Computer Room Type, Direct Expansion and Combination Unit	Check operation and controls. If any problems are found issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Check suction and discharge pressure
		365-Day: Computer Room Type, Direct Expansion and Combination Unit	Check operation and controls. If any problems are found issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Check suction and discharge pressure
			Check safety interlocks
			Clean condenser and evaporator coils
PM4666-CRU0002	Preventive Maintenance - Computer Room Unit	90-Day: Computer Room Type, Direct Expansion and Combination Unit	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Computer Room Type, Direct Expansion and Combination Unit	Check operation and controls. If any problems are found issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary

PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling.
PM4666-CWP0002	Preventive Maintenance -Condenser Water Pump	365-Day Condenser Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling.
PM4666CWTR0001	Preventive Maintenance - Chilled Water Treatment	7-day Chilled Water Treatment PM	Perform testing on chilled water system
			Add chemicals if needed
PM4666-DOOR0001	Preventive Maintenance - Electric Personnel Door	30-Day Personnel Doors, Electric	Check operation and controls. If any problems are found issue work request.
			Clean photocells and check range
			Check door closure pressure
			Clean tracks and check for proper alignment
			Check tolerances on locking mechanisms
			Check emergency release mechanisms (where applicable)
PM4666-DXAC0001	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4666-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan, Direct-Drive	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			If any problems are found issue work request
PM4666-EAF0002	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4666-ELEV0001	Preventive Maintenance - Hydraulic Elevator	30-Day: Hydraulic Elevator with Automatic Gate	Check and clean all electrical panels
			Verify operation of emergency telephone

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Inspect hoistways and car top
			Check oil reservoir
			Check sensitivity of door closure pressure
PM4666-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4666-EROOM0002	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4666-EROOM0003	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4666-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4666-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4666-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4666-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary

PM4666-LTS0029	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4666-LTS0030	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4666-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.

			Install knockout hole plugs as necessary
PM4666-PNL0033	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4666-RMON0001	Preventive Maintenance - Refrigerant Monitoring System	90-Day: HCFC Refrigerant Monitoring System	Notify UCS that system will be under test before performing maintenance on system
			Check Calibration of each sensor, Recalibrate as necessary
			Check/Verify operation of safety equipment (audio/visual warning equipment, exhaust ventilation equipment)
			Note any sensors that required adjustment
PM4666-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4666-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4666-ROOF0003	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4666-SPMP001	Preventive Maintenance - Sump Pump	30-Day: Sump Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Sump Pump	Check operation and controls. If any problems are found issue work request
			Lubricate as necessary
			Check coupling and drives
PM4666-SPR0001	Preventive Maintenance - Sprinkler System	30-Day: Wet Sprinkler System PM	Perform PM
		90-Day: Wet Sprinkler System PM	Perform PM
		365-Day: Wet Sprinkler System PM	Perform PM
PM4666-WFTN0001	Preventive Maintenance - Water Fountains	30-Day: Water Fountain	Verify Timer Operation.
			Check Battery in Timer.
			Verify Water Flow.
PM4667-AH0001	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4667-BATB0001	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Wet Cell (UPS)	Check and refill battery
			Check connections
			Clean and lubricate terminals
			Clean battery if necessary
			Check operation and controls
			Take specific gravity and voltage readings
			Check pilot cell temperature
PM4667-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4667-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4667-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4667-EAF0002	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4667-EAF0003	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4667-EAF0004	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4667-EAF0005	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4667-EAF0006	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4667-EAF0007	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request

PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check coupling and drives
PM4667-SPMP002	Preventive Maintenance - Sump Pump	30-Day: Sump Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Sump Pump	Check operation and controls. If any problems are found issue work request
			Lubricate as necessary
			Check coupling and drives
PM4670-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4670-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4670-ADRY0001	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems are found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4670-AH0001	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4670-AH0002	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4670-AH0003	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4670-AH0005	Preventive Maintenance - Air Handling Unit	112-Day: Air Handling Unit,	Check controls and unit for proper operation. If any problems are found issue work request

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment, replace/adjust as necessary.
PM4670-ATS0001	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4670-BATB0001	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Wet Cell (UPS)	Check and refill battery
			Check connections
			Clean and lubricate terminals
			Clean battery if necessary
			Check operation and controls
			Take specific gravity and voltage readings
			Check pilot cell temperature
PM4670-BATB0002	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Wet Cell (UPS)	Check and refill battery
			Check connections
			Clean and lubricate terminals
			Clean battery if necessary
			Check operation and controls
			Take specific gravity and voltage readings
			Check pilot cell temperature
PM4670-BATB0003	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Wet Cell (UPS)	Check and refill battery
			Check connections
			Clean and lubricate terminals
			Clean battery if necessary
			Check operation and controls
			Take specific gravity and voltage readings
			Check pilot cell temperature
PM4670-BATB0004	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Wet Cell (UPS)	Check and refill battery
			Check connections
			Clean and lubricate terminals
			Clean battery if necessary
			Check operation and controls
			Take specific gravity and voltage readings
			Check pilot cell temperature
PM4670-BATB0006	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Sealed	Check connections
			Clean and lubricate terminals
			Clean battery if necessary
PM4670-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4670-CC0001	Preventive Maintenance - Condenser Water	90-Day: Condenser Water	Check for corrosion
PM4670-CC0002	Preventive Maintenance - Condenser Water	90-Day: Condenser Water	Check for corrosion
PM4670-CCTWR0001	Preventive Maintenance - Cooling Tower	180-Day: Cooling Tower Cleaning	Contact HVAC Crew for Support.
			Clean and Inspect Hot Water Basin.
			clean inside of water tower using water hose, if required; scrape, brush and wipe as required;
PM4670-CFC0001	Preventive Maintenance - Condenser Water	30-Day: Condenser Water	Clean Conductivity Probes

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4670-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: DX Chiller Water Cooled	Check unit's evaporator and condenser pressures.
			Check oil temperature.
			Check compressor oil level.
			Run system control tests.
			Perform refrigerant leak check.
			Check refrigerant charge/level, add as necessary
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil.
			Inspect cooler and condenser tubes for leaks.
			Inspect safety relief valve.
			Run an insulation test on the motor.
			Clean condenser tubes.
			Clean evaporator tubes if applicable.
PM4670-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4670-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4670-CNDP0001	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4670-CNDP0002	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4670-CRU0001	Preventive Maintenance - Computer Room Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4670-CRU0002	Preventive Maintenance - Air Handling Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary

NNM08AA54C

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4670-CRU0003	Preventive Maintenance - Air Handling Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4670-CRU0004	Preventive Maintenance - Air Handling Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4670-CRU0005	Preventive Maintenance - Air Handling Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4670CTTR0001	Preventive Maintenance - Cooling Tower Water Treatment	7-day Cooling Tower Water Treatment PM	Perform testing on Cooling tower water system
			Add chemicals if needed
PM4670-CTWR0001	Preventive Maintenance - Cooling Tower	90-Day: Cooling Tower	Lubricate as necessary
			Check oil, add or change if necessary
			Check coupling and drives
		180-Day: Cooling Tower	Check operation of unit for water leaks, noise or vibration. If any problems found issue work request.
			Check electrical wiring and connections; make appropriate adjustments.
			Drain and flush could water sump and clean strainers; if required.
			Refill with water, check make-up water assembly for leakage, adjust electronic level controls if necessary.
			Remove clean and reinstall conductivity and ph electrodes in chemical water treatment system.
PM4670-CTWRC0001	Preventive Maintenance - Cooling Tower Controls	90-Day: Cooling Tower Controls	Inspect and calibrate controls
			Clean controls if necessary
PM4670-CWP0001	Preventive Maintenance -Condenser Water Pump	365-Day Condenser Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling.
PM4670-CWP0002	Preventive Maintenance -Condenser Water Pump	365-Day Condenser Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check drive coupling.
PM4670-DERK0001	Preventive Maintenance - Derrick Stiffleg	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4670-DXAC0001	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4670-ELEV0001	Preventive Maintenance - Cable Elevator	30-Day: Cable Elevator with Motor Generator Drive	Verify operation of all safety edges
			Verify operation of emergency telephone
			Check and clean all electrical panels
			Inspect and lubricate governors
			Check brushes on drive motors
			Check sensitivity of door closure pressure
			Inspect hoistways and car top
			Inspect motor generator set
PM4670-ELEV0002	Preventive Maintenance - Cable Elevator	30-Day: Cable Elevator with Motor Generator Drive	Verify operation of all safety edges
			Verify operation of emergency telephone
			Check and clean all electrical panels
			Inspect and lubricate governors
			Check brushes on drive motors
			Check sensitivity of door closure pressure
			Inspect hoistways and car top
			Inspect motor generator set
PM4670-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4670-EROOM0002	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4670-EW0001	Preventive Maintenance - EyeWash	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4670-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4670-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4670-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4670-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4670-FILT0004	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4670-FILT0005	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4670-FILT0006	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4670-FILT0007	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary

PM4670-FILT0009	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4670-FILT0010	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4670-FILT0011	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4670-FILT0012	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4670-HV0001	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4670-HV0002	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4670-HWP0001	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4670-HWP0002	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4670LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting

		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
		30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
PM4671-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4671-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4671-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4671-PNL0003	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4671-PNL0004	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4671-PNL0005	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4671-PNL0006	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4671-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4671-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4671-ROOF0003	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4671-RV0001	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4672LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4672-LROD0001	Preventive Maintenance - Lightning Protection System	365 Day: Lightning Protection System	Measure and record resistance readings
			Inspect rods, cables, and fasteners
			Attach and turn in ground readings with PM sheet
PM4672-SHEW0001	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4672-SPMP001	Preventive Maintenance - Sump Pump	30-Day: Sump Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Sump Pump	Check operation and controls. If any problems are found issue work request
			Lubricate as necessary
			Check coupling and drives
PM4673LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4673-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4673-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4673-SHEW0001	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4674-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4674-ACMP0001	Preventive Maintenance - Air Compressor	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4674-ADRY0001	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
		180-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems are found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4674-AH0001	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4674-AH0002	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4674-AH0003	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4674-AH0007	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4674-ATS0001	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4674-BATB0001	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Wet Cell (UPS)	Check and refill battery
			Check connections
			Clean and lubricate terminals
			Clean battery if necessary
			Check operation and controls
			Take specific gravity and voltage readings
			Check pilot cell temperature
PM4674-BATB0002	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Sealed	Check connections
			Clean and lubricate terminals
			Clean battery if necessary
PM4674-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4674-CC0001	Preventive Maintenance - Condenser Water	90-Day: Condenser Water	Check for corrosion
PM4674-CC0002	Preventive Maintenance - Condenser Water	90-Day: Condenser Water	Check for corrosion
PM4674-CCTWR0001	Preventive Maintenance - Cooling Tower	180-Day: Cooling Tower Cleaning	Contact HVAC Crew for Support.
			Clean and Inspect Hot Water Basin.
			clean inside of water tower using water hose, if required; scrape, brush and wipe as required;

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4674-CFC0001	Preventive Maintenance - Condenser Water	30-Day: Condenser Water	Clean Conductivity Probes
PM4674-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: Chiller, Centrifugal, Water-Cooled	Check unit's evaporator and condenser pressures, oil tank pressure, differential oil pressure, and discharge oil pressure.
			Check oil level in chiller oil sump.
			Check oil temperature
			Check dehydrator or purge system; replace purge filter and inspect sight glass, replace if needed.
			Run system control tests
			Check refrigerant charge/level, add as necessary.
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Clean dehydrator float valve.
			Perform spectrochemical analysis of compressor oil.
			Replace oil and oil filter(s)
			Inspect cooler and condenser tubes for leaks.
			Inspect utility vessel vent piping and safety relief valve.
			Inspect/clean the economizer (vane), gas line damper valve, and actuator arm.
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
PM4674-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4674-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4674-CNDP0001	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4674-CNDP0002	Preventive Maintenance -Condensate Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4674CTTR0001	Preventive Maintenance - Cooling Tower Water Treatment	7-day Cooling Tower Water Treatment PM	Perform testing on Cooling tower water system

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Add chemicals if needed
PM4674-CTWR0001	Preventive Maintenance - Cooling Tower	90-Day: Cooling Tower	Lubricate as necessary
			Check oil, add or change if necessary
			Check coupling and drives
		180-Day: Cooling Tower	Check operation of unit for water leaks, noise or vibration. If any problems found issue work request.
			Check electrical wiring and connections; make appropriate adjustments.
			Drain and flush could water sump and clean strainers; if required.
			Refill with water, check make-up water assembly for leakage, adjust electronic level controls if necessary.
			Remove clean and reinstall conductivity and ph electrodes in chemical water treatment system.
PM4674-CTWRC0001	Preventive Maintenance - Cooling Tower Controls	90-Day: Cooling Tower Controls	Inspect and calibrate controls
			Clean controls if necessary
PM4674-CWP0001	Preventive Maintenance -Condenser Water Pump	365-Day Condenser Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling.
PM4674-CWP0002	Preventive Maintenance -Condenser Water Pump	365-Day Condenser Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling.
PM4674CWTR0001	Preventive Maintenance - Chilled Water Treatment	7-day Chilled Water Treatment PM	Perform testing on chilled water system
			Add chemicals if needed
PM4674-DUMB0001	Preventive Maintenance - Dumbwaiter	30-Day: Dumbwaiter	Check sensitivity of door closure pressure
			Check and clean electrical panels
			Perform visual inspection
			Check hoistway terminal connection
PM4674-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4674-EAF0002	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4674-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.

NNM08AA54C

PREVENTIVE MAINTENANCE

PMNUM	PM DESCRIPTION		TASK DESCRIPTION
			Report all deficiencies.
PM4674-EW0001	Preventive Maintenance - EyeWash	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4674-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4674-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4674-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4674-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4674-FILT0004	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4674-GEN0001	Preventive Maintenance - Emergency Generator	30-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Verify day tank's fuel level is topped off between float ranges, if applicable.
		90-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check generator output
			Verify day tank's fuel level is topped off between float ranges, if applicable.
		365-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Check generator output
			Winterize system
			Verify continuity of generator ground, including the fuel tank ground
			Verify day tank's fuel level is topped off between float ranges, if applicable.
PM4674-HWP0001	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4674-HWP0002	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4674HWTR0001	Preventive Maintenance - Hot Water Treatment	7-day Hot Water Treatment PM	Perform testing on hot water system
			Add chemicals if needed
PM4674HWTR0002	Preventive Maintenance - Hot Water Treatment (Off-season)	7-day Hot Water Treatment PM (Off-season)	Perform testing on hot water system
			Add chemicals if needed
PM4674HWTR0003	Preventive Maintenance - Hot Water Treatment (Off-season)	30-day Hot Water PM (Off-season)	Notify Water Treatment Tech when performing PM (4-1058, 4-6020)
			Open all necessary valves (Supply/Control/Makeup)
			Check to make sure makeup water is on
			Check to make sure system is filled
			Coordinate operation with UCS
			Turn on circulation pumps and run for 48 hours
			Shut down pumps and close all necessary valves

PREVENTIVE MAINTENANCE

PMNUM	PM DESCRIPTION		TASK DESCRIPTION
PM4674-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4674-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4674-RV0001	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4674-UPS0001	Preventive Maintenance - UPS Power System	90-Day: UPS System	Perform visual safety check
			Check amperage and voltage
		180-Day: UPS System	Perform visual safety check
			Check amperage and voltage
			Check operation and controls
		365-Day: UPS System	Perform visual safety check
			Check amperage and voltage
			Check operation and controls
			Check termination points
			Inspect and clean all modules
PM4675-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4675-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4675-BLR0001	Preventive Maintenance - Steam Boiler	30-Day: Boiler in dry lay-up	Perform safety walk-through
			Clean boiler area, if necessary
PM4675-BLR0002	Preventive Maintenance - Steam Boiler	30-Day: Boiler in dry lay-up	Perform safety walk-through
			Clean boiler area, if necessary
PM4675-BLR0003	Preventive Maintenance - Steam Boiler	30-Day: Boiler in dry lay-up	Perform safety walk-through
			Clean boiler area, if necessary
PM4675-DFWT0001	Preventive Maintenance - De-aerating Feed-water Tank	90-Day: De-aerating Feed-water Tank	Check operation and controls. If any problems found issue work request.
			Clean area around tank.
			Perform safety walkthrough.
PM4675-EW0001	Preventive Maintenance - EyeWash	30-Day: Portable Eyewash Station	Check fluid levels.
			Check spray heads for cleanliness.
			Clean unit as necessary.
			Date and initial inspection tag
		180-Day: Portable Eyewash Station	Change saline solution.
			Check spray heads for cleanliness.
			Clean unit as necessary.
			Date and initial inspection tag
PM4675-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4675-FWP0001	Preventive Maintenance -Feed Water Pump	30-Day: Feed Water Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Feed WaterPump	Check operation and controls. If any problems are found issue work request
			Lubricate as necessary
			Check coupling and drives
PM4675-FWP0002	Preventive Maintenance -Feed Water Pump	30-Day: Feed Water Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Feed WaterPump	Check operation and controls. If any problems are found issue work request
			Lubricate as necessary
			Check coupling and drives
PM4675LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4675-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4675-PMP0001	Preventive Maintenance - Fuel Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4675-PMP0002	Preventive Maintenance - Fuel Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4675-PMP0003	Preventive Maintenance - Fuel Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4675-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary

NNM08AA54C

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4675-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4675-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4675-RV0001	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4675-SHEW0001	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4675-SPMP001	Preventive Maintenance - Sump Pump	30-Day: Sump Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Sump Pump	Check operation and controls. If any problems are found issue work request
			Lubricate as necessary
			Check coupling and drives
PM4676-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4676-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4676-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4676-HST0002	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4676LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4676-LROD0001	Preventive Maintenance - Lightning Protection System	365 Day: Lightning Protection System	Measure and record resistance readings
			Inspect rods, cables, and fasteners
			Attach and turn in ground readings with PM sheet
PM4676-LTS0001	Preventive Maintenance - Emergency Lights	180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
		30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
PM4676-ODT0001	Preventive Maintenance - Oxygen Detection System	30-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Verify ODT is required at this location. If unit is not needed issue work request to remove unit
		180-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Calibrate system
			Check all alarm points
			Verify ODT is still required at this location. If unit is not needed issue work request to remove unit
PM4676-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4676-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4676-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4676-PNL0003	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4676-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4676-SHEW0001	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4676-SHEW0002	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4677-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4677-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.

NNM08AA54C
ATTACHMENT J-24

			Install knockout hole plugs as necessary
PM4677-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4677-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4677-SH0001	Preventive Maintenance - Safety Shower	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4678-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4678-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4678-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4678-DOOR0002	Preventive Maintenance - Sliding Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4678-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4678-EW0001	Preventive Maintenance - EyeWash	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4678-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.

PM4694-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4694-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4696-AH0002	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4696-AH0003	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4696-ATS0001	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4696-BATB0001	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Wet Cell (UPS)	Check and refill battery
			Check connections
			Clean and lubricate terminals
			Clean battery if necessary
			Check operation and controls
			Take specific gravity and voltage readings
			Check pilot cell temperature
PM4696-DXAC0001	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4696-DXAC0002	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request

			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4696-ELEV0001	Preventive Maintenance - Cable Elevator	30-Day: Cable Elevator with Motor Generator Drive	Verify operation of all safety edges
			Verify operation of emergency telephone
			Check and clean all electrical panels
			Inspect and lubricate governors
			Check brushes on drive motors
			Check sensitivity of door closure pressure
			Inspect hoistways and car top
			Inspect motor generator set
PM4696-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4696-EROOM0002	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4696-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4696-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4696-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4696-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4696-FILT0004	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4696LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4696-LTS0001	Preventive Maintenance - Aircraft Lights	30-Day: Aircraft/Aviation Lights	Verify operation
PM4696-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4696-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (John Davis)	Exercise all breakers in distribution panels 3-4 times

			Notify RO System Tech to restart system after work is performed
PM4700-PMP0008	Preventive Maintenance - Deionized Water Pump	180-Day: System Pumps	Notify RO System Tech before performing PM (4-5273)
			Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction, discharge piping, seals, packing glands, etc.; make minor repairs as necessary
			Lubricate pump and motor as necessary
			Notify RO System Tech to restart system after work is performed
PM4700-PMP0009	Preventive Maintenance - Chemical Metering Pump	30-Day: Chemical Metering Pump	Check Operation and Controls of Unit. If any problems are found issue work request
PM4700-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4700-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4700-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4700-ROSYS0001	Preventive Maintenance - UV Light	365-Day: UV Light Replacement	Replace UV light in RO System
PM4700-ROSYS0002	Preventive Maintenance - Filter Inspection	180-Day: Filter Inspection	Check Bag Pre-filters and replace as necessary
			Check Charcoal Pre-Filter and replace as necessary
			Check Cartridge filters and replace as necessary
			Backflush Carbon-bed Pre-Filter
PM4700-ROSYS0003	Preventive Maintenance - Operational Inspection	7-Day: Operational Inspection	Perform Visual Inspection of System
			Check log of gauge and instrumentation readings for the past work week
			Note any deficiencies
PM4700-ROSYS0004	Preventive Maintenance - Conductivity Test	30-Day: Conductivity Test (4700)	Perform Conductivity measurement on sample of system output water
			Record reading of conductivity in RO system log
PM4700-SHEW0001	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4700-SPMP001	Preventive Maintenance - Sump Pump	30-Day: Sump Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Sump Pump	Check operation and controls. If any problems are found issue work request
			Lubricate as necessary
			Check coupling and drives
PM4702-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4702-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4702-ADRY0001	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/o Condenser Fan)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/o Condenser Fan)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4702-AH0001	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4702-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4702-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4702-DXAC0001	Preventive Maintenance - DXAC Unit	90-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		180-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Thru The Wall Unit (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		365-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Clean condenser and evaporator coils
			Check safety interlocks
PM4702-DXAC0002	Preventive Maintenance - Direct Expansion AC Unit	90-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		180-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Thru The Wall Unit (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		365-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Clean condenser and evaporator coils

			Check safety interlocks
PM4702-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4702-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4702-EROOM0002	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4702-EW0001	Preventive Maintenance - EyeWash	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4702-EW0002	Preventive Maintenance - Portable EyeWash	30-Day: Portable Eyewash Station	Check fluid levels.
			Check spray heads for cleanliness.
			Clean unit as necessary.
			Date and initial inspection tag
		180-Day: Portable Eyewash Station	Change saline solution.
			Check spray heads for cleanliness.
			Clean unit as necessary.
			Date and initial inspection tag
PM4702-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4702-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4702-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4702-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4702-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4702-HST0002	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4702-HWP0001	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4702HWTR0001	Preventive Maintenance - Hot Water Treatment	7-day Hot Water Treatment PM	Perform testing on hot water system
			Add chemicals if needed
PM4702HWTR0002	Preventive Maintenance - Hot Water Treatment (Off-season)	7-day Hot Water Treatment PM (Off-season)	Perform testing on hot water system
			Add chemicals if needed
PM4702HWTR0003	Preventive Maintenance - Hot Water Treatment (Off-season)	30-day Hot Water PM (Off-season)	Notify Water Treatment Tech when performing PM (4-1058, 4-6020)
			Open all necessary valves (Supply/Control/Makeup)
			Check to make sure makeup water is on
			Check to make sure system is filled
			Coordinate operation with UCS
			Turn on circulation pumps and run for 48 hours
			Shut down pumps and close all necessary valves
PM4702LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4702-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4702-LTS0002	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4702-LTS0003	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test

PM4702-PNL0005	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4702-PNL0006	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4702-PNL0007	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4702-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4702-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4702-ROOF0003	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4702-ROOF0004	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4702-ROOF0005	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4702-ROOF0006	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4702-RV0001	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4703-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4703-DOOR0001	Preventive Maintenance - Swinging Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4703-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4703-EROOM0002	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4703LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4703-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4703-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4703-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4703-PNL0003	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4703-PNL0004	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4703-PNL0005	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4703-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4703-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4703-ROOF0003	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4703-VSC0001	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4704-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4704-DOOR0002	Preventive Maintenance - Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4704-DXAC0001	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4704-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4704-EAF0002	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4704-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4704-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4704-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4704-FILT0002	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4704-FILT0003	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4704-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4704-HV0001	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.

PM4704-HV0002	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4704LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4704-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4704-LTS0002	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4704-LTS0003	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4704-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4704-PMP0001	Preventive Maintenance - Oil Circulating Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
PM4704-PMP0002	Preventive Maintenance - Oil Circulating Pump	90-Day: Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Pump	Check for proper operation of pump. If any problems are found issue work request

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4705-AH0028	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4705-AH0029	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4705-AH0030	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4705-AH0036	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4705-AH0037	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4705-AH0038	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4705-AH0039	Preventive Maintenance - Air Handling Unit	90-Day: Mini-Mate Air Handling Unit, Chill Water	Check controls and unit for proper operation. If any problems are found then issue work request.
			Lubricate shaft and motor bearings as necessary.
PM4705-AH0047	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4705-AH0048	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4705-AH0049	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable

			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4705-AH019A	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4705-AH019B	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4705-AH020A	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4705-ATS0001	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4705-BFP0002	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4705-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4705-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4705-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4705-CRN0002	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4707-AH0002	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4707-AH0003	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4707-AH0004	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4707-AH0005	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4707-AH0006	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4707-AH0007	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4707-AH0008	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4707-AH0009	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4707-AH0010	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4707-AH0011	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4707-AH0012	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit (Day Shift)	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4707-AH0013	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4707-AH0014	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4707-AH0015	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4707-AH0016	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4707-AH0017	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4707-AH0018	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4707-AH0019	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4707-AH0020	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4707-AH0035	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4707-AH0037	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4707-ATS0001	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4707-BATB0004	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Sealed	Check connections
			Clean and lubricate terminals
			Clean battery if necessary
PM4707-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4707-BLR0001	Preventive Maintenance - Steam Boiler	30-Day: Boiler in dry lay-up	Perform safety walk-through
			Clean boiler area, if necessary
PM4707-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4707-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4707-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4707-CRN0002	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.

			Lubricate blower motor as necessary
			Check suction and discharge pressure
		365-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Check suction and discharge pressure
			Clean condenser and evaporator coils
			Check safety interlocks
PM4707-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4707-EAF0002	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4707-HV0012	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4707-HV0013	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4707-HV0014	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4707-HWP0001	Preventive Maintenance -Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4707-HWP0002	Preventive Maintenance -Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4707-HWP0003	Preventive Maintenance -Hot Water Pump	365-Day: Hot Water Pump (Day-Shift)	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4707HWTR0001	Preventive Maintenance - Hot Water Treatment	7-day Hot Water Treatment PM	Perform testing on hot water system
			Add chemicals if needed
PM4707LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4707-LROD0001	Preventive Maintenance - Lightning Protection System	365 Day: Lightning Protection System	Measure and record resistance readings
			Inspect rods, cables, and fasteners
			Attach and turn in ground readings with PM sheet
PM4707-LTS0002	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4707-TFLR0001	Preventive Maintenance - Tilt Floor	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4707-TFLR0002	Preventive Maintenance - Tilt Floor	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4707-UPS0004	Preventive Maintenance - UPS Power System	90-Day: UPS System	Perform visual safety check
			Check amperage and voltage
		180-Day: UPS System	Perform visual safety check
			Check amperage and voltage
			Check operation and controls
		365-Day: UPS System	Perform visual safety check
			Check amperage and voltage
			Check operation and controls
			Check termination points
			Inspect and clean all modules
PM4707-VSC0001	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4707-VSC0002	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4708A-AH0001	Preventive Maintenance - Air Handling Unit	112-Day: Air Handling Unit,	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment, replace/adjust as necessary.
PM4708A-AH0004	Preventive Maintenance - Air Handling Unit	90-Day: Air Handling Unit with Combination Back-Up	Check controls and unit for proper operation. If any problems are found issue work request
		90-Day: Air Handling Unit with Combination Back-Up	Lubricate shaft and motor bearings as necessary
		90-Day: Air Handling Unit with Combination Back-Up	Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
		180-Day: Air Handling Unit with Combination Back-Up	Check controls and unit for proper operation. If any problems are found issue work request
		180-Day: Air Handling Unit with Combination Back-Up	Lubricate shaft and motor bearings as necessary
		180-Day: Air Handling Unit with Combination Back-Up	Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
		180-Day: Air Handling Unit with Combination Back-Up	Insure condensate drain is free of blockage.

NNM08AA54C

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
		365-Day: Air Handling Unit with Combination Back-Up	Check controls and unit for proper operation. If any problems are found issue work request
		365-Day: Air Handling Unit with Combination Back-Up	Lubricate shaft and motor bearings as necessary
		365-Day: Air Handling Unit with Combination Back-Up	Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
		365-Day: Air Handling Unit with Combination Back-Up	Clean Coil evaporator drain pan, blower, motor and drain piping as required.
		365-Day: Air Handling Unit with Combination Back-Up	Clean centrifugal fan.
PM4708A-AH0005	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4708A-AH0006	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4708A-AH0007	Preventive Maintenance - Air Handling Unit	112-Day: Air Handling Unit,	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment, replace/adjust as necessary.
PM4708A-AH0011	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4708A-AH0012	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4708A-AH0013	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4708A-AH0014	Preventive Maintenance - Air Handling Unit	112-Day: Air Handling Unit,	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment, replace/adjust as necessary.
PM4708A-AH0015	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4708A-LTS0012	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4708A-LTS0013	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4708A-LTS0014	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4708A-RAF00B3	Preventive Maintenance - Return Air Fan	90-Day: Supply or Return Air Fan (Night-Shift)	Check operation and controls
		180-Day: Supply or Return Air Fan (Night-Shift)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate as necessary
PM4708-ASH0002	Preventive Maintenance - Air Shower	30-Day Air shower (sheetmetal)	Check high efficiency filters, replace if necessary
			Check pre-filters, replace if necessary
		365-Day Air shower (millwright)	Check automatic doors and air shower for proper operation
			Inspect and clean fans over air shower
PM4708-ATS0001	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4708-ATS0002	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls

		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4708-ATS0003	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4708A-VSC0001	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4708A-VSC0002	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4708A-VSC0003	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4708B-AH0001	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4708B-AH0003	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4708B-AH0004	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4708B-AH0005	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4708B-AH0006	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4708B-AH0007	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Verify day tank's fuel level is topped off between float ranges, if applicable.
		365-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Check generator output
			Winterize system
			Verify continuity of generator ground, including the fuel tank ground
			Verify day tank's fuel level is topped off between float ranges, if applicable.
PM4708-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4708-HST0002	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4708-HST0004	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4708-HV0001	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request

			Check belts for wear, proper tension, and alignment, replace/adjust as necessary.
PM4711-AH0013	Preventive Maintenance - Air Handling Unit	112-Day: Air Handling Unit,	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment, replace/adjust as necessary.
PM4711-AH0014	Preventive Maintenance - Air Handling Unit	112-Day: Air Handling Unit,	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment, replace/adjust as necessary.
PM4711-AH0015	Preventive Maintenance - Air Handling Unit	112-Day: Air Handling Unit,	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment, replace/adjust as necessary.
PM4711-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: Chiller, Air-Cooled	Check unit's evaporator and condenser pressures.
			Check fan motor if applicable for excessive noise and vibration.
			Check oil temperature
			Check compressor oil level.
			Lubricate condenser fan motors as necessary
			Run system control tests.
			Perform refrigerant leak check.
			Check refrigerant charge/level, add as necessary
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil and oil filters(s).
			Inspect safety relief valve.

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
			Clean condenser
			Clean evaporator tubes if available
PM4711-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4711-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4711-DOOR0002	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4711-DXAC0001	Preventive Maintenance - Critical DXAC Unit	90-Day: Critical Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Check safety interlocks
		180-Day: Critical Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls
			Check belts, change if necessary
			Lubricate condenser fan
			Lubricate blower motor
			Check and lubricate bearings
			Check suction and discharge pressure
			Check safety interlocks
			Clean condenser and evaporator coils
PM4711-DXAC0002	Preventive Maintenance - Critical DXAC Unit	90-Day: Critical Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request

			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4711-EW0001	Preventive Maintenance - EyeWash	30-Day: Portable Eyewash Station	Check fluid levels.
			Check spray heads for cleanliness.
			Clean unit as necessary.
			Date and initial inspection tag
		180-Day: Portable Eyewash Station	Change saline solution.
			Check spray heads for cleanliness.
			Clean unit as necessary.
			Date and initial inspection tag
PM4711-EW0004	Preventive Maintenance - EyeWash	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4711-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4711-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4711-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4711-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4711-FILT0004	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4711-FILT0005	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4711-FILT0006	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4711-FILT0007	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4711-FILT0008	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary

PM4711-FILT0021	Preventive Maintenance - Filters	30-Day: Filter PM	Check Filters, change if necessary
PM4711-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4711-HST0002	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4711-HST0003	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4711-HST0004	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4711-HST0005	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4711-HST0006	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4711-HST0007	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.

PM4714-ACFLT0002	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4714-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4714-ACMP0002	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check Belts. Change if necessary.
		180-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4714-ADRY0001	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/o Condenser Fan)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/o Condenser Fan)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4714-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4714-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4714-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4714-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4714-HWP0001	Preventive Maintenance -Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4714HWTR0001	Preventive Maintenance - Hot Water Treatment	7-day Hot Water Treatment PM	Perform testing on hot water system
			Add chemicals if needed
PM4714LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4714-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4714-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4714-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4714-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4714-PNL0003	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4714-PNL0004	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4714-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4714-RV0001	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4714-RV0002	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4714-VSC0001	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.

			Lubricate pump and motor as necessary
			Check drive coupling
PM4716-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4716-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4716-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4716-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4716-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4716-ROOF0003	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4716-ROOF0004	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4716-ROOF0005	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4718-1-AH0006	Preventive Maintenance - Air Handling Unit	112-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4718-1-AH0007	Preventive Maintenance - Air Handling Unit	112-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4718-1-AH0013	Preventive Maintenance - Air Handling Unit	112-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4718-1-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: Chiller, Air-Cooled	Check unit's evaporator and condenser pressures.
			Check fan motor if applicable for excessive noise and vibration.
			Check oil temperature
			Check compressor oil level.
			Lubricate condenser fan motors as necessary
			Run system control tests.
			Perform refrigerant leak check.
			Check refrigerant charge/level, add as necessary
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil and oil filters(s).
			Inspect safety relief valve.
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
			Clean condenser
			Clean evaporator tubes if available

PM4718-1-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4718-1-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4718-1-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4718-1-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4718-1-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4718-1-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4718-1-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4718-1-HUM0001	Preventive Maintenance - Humidifier	90-Day Humidifier, Electric Generator Type	Check operation and controls. If any problems are found issue work request
			Check canister for mineral build-up
			Check fill valve
			Check dump valve
			Inspect Vapor hoses
PM4718-1-HUM0002	Preventive Maintenance - Humidifier	90-Day Humidifier, Electric Generator Type	Check operation and controls. If any problems are found issue work request
			Check canister for mineral build-up
			Check fill valve
			Check dump valve
			Inspect Vapor hoses
PM4718-1-ODT0001	Preventive Maintenance - Oxygen Detection System	180-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Calibrate system
			Check all alarm points

NNM08AA54C

			Install knockout hole plugs as necessary
PM4718-1-PNL0007	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4718-1-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4718-1-SHEW0001	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4718-2-AH0002	Preventive Maintenance - Air Handling Unit	112-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4718-2-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM	Inspect lifting cables
			Inspect drive mechanism
			Inspect brake settings if applicable.
			Check master link on chains
			Visually inspect alignment of tracks

**NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Lubricate tracks as necessary
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4718-2-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4718-2-HUM0001	Preventive Maintenance - Humidifier	90-Day Humidifier, Electric Generator Type	Check operation and controls. If any problems are found issue work request
			Check canister for mineral build-up
			Check fill valve
			Check dump valve
			Inspect Vapor hoses
PM4718-2-ODT0001	Preventive Maintenance - Oxygen Detection System	30-Day Oxygen Detection System, Wet Cell Type	Inspect system and calibrate
			Check water levels if applicable, add if necessary
			Verify ODT is still required at this location. If unit is no longer needed issue work request to remove unit
PM4718-2-ODT0002	Preventive Maintenance - Oxygen Detection System	30-Day Oxygen Detection System, Wet Cell Type	Inspect system and calibrate
			Check water levels if applicable, add if necessary
			Verify ODT is still required at this location. If unit is no longer needed issue work request to remove unit
PM4718-2-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4718-2-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4718-2-PNL0003	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4718-2-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4718-3-ATS0001	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4718-3-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4718-3-DXAC0001	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven	Check operation and controls. If any problems are found issue work request.
			Lubricate condenser fan as necessary

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Check suction and discharge pressure
			Clean condenser and evaporator coils
			Check safety interlocks
PM4718-3-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4718-3-GEN0001	Preventive Maintenance - Emergency Generator	30-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Verify day tank's fuel level is topped off between float ranges, if applicable.
		90-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Check generator output
			Verify day tank's fuel level is topped off between float ranges, if applicable.
		365-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Check generator output
			Winterize system
			Verify continuity of generator ground, including the fuel tank ground
			Verify day tank's fuel level is topped off between float ranges, if applicable.
PM4718-3-ODT0001	Preventive Maintenance - Oxygen Detection System	30-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Verify ODT is required at this location. If unit is not needed issue work request to remove unit
		180-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Calibrate system
			Check all alarm points
			Verify ODT is still required at this location. If unit is not needed issue work request to remove unit
PM4718-3-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4718-AH0001	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4718-AH0002	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4718-AH0003	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4718-AH0004	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4718-AH0005	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4718-AH0006	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4718-AH0009	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4718-AH0011	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4718-AH0012	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4718-ATS0001	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4718-ATS0002	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4718-BATB0001	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Sealed	Check connections
			Clean and lubricate terminals
			Clean battery if necessary
PM4718-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4718-BLR0001	Preventive Maintenance - Steam Boiler	30-Day: Boiler, Steam, Building 4718	Clean control box
			Check for leaks
			Check thermocoupling
			Check chemical controls and water analysis
			Lift safety valves, check dampers and stack
			Clean boiler area if necessary
		90-Day: Boiler, Steam Building 4718	Clean control box
			Check for leaks
			Inspect thermocoupling
			Check chemical controls and water analysis
			Lift safety valves, check dampers and stack
			Clean interior and exterior of boiler
			Check turbine flues and clean furnace
			Clean burner, filters and strainers
			Check flow or limit switches
			Clean out water leg on limit controls
PM4718-CC0001	Preventive Maintenance - Condenser Water	90-Day: Condenser Water	Check for corrosion
PM4718-CC0002	Preventive Maintenance - Condenser Water	90-Day: Condenser Water	Check for corrosion
PM4718-CCTWR0001	Preventive Maintenance - Cooling Tower	180-Day: Cooling Tower Cleaning	Contact HVAC Crew for Support.
			Clean and Inspect Hot Water Basin.
			clean inside of water tower using water hose, if required; scrape, brush and wipe as required;
PM4718-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: Chiller, Centrifugal, Water-Cooled	Check unit's evaporator and condenser pressures, oil tank pressure, differential oil pressure, and discharge oil pressure.
			Check oil level in chiller oil sump.
			Check oil temperature
			Check dehydrator or purge system; replace purge filter and inspect sight glass, replace if needed.
			Run system control tests
			Check refrigerant charge/level, add as necessary.
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Clean dehydrator float valve.
			Perform spectrochemical analysis of compressor oil.
			Replace oil and oil filter(s)
			Inspect cooler and condenser tubes for leaks.

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Inspect utility vessel vent piping and safety relief valve.
			Inspect/clean the economizer (vane), gas line damper valve, and actuator arm.
			Run an insulation test on the motor.
			Check (IR Scan) and tighten motor terminals.
			Service chiller starter and check all controls and terminations.
PM4718-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4718-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4718-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4718CTTR0001	Preventive Maintenance - Cooling Tower Water Treatment	30-day Cooling Tower Water Treatment PM	Perform testing on Cooling tower water system
			Add chemicals if needed
PM4718-CTWR0001	Preventive Maintenance - Cooling Tower	90-Day: Cooling Tower	Lubricate as necessary
			Check oil, add or change if necessary
			Check coupling and drives
		180-Day: Cooling Tower	Check operation of unit for water leaks, noise or vibration. If any problems found issue work request.
			Check electrical wiring and connections; make appropriate adjustments.
			Drain and flush could water sump and clean strainers; if required.
			Refill with water, check make-up water assembly for leakage, adjust electronic level controls if necessary.
			Remove clean and reinstall conductivity and ph electrodes in chemical water treatment system.
PM4718-CTWRC0001	Preventive Maintenance - Cooling Tower Controls	90-Day: Cooling Tower Controls	Inspect and calibrate controls
			Clean controls if necessary
PM4718-CWP0001	Preventive Maintenance -Condenser Water Pump	365-Day Condenser Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling.

PM4718-CWP0002	Preventive Maintenance -Condenser Water Pump	365-Day Condenser Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling.
PM4718CWTR0001	Preventive Maintenance - Chilled Water Treatment	7-day Chilled Water Treatment PM	Perform testing on chilled water system
			Add chemicals if needed
PM4718CWTR0002	Preventive Maintenance - Chilled Water Treatment	7-day Chilled Water Treatment PM	Perform testing on chilled water system
			Add chemicals if needed
PM4718-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4718-DOOR0002	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4718-DOOR0003	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4718-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan (Day-Shift)	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate if necessary
			Check belts for wear, tension, and alignment, if applicalbe; adjust as required.
			If any problems are found issue work request
PM4718-EAF0002	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan (Day-Shift)	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate if necessary
			Check belts for wear, tension, and alignment, if applicalbe; adjust as required.
			If any problems are found issue work request
PM4718-ELEV0001	Preventive Maintenance - Hydraulic Elevator	30-Day: Hydraulic Elevator with Automatic Gate	Check and clean all electrical panels
			Verify operation of emergency telephone

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Inspect hoistways and car top
			Check oil reservoir
			Check sensitivity of door closure pressure
PM4718-EW0001	Preventive Maintenance - EyeWash	30-Day: Safety Shower & Eyewash Station (Air-charged)	Check operation and controls. If any problems are found issue work request
			Check saline solution level, add as necessary
			Verify proper air pressure
			Date and initial inspection tag
		180-Day: Safety Shower & Eyewash Station (Air-charged)	Check operation and controls. If any problems are found issue work request
			Change saline solution
			Repressurize tank
			Date and initial inspection tag
PM4718-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4718-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4718-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4718-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4718-FILT0004	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4718-FILT0005	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary

PM4720-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4720-DOOR0002	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4720-DXAC0001	Preventive Maintenance - Direct Expansion AC Unit	60-Day: Walk-In Coolers and Freezers, Direct Expansion Units	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan motor as necessary
			Clean condenser and evaporator coils
		180-Day: Walk-In Coolers and Freezers, Direct Expansion Units	Check operation and controls. If any problems are found issue work request.
			Lubricate condenser fan motor as necessary
			Clean condenser and evaporator coils
PM4720-DXAC0002	Preventive Maintenance - Direct Expansion AC Unit	60-Day: Walk-In Coolers and Freezers, Direct Expansion Units	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan motor as necessary
			Clean condenser and evaporator coils
		180-Day: Walk-In Coolers and Freezers, Direct Expansion Units	Check operation and controls. If any problems are found issue work request.
			Lubricate condenser fan motor as necessary
			Clean condenser and evaporator coils
PM4720-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4720-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4720-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4723-ACFLT0001	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4723-ACFLT0002	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4723-ACFLT0003	Preventive Maintenance - Air Compressor Filter Change	365-Day: Air Compressor Filter Change	Replace Filter(s) on air compressor unit.
PM4723-ACMP0001	Preventive Maintenance - Air Compressor Control	90-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change if necessary
			Lubricate as necessary

			If any problems are found issue work request
PM4731-DOOR0002	Preventive Maintenance - Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4731-DOOR0007	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM	Inspect lifting cables
			Inspect drive mechanism
			Inspect brake settings if applicable.
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4731-DXAC0001	Preventive Maintenance - DXAC Unit	90-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed Blower Motor)	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
		180-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Thru The Wall Unit (W/ Sealed Blower Motor)	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
		365-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed Blower Motor)	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4731-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4731-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4731-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4731-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4731-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system

NNM08AA54C

PREVENTIVE MAINTENANCE

PMNUM	PM DESCRIPTION		TASK DESCRIPTION
PM4731-SHEW0001	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4731-SHEW0002	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4731-SHEW0003	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4731-SPR0001	Preventive Maintenance - Sprinkler System	30-Day: Wet Sprinkler System PM	Perform PM
		90-Day: Wet Sprinkler System PM	Perform PM
		365-Day: Wet Sprinkler System PM	Perform PM
PM4732-AH0001	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4732-AH0002	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4732-AH0003	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4732-AH0004	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit (Day Shift)	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4732-AH0005	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4732-AH0006	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit (Day Shift)	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4732-AH0007	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit (Day Shift)	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4732-AH0008	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4732-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4732-CRU0001	Preventive Maintenance - Computer Room Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems found then issue work request.
			Lubricate blower motor as necessary
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4732-CRU0002	Preventive Maintenance - Computer Room Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems found then issue work request.
			Lubricate blower motor as necessary
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4732-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4732-DOOR0003	Preventive Maintenance - Electric Personnel Door	30-Day Personnel Doors, Electric	Check operation and controls. If any problems are found issue work request.
			Clean photocells and check range
			Check door closure pressure
			Clean tracks and check for proper alignment
			Check tolerances on locking mechanisms
			Check emergency release mechanisms (where applicable)
PM4732-DOOR0004	Preventive Maintenance - Electric Personnel Door	30-Day Personnel Doors, Electric	Check operation and controls. If any problems are found issue work request.
			Clean photocells and check range
			Check door closure pressure
			Clean tracks and check for proper alignment
			Check tolerances on locking mechanisms
			Check emergency release mechanisms (where applicable)
PM4732-DOOR0005	Preventive Maintenance - Electric Personnel Door	30-Day Personnel Doors, Electric	Check operation and controls. If any problems are found issue work request.
			Clean photocells and check range
			Check door closure pressure
			Clean tracks and check for proper alignment

			Install knockout hole plugs as necessary
PM4732-PNL0022	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4732-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4732-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4732-ROOF0003	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4732-ROOF0004	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4732-ROOF0005	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4732-ROOF0006	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4732-SPR0001	Preventive Maintenance - Sprinkler System	30-Day: Wet Sprinkler System PM	Perform PM
		90-Day: Wet Sprinkler System PM	Perform PM
		365-Day: Wet Sprinkler System PM	Perform PM
PM4732-VSC0001	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4732-VSC0002	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4732-VSC0003	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4733-AH0001	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust/replace as necessary.
PM4733-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4733-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4733LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4733-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4733-LTS0002	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4733-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4733-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4733-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4733-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4734-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4734-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check belts, change if necessary
			Check filters, change if necessary
		365-Day: Air Compressor	Drain Tank. If unit has automatic drain then cycle drain.
			Check oil, add or change as necessary
			Lubricate as necessary
			Check belts, change if necessary
			Check filters, change if necessary
PM4735-ADRY0001	Preventive Maintenance - Air Dryer	60-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems found then issue work request.
			Drain and flush
			Drain water separator
		180-Day: Air Dryer, Refrigerant Type (w/ sealed condenser motor)	Check operation and controls. If any problems are found then issue work request.
			Drain and flush
			Drain water separator
			Clean condenser coils
PM4735-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4735-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4735-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4735-DOOR0001	Preventive Maintenance - Sliding Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4735-HWP0001	Preventive Maintenance -Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4735-HWP0002	Preventive Maintenance -Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4735HWTR0001	Preventive Maintenance - Hot Water Treatment	7-day Hot Water Treatment PM	Perform testing on hot water system
			Add chemicals if needed
PM4735LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting

			Report Findings to Electrical Supervisor
PM4735-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4735-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4735-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4735-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4735-RV0001	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM4735-VSC0001	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4736-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4737-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4738-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4738-DOOR0002	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4738-DOOR0003	Preventive Maintenance - Sliding Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4738-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4738-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.

			Check stops and tethers
			If any problems are found issue work request
PM4747-DOOR0003	Preventive Maintenance - Manual Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4747-DOOR0004	Preventive Maintenance - Manual Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4747-DOOR0005	Preventive Maintenance - Manual Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4747-DXAC0001	Preventive Maintenance - DXAC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4747-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4747-EAF0002	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4747-EAF0003	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4747-EAF0004	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4747-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4747-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4747-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4747-HWP0001	Preventive Maintenance -Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4747-HWP0002	Preventive Maintenance -Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4747LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4747-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4747-LTS0002	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4747-LTS0003	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4747-LTS0004	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0008	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0009	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0010	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0011	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0012	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0013	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0014	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0015	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit (Day Shift)	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4755-AH0016	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit (Day Shift)	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4755-AH0017	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0018	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0019	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0020	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit (Day Shift)	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4755-AH0021	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit (Day Shift)	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4755-AH0024	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit (Day Shift)	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4755-AH0025	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit (Day Shift)	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4755-AH0026	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit (Day Shift)	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4755-AH0028	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0029	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Direct Drive, Day-shift)	Check with operating or area personnel for deficiencies.
			Check controls and unit for proper operation.

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check for unusual noise or vibration.
			Lubricate shaft and motor bearings.
			Insure condensate drain is free of blockage.
			Inspect exterior piping and valves for leaks; tighten connections as required.
			Clean area around equipment.
			Fill out maintenance checklist and report deficiencies.
PM4755-AH0030	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0031	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0032	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Direct Drive, Day-shift)	Check with operating or area personnel for deficiencies.
			Check controls and unit for proper operation.
			Check for unusual noise or vibration.
			Lubricate shaft and motor bearings.
			Insure condensate drain is free of blockage.
			Inspect exterior piping and valves for leaks; tighten connections as required.
			Clean area around equipment.
			Fill out maintenance checklist and report deficiencies.
PM4755-AH0033	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0040	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0041	Preventive Maintenance - Air Handling Unit	180-Day: Air Handling Unit, (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; replace/adjust as necessary.
PM4755-AH0042	Preventive Maintenance - Air Handling Unit	365-Day: Air Handling Unit (Day Shift)	Check controls and unit for proper operation
			Inspect interior of unit for loose debris (pest, loose filters, etc.)
			Vacuum out condensate drain/pan of unit as applicable
			Check exterior coil connections for leaks
			Check air bleed valves for proper operation where applicable
PM4755-ATS0001	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4755-ATS0002	Preventive Maintenance - Auto Transfer Switch	180-Day: Auto Transfer Switch	Check automatic operation and controls
		365-Day: Auto Transfer Switch	Check automatic operation and controls
			Clean equipment
			Perform Infrared Inspection to check all contacts and connections
			If temperatures of over 121 degrees F noticed, connection must be repaired/tightened.
PM4755-BATB0003	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Sealed	Check connections
			Clean and lubricate terminals
			Clean battery if necessary
PM4755-BATB0004	Preventive Maintenance - Battery Bank	30-Day: Battery Bank, Sealed	Check connections
			Clean and lubricate terminals
			Clean battery if necessary
PM4755-BFP0001	Preventive Maintenance - Back Flow Preventer	90-Day: Back Flow Preventer	Check Operations
PM4755-BLR0001	Preventive Maintenance - Steam Boiler	30-Day: Boiler in dry lay-up	Perform safety walk-through
			Clean boiler area, if necessary
PM4755-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4755-CHWP0002	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4755-CODT0001	Preventive Maintenance - Carbon Monoxide Detection System	90-Day Carbon Monoxide Detection System	Inspect system and calibrate
			Check water levels, add if necessary
PM4755-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4755-CRN0002	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4755-CRN0003	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4755-CRN0004	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4755-CRU0001	Preventive Maintenance - Computer Room Unit	90-Day Computer Room Type Air Handling Unit, Chill Water	Check operation and controls. If any problems found then issue work request.
			Lubricate blower motor as necessary
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Check safety interlocks
PM4755-CRU0002	Preventive Maintenance - Computer Room Unit	90-Day: Mini-Mate Air Handling Unit, Chill Water	Check controls and unit for proper operation. If any problems are found then issue work request.
			Lubricate shaft and motor bearings as necessary.
PM4755-DFWT0001	Preventive Maintenance - De-aerating Feed-water Tank	90-Day: De-aerating Feed-water Tank	Check operation and controls. If any problems found issue work request.
			Clean area around tank.
			Perform safety walkthrough.
PM4755-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4755-DOOR0002	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4755-DOOR0003	Preventive Maintenance - Sliding Door	180-Day Sliding Door, Automatic	Lubricate tracks as necessary
			Inspect drive mechanism

**NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check stops and tethers
			Inspect tracks for debris
			If any problems are found issue work request
PM4755-DOOR0004	Preventive Maintenance - Sliding Door	180-Day Sliding Door, Automatic	Lubricate tracks as necessary
			Inspect drive mechanism
			Check stops and tethers
			Inspect tracks for debris
			If any problems are found issue work request
PM4755-DOOR0005	Preventive Maintenance - Electric Personnel Door	30-Day Personnel Doors, Electric	Check operation and controls. If any problems are found issue work request.
			Clean photocells and check range
			Check door closure pressure
			Clean tracks and check for proper alignment
			Check tolerances on locking mechanisms
			Check emergency release mechanisms (where applicable)
PM4755-DOOR0006	Preventive Maintenance - Electric Personnel Door	30-Day Personnel Doors, Electric	Check operation and controls. If any problems are found issue work request.
			Clean photocells and check range
			Check door closure pressure
			Clean tracks and check for proper alignment
			Check tolerances on locking mechanisms
			Check emergency release mechanisms (where applicable)
PM4755-DXAC0002	Preventive Maintenance - DXAC Unit	90-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		180-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Thru The Wall Unit (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		365-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Clean condenser and evaporator coils
			Check safety interlocks
PM4755-DXAC0003	Preventive Maintenance - DXAC Unit	90-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		180-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Thru The Wall Unit (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		365-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Clean condenser and evaporator coils
			Check safety interlocks
PM4755-DXAC0004	Preventive Maintenance - DXAC Unit	90-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request

PM4755-DXAC0010	Preventive Maintenance - DXAC Unit	90-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		180-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Thru The Wall Unit (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		365-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Clean condenser and evaporator coils
			Check safety interlocks
PM4755-EAF0001	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan (Day-Shift)	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate if necessary
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4755-EAF0002	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan (Day-Shift)	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate if necessary
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4755-EAF0003	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan (Day-Shift)	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate if necessary
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4755-EAF0004	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan (Day-Shift)	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate if necessary
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4755-ELEV0001	Preventive Maintenance - Cable Elevator	30-Day: Cable Elevator with AC Drive Motor	Verify operation of all safety edges
			Verify operation of emergency telephone
			Check and clean all electrical panels
			Inspect and lubricate governors
			Check hoistway terminal limits
			Check sensitivity of door closure pressure
			Inspect hoistways and car top
PM4755-ELEV0002	Preventive Maintenance - Hydraulic Elevator	30-Day: Hydraulic Elevator with Automatic Gate	Check and clean all electrical panels
			Verify operation of emergency telephone
			Inspect hoistways and car top
			Check oil reservoir
			Check sensitivity of door closure pressure
PM4755-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
		90-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Check generator output
			Verify day tank's fuel level is topped off between float ranges, if applicable.
		365-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Check generator output
			Winterize system
			Verify continuity of generator ground, including the fuel tank ground
			Verify day tank's fuel level is topped off between float ranges, if applicable.
PM4755-GEN0002	Preventive Maintenance - Emergency Generator	30-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.

PREVENTIVE MAINTENANCE**

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4755-HV0001	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit (Day-Shift)	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4755-HWP0001	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4755-HWP0002	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4755-HWP0003	Preventive Maintenance - Hot Water Pump	365-Day: Hot Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands etc.; make minor repairs as necessary.
			Lubricate pump and motor as necessary
			Check drive coupling
PM4755HWTR0001	Preventive Maintenance - Hot Water Treatment	7-day Hot Water Treatment PM	Perform testing on hot water system
			Add chemicals if needed
PM4755HWTR0002	Preventive Maintenance - Hot Water Treatment (Off-season)	7-day Hot Water Treatment PM (Off-season)	Perform testing on hot water system
			Add chemicals if needed
PM4755HWTR0003	Preventive Maintenance - Hot Water Treatment (Off-season)	30-day Hot Water PM (Off-season)	Notify Water Treatment Tech when performing PM (4-1058, 4-6020)
			Open all necessary valves (Supply/Control/Makeup)
			Check to make sure makeup water is on
			Check to make sure system is filled
			Coordinate operation with UCS
			Turn on circulation pumps and run for 48 hours
			Shut down pumps and close all necessary valves
PM4755-ICE0001	Preventive Maintenance - Ice Machine	30-Day: Ice Machine	Check water filter
		90-Day: Ice Machine	Check water filter
			Check operation and controls. If any problems are found issue work request
			Check water pressure
			Lubricate condenser fan motor as necessary
		180-Day: Ice Machine	Check water filter
			Check operation and controls. If any problems are found issue work request
			Check water pressure
			Lubricate condenser fan motor as necessary
			Clean condenser coils
PM4755LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting

			Check condition of battery and replace if necessary
PM4755-LTS0035	Preventive Maintenance - Emergency Lights		Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
		30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
PM4755-LTS0036	Preventive Maintenance - Emergency Lights		Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
		30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
PM4755-LTS0037	Preventive Maintenance - Emergency Lights	365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
		30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
PM4755-LTS0038	Preventive Maintenance - Emergency Lights		Perform 30 second light operational test
			Clean exterior of emergency light and lamp head
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
PM4755-LTS0038	Preventive Maintenance - Emergency Lights		Clean interior of light housing, check battery terminals
		30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Clean interior of light housing, check battery terminals
PM4755-LTS0060	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Fluorescent Type	Perform 30 second light operational test
			Check condition of lamps
		365-Day: Emergency Lights - Fluorescent Type	Perform 1.5 hour light operational test
			Check condition of lamps
			Check condition of battery
PM4755-MTS0001	Preventive Maintenance - Manual Transfer Switch	180-Day: Manual Transfer Switch	Exercise transfer switch
		365-Day: Manual Transfer Switch	Exercise transfer switch
			Clean equipment
			Check all contacts and connections
PM4755-ODT0001	Preventive Maintenance - Oxygen Detection System	30-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Verify ODT is required at this location. If unit is not needed issue work request to remove unit
		180-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Calibrate system
			Check all alarm points
			Verify ODT is still required at this location. If unit is not needed issue work request to remove unit
PM4755-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4755-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4755-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4755-PNL0003	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4755-PNL0004	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4755-PNL0005	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times

			Lubricate as necessary
			Check coupling and drives
PM4755-UPS0002	Preventive Maintenance - UPS Power System	90-Day: UPS System	Perform visual safety check

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check amperage and voltage
		180-Day: UPS System	Perform visual safety check
			Check amperage and voltage
			Check operation and controls
		365-Day: UPS System	Perform visual safety check
			Check amperage and voltage
			Check operation and controls
			Check termination points
			Inspect and clean all modules
PM4755-UPS0003	Preventive Maintenance - UPS Power System	90-Day: UPS System	Perform visual safety check
			Check amperage and voltage
		180-Day: UPS System	Perform visual safety check
			Check amperage and voltage
			Check operation and controls
		365-Day: UPS System	Perform visual safety check
			Check amperage and voltage
			Check operation and controls
			Check termination points
			Inspect and clean all modules
PM4755-UPS0004	Preventive Maintenance - UPS Power System	90-Day: UPS System	Perform visual safety check
			Check amperage and voltage
		180-Day: UPS System	Perform visual safety check
			Check amperage and voltage
			Check operation and controls
		365-Day: UPS System	Perform visual safety check
			Check amperage and voltage
			Check operation and controls
			Check termination points
			Inspect and clean all modules
PM4755-UPSF0001	Preventive Maintenance - 400 Cycle Frequency Converter	180-Day UPS Frequency Inverter	Clean Equipment
			Check terminations
PM4755-VSC0001	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4755-VSC0002	Preventive Maintenance - Variable Speed Controller	365-Day: Variable Speed Controller	Check for excessive heat, odors, noise and vibration.
			Clean and check the general condition of variable speed drive panel.
PM4756-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4756-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4757-DXAC0001	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4757-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4757LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4757-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4757-LTS0002	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test
		180-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Clean interior of light housing, check battery terminals
			Perform 30 second light operational test
		365-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Check condition of battery and replace if necessary
			Perform 1.5 hour operational test
			Clean interior of light housing, check battery terminals
PM4757-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4757-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4758-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4758-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4759-CRU0001	Preventive Maintenance - Computer Room Unit	90-Day: Computer Room Type, Direct Expansion and Combination Unit	Check operation and controls. If any problems found then issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary
		180-Day: Computer Room Type, Direct Expansion and Combination Unit	Check operation and controls. If any problems are found issue work request.
			Check belts, change if necessary
			Check and lubricate bearings as necessary
			Lubricate condenser fan as necessary
			Lubricate blower motor as necessary

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed blower motor)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate condenser fan as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4759-EW0002	Preventive Maintenance - EyeWash	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4759-EW0003	Preventive Maintenance - EyeWash	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4759-EW0004	Preventive Maintenance - EyeWash	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4759-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4759-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4759-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4759-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4759-FILT0004	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4759-FILT0005	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4759-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4759-HV0001	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4759LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4759-LTS0001	Preventive Maintenance - Emergency Lights	30-Day: Emergency Lights - Dry Cell	Clean exterior of emergency light and lamp head
			Perform 30 second light operational test

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4760-CHLR0001	Preventive Maintenance - Water Chiller	365-Day: DX Chiller Water Cooled	Check unit's evaporator and condenser pressures.
			Check oil temperature.
			Check compressor oil level.
			Run system control tests.
			Perform refrigerant leak check.
			Check refrigerant charge/level, add as necessary
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil.
			Inspect cooler and condenser tubes for leaks.
			Inspect safety relief valve.
			Run an insulation test on the motor.
			Clean condenser tubes.
			Clean evaporator tubes if applicable.
PM4760-CHLR0002	Preventive Maintenance - Water Chiller	365-Day: DX Chiller Water Cooled	Check unit's evaporator and condenser pressures.
			Check oil temperature.
			Check compressor oil level.
			Run system control tests.
			Perform refrigerant leak check.
			Check refrigerant charge/level, add as necessary
			Check compressor for excessive noise/vibration.
			Check sensor and mechanical safety limits.
			Replace oil.
			Inspect cooler and condenser tubes for leaks.
			Inspect safety relief valve.
			Run an insulation test on the motor.
			Clean condenser tubes.
			Clean evaporator tubes if applicable.
PM4760-CHWP0001	Preventive Maintenance - Chill Water Pump	365-Day Chilled Water Pump	Check for proper operation of pump. If any problems are found issue work request
			Check for leaks on suction and discharge piping, seals, packing glands; make minor repairs as necessary.
			Lubricate pump and motor as necessary.
			Check drive coupling
PM4760-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request
PM4760-DOOR0002	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4760-EAF0013	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan, Direct-Drive	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			If any problems are found issue work request
PM4760-EAF0014	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4760-EAF0015	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4760-EAF0016	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4760-EAF0018	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan, Direct-Drive	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			If any problems are found issue work request
PM4760-EAF0019	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4760-EAF0020	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4760-EAF0021	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4760-EAF0022	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4760-EAF0023	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4760-EAF0024	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4760-EAF0025	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4760-EAF0026	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4760-EAF0027	Preventive Maintenance - Exhaust Blower Fan	180-Day Exhaust Fan	Start and stop fan with local switch.
			Check motor and fan shaft bearings for noise, vibration, overheating; lubricate as necessary.
			Check belts for wear, tension, and alignment, if applicable; adjust as required.
			If any problems are found issue work request
PM4760-EW0001	Preventive Maintenance - EyeWash	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4760-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4760-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4760-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4760-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4760-FILT0004	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4760-FILT0005	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4760-FILT0006	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4760-FILT0007	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4760-FILT0009	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4760-FILT0010	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4760-FILT0011	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4760-FILT0012	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4760-FILT0014	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4760-FILT0015	Preventive Maintenance - Filters	180-Day Filter PM	Check filters, change if necessary
PM4760-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4760-HST0002	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4760-HST0003	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4760-HST0004	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4760-HST0005	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly

PM4760-HV0003	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4760-HV0005	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4760-HV0006	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4760-HV0007	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4760-HV0008	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4760-HV0009	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4760-HV0010	Preventive Maintenance - Heating Vent Unit	180-Day Heating/Ventilating Unit	Check controls and unit for proper operation. If any problems are found issue work request
			Lubricate shaft and motor bearings as necessary
			Check belts for wear, proper tension, and alignment; adjust as necessary.
PM4760LIGHTS	Preventive Maintenance - Exterior Lighting	90-Day Exterior Lighting Inspection	Inspect all Exterior Building Lighting
			Inspect all Parking Lot Lighting
			Report Findings to Electrical Supervisor
PM4760-ODT0001	Preventive Maintenance - Oxygen Detection System	30-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Verify ODT is required at this location. If unit is not needed issue work request to remove unit
		180-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Calibrate system
			Check all alarm points
			Verify ODT is still required at this location. If unit is not needed issue work request to remove unit

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
		180-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate blower motor as necessary
		365-Day: Direct Expansion Unit Package, Split-Type, Air-Cooled, Belt-Driven (W/ Sealed condenser fan)	Check operation and controls. If any problems are found issue work request
			Check belts, change if necessary
			Lubricate blower motor as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4765-DXAC0002	Preventive Maintenance - Direct Expansion AC Unit	90-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed Blower Motor)	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
		180-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Thru The Wall Unit (W/ Sealed Blower Motor)	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
		365-Day: Direct Expansion Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed Blower Motor)	Check operation and controls. If any problems are found issue work request
			Lubricate condenser fan as necessary
			Clean condenser and evaporator coils
			Check safety interlocks
PM4765-EROOM0001	Preventive Maintenance - Equipment Room Cleaning	180-Day: Equipment Room Cleaning	Thoroughly clean room and area around equipment.
			Check area for control air leaks.
			Check area for water leaks.
			Report all deficiencies.
PM4765-FAS0001	Preventive Maintenance - Fire Alarm System	30-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
		180-Day: Fire Alarm System	Inspect panel
			Inspect smoke detectors for damage and obstructions
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4765-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4765-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4765-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4765-HST0002	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.

PM4767-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4767-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4767-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4767-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4767-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4767-SHEW0001	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4771-ABLR0001	Preventive Maintenance - Air Blower	30-Day: Sutorbilt Air Blower	CHECK GEARBOX OIL LEVEL AND ADD AEON PD IF NECESSARY DO NOT OVERFILL)
			CHECK BELT TENSION
			LUBRICATE DRIVE END BEARINGS WITH NLGI 2 EP GREASE
			CHECK AIR FILTER AND CLEAN IF NECESSARY
		180-Day: Sutorbilt Air Blower	CHANGE GEARBOX OIL USING AEON PD SYNTHETIC ONLY
			LUBRICATE MOTOR BEARINGS AS NECESSARY
			REPLACE AIR FILTER
			CHANGE BELTS
PM4771-MON0001	Preventive Maintenance - Sulfite Monitoring System	30-Day: Gas Monitor (Calibration, Electricians)	Clean reactor - remove sensor then pour dilute solution of bleach through drain chamber (Ref. O&M manual).
			Check acid solution (refill if necessary with 15-20% concentration of sulfuric acid.
			Zero the system.
			Connect 1 liter bottle of distilled water to the sample pickup tube and draw in sample for 30 minutes.
			Store the offset value after determining that the zero current value has stabilized and is no longer declining.
			If the offset is too high and the monitors display indicates "No Update", check condition of sensor membrane and replace.
			Press the MODE key to return to the "PPM" display. The reading should be zero PPM.
			Calibration
			Pour 1.000 grams of sodium sulfite into a 1 liter flask. Fill to 1 liter with distilled water. (stable for 2 days).
			Immediately before use in calibration procedure, place 500 cc. of distilled water in a container with
			2cc. using a pipette of concentrated standard prepared earlier.
			Mix and feed approximate 2.5 PPM standard, produced in step 110.
			Press CAL Key followed by ENTER key. Use Up or Down keys to adjust the value displayed to 2.5 PPM and press ENTER.
PM4771-PMP0001	Preventive Maintenance - Sulfite Monitoring System	30-Day Electronic Metering Pump	Check Operation and Controls. If any problems are found issue work request

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Verify operation of all pull stations and bells
			Clean, test, and calibrate smoke detectors if applicable
PM4776-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4776-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4776-FILT0003	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PM4776-FWP0001	Preventive Maintenance -Feed Water Pump	30-Day: Feed Water Pump	Check operation and controls. If any problems are found issue work request
		180-Day: Feed WaterPump	Check operation and controls. If any problems are found issue work request
			Lubricate as necessary
			Check coupling and drives
PM4776-HP0001	Preventive Maintenance - Heat Pump	90-Day: Heat Pump	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary
		180-Day: Heat Pump	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary
		365-Day: Heat Pump	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary
			Clean coils
			Check safety interlocks
PM4776-HST0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4776-HST0002	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4776-ODT0001	Preventive Maintenance - Oxygen Detection System	30-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Verify ODT is required at this location. If unit is not needed issue work request to remove unit
		180-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Calibrate system
			Check all alarm points
			Verify ODT is still required at this location. If unit is not needed issue work request to remove unit

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
PM4776-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM4776-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4776-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4776-PNL0003	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4776-PNL0004	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4776-PNL0005	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM4776-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4776-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4776-ROOF0003	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM4776-SHEW0001	Preventive Maintenance - Safety Shower and Eyewash Station	30-Day Safety Shower and/or Eyewash Station	Check operation and controls. If any problems are found issue work request
			Flush system for 2 minute minimum
			Date and initial inspection tag
PM4777-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Mechanical Tasks)	Inspect trolley lugs, rails and stops.
			Check operation and controls. If any problems found then issue work request.
			Lubricate as necessary
			Verify that hand signal and warning labels are attached properly
			Perform hook and wire rope inspection
			Complete and sign mechanical inspection form
PM4777-DOOR0001	Preventive Maintenance - Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4777-DOOR0002	Preventive Maintenance - Roll-Up Door	180-Day Sliding/Roll-up Door, Manual	Lubricate tracks as necessary
			Check stops and tethers
			If any problems are found issue work request
PM4777-DOOR0003	Preventive Maintenance - Roll-Up Door	180-Day Roll-Up Door PM (w/o lifting cables)	Inspect drive mechanism
			Inspect brake settings if applicable
			Check master link on chains
			Visually inspect alignment of tracks
			Lubricate tracks as necessary
			Inspect Mounts to ensure that they are sufficiently sized
			Inspect chain drive adjustments
			If any problems are found issue work request

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Clean interior of light housing, check battery terminals
PM8023-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM8023-PNL0001	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM8023-PNL0002	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM8023-PNL0003	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM8023-PNL0004	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM8023-PNL0005	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM8023-PNL0006	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM8023-PNL0007	Preventive Maintenance - Panel Board	1095-Day Breaker Exercising Maintenance (Bobby Collier)	Exercise all breakers in distribution panels 3-4 times
			Install knockout hole plugs as necessary
PM8023-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM8023-ROOF0002	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM8023-ROOF0003	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM8023-ROOF0004	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM8023-ROOF0005	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM8023-ROOF0006	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PM8023-RV0001	Preventive Maintenance - Relief Valves	365-Day: Relief Valve PM	Service and Tag Relief Valve
PM8034-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM8037-LTS0001	Preventive Maintenance - Dock Lights	30-Day: Dock Lights	Verify operation
PM8037-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM8301-LROD0001	Preventive Maintenance - Lightning Protection System	365 Day: Lightning Protection System	Measure and record resistance readings
			Inspect rods, cables, and fasteners
			Attach and turn in ground readings with PM sheet
PM8301-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM8302-LROD0001	Preventive Maintenance - Lightning Protection System	365 Day: Lightning Protection System	Measure and record resistance readings

			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM8303-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM8306-LROD0001	Preventive Maintenance - Lightning Protection System	365 Day: Lightning Protection System	Measure and record resistance readings
			Inspect rods, cables, and fasteners
			Attach and turn in ground readings with PM sheet
PM8306-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM8307-LROD0001	Preventive Maintenance - Lightning Protection System	365 Day: Lightning Protection System	Measure and record resistance readings
			Inspect rods, cables, and fasteners
			Attach and turn in ground readings with PM sheet
PM8307-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM8310-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM8312-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM8319-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM8321-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PM8936-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PME4200-FIRP0001	Preventive Maintenance - Fire Pump (Electrical)	90-Day: Electrical PM for Fire Pumps	Excercise isolating switch and circuit breaker
			Inspect, check, clean, and test circuit breakers, replace as needed
			Check accuracy of pressure sensors
			Calibrate pressure switch settings
			Check fire pump and jockey pump controllers
			Verify that the system is in service
			Verify that reverse phase alarm pilot light is off
			Verify that normal phase rotation pilot light is on
			Verify that isolating switch is closed
PME4200-FIRP0002	Preventive Maintenance - Fire Pump (Electrical)	90-Day: Electrical PM for Fire Pumps	Excercise isolating switch and circuit breaker
			Inspect, check, clean, and test circuit breakers, replace as needed

PME4718-FIRP0001	Preventive Maintenance - Fire Pump (Electrical)	90-Day: Electrical PM for Fire Pumps	Excercise isolating switch and circuit breaker
			Inspect, check, clean, and test circuit breakers, replace as needed
			Check accuracy of pressure sensors
			Calibrate pressure switch settings
			Check fire pump and jockey pump controllers
			Verify that the system is in service

PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Verify that reverse phase alarm pilot light is off
			Verify that normal phase rotation pilot light is on
			Verify that isolating switch is closed
PME4718-HST0001	Preventive Maintenance - Cranes and Hoists (Electrical)	30-Day: Cranes and Hoists (Electrical)	Check and clean panels and brushes
			Check operation and controls. If any problems found then issue work request.
			Verify that hand signal and warning labels are attached properly
			Complete and sign electrical inspection form
PME4718-HST0002	Preventive Maintenance - Cranes and Hoists (Electrical)	30-Day: Cranes and Hoists (Electrical)	Check and clean panels and brushes
			Check operation and controls. If any problems found then issue work request.
			Verify that hand signal and warning labels are attached properly
			Complete and sign electrical inspection form
PME4718-HST0003	Preventive Maintenance - Cranes and Hoists (Electrical)	30-Day: Cranes and Hoists (Electrical)	Check and clean panels and brushes
			Check operation and controls. If any problems found then issue work request.
			Verify that hand signal and warning labels are attached properly
			Complete and sign electrical inspection form
PME4718-LIFT0001	Preventive Maintenance - Cranes and Hoists	30-Day: Cranes and Hoists (Electrical)	Check and clean panels and brushes
			Check operation and controls. If any problems found then issue work request.
			Verify that hand signal and warning labels are attached properly
			Complete and sign electrical inspection form
PME4732-CRN0001	Preventive Maintenance - Cranes and Hoists (Electrical)	30-Day: Cranes and Hoists (Electrical)	Check and clean panels and brushes
			Check operation and controls. If any problems found then issue work request.
			Verify that hand signal and warning labels are attached properly
			Complete and sign electrical inspection form
PME4734-CRN0001	Preventive Maintenance - Cranes and Hoists (Electrical)	30-Day: Cranes and Hoists (Electrical)	Check and clean panels and brushes
			Check operation and controls. If any problems found then issue work request.
			Verify that hand signal and warning labels are attached properly
			Complete and sign electrical inspection form
PME4738-HST0001	Preventive Maintenance - Cranes and Hoists (Electrical)	30-Day: Cranes and Hoists (Electrical)	Check and clean panels and brushes
			Check operation and controls. If any problems found then issue work request.
			Verify that hand signal and warning labels are attached properly
			Complete and sign electrical inspection form
PME4747-CRN0001	Preventive Maintenance - Crane	30-Day: Cranes and Hoists (Electrical)	Check and clean panels and brushes
			Check operation and controls. If any problems found then issue work request.
			Verify that hand signal and warning labels are attached properly

			Are all control valves accessible
			Is suction reservoir full
PMP4203-FIRP0001	Preventive Maintenance - Fire Pump (Pipefitter)	90-Day: Pipefitter Firepump PM	Record suction pressure
			Record discharge pressure
			Record pump starting pressure
			Are suction line control valves sealed open
			Are discharge line control valves sealed open
			Are by-pass line valves sealed open
			Are all control valves accessible
			Is suction reservoir full
PMP4203-FIRP0002	Preventive Maintenance - Fire Pump (Pipefitter)	90-Day: Pipefitter Firepump PM	Record suction pressure
			Record discharge pressure
			Record pump starting pressure
			Are suction line control valves sealed open
			Are discharge line control valves sealed open
			Are by-pass line valves sealed open
			Are all control valves accessible
			Is suction reservoir full
PMP4209-FIRP0001	Preventive Maintenance - Fire Pump (Pipefitter)	90-Day: Pipefitter Firepump PM	Record suction pressure
			Record discharge pressure
			Record pump starting pressure
			Are suction line control valves sealed open
			Are discharge line control valves sealed open
			Are by-pass line valves sealed open
			Are all control valves accessible
			Is suction reservoir full
PMP4600-FIRP0001	Preventive Maintenance - Fire Pump (Pipefitter)	90-Day: Pipefitter Firepump PM	Record suction pressure
			Record discharge pressure
			Record pump starting pressure
			Are suction line control valves sealed open
			Are discharge line control valves sealed open
			Are by-pass line valves sealed open
			Are all control valves accessible
			Is suction reservoir full
PMP4718-FIRP0001	Preventive Maintenance - Fire Pump (Pipefitter)	90-Day: Pipefitter Firepump PM	Record suction pressure
			Record discharge pressure
			Record pump starting pressure
			Are suction line control valves sealed open
			Are discharge line control valves sealed open
			Are by-pass line valves sealed open
			Are all control valves accessible
			Is suction reservoir full
PMP4771-MON0001	Preventive Maintenance - Sulfite Monitoring System	30-Day: Gas Monitor (Pipefitters)	Clean tubing inside analyzer (replace if necessary).

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Verify operation of solenoid valve of back-up treatment tank.
			Verify operation of float switch at back - up treatment tank.
		180-Day: Gas Monitor (Pipefitters)	Clean tubing inside analyzer (replace if necessary).
			Verify operation of solenoid valve of back-up treatment tank.
			Verify operation of float switch at back - up treatment tank.
			Visual inspection of sensor and replace if necessary.
			Replace peristaltic pump tubing. Reference O&M manual.
			Remove sensor from analyzer and pour bleach near suction side of sample pump.
		365-Day: Gas Monitor (Pipefitters)	Clean tubing inside analyzer (replace if necessary).
			Verify operation of solenoid valve of back-up treatment tank.
			Verify operation of float switch at back - up treatment tank.
			Visual inspection of sensor and replace if necessary.
			Replace peristaltic pump tubing. Reference O&M manual.
			Remove sensor from analyzer and pour bleach near suction side of sample pump.
			Replace air filter to peristaltic pump.
PMT298-PEST0001	Preventive Maintenance - Pest Control	365-Day Pest Control	Inspect for rodents, pest, and insects.
			Apply insecticides or poisons as required.
			Complete chemical applications records.
PMT4554-ODT0002	Preventive Maintenance - Oxygen Detection System	30-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Verify ODT is required at this location. If unit is not needed issue work request to remove unit
		180-Day: Oxygen Detection System, Dry Cell Type	Perform visual inspection
			Calibrate system
			Check all alarm points
			Verify ODT is still required at this location. If unit is not needed issue work request to remove unit
PMT4561A-FILT0001	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PMT4561A-FILT0002	Preventive Maintenance - Filters	90-Day: Filter PM	Check filters, change if necessary
PMT4561A-HP0001	Preventive Maintenance - Heat Pump	90-Day: Heat Pump	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary
		180-Day: Heat Pump	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary
		365-Day: Heat Pump	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary
			Clean coils
			Check safety interlocks
PMT4561A-HP0002	Preventive Maintenance - Heat Pump	90-Day: Heat Pump	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary
		180-Day: Heat Pump	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
		365-Day: Heat Pump	Check operation and controls. If any problems are found issue work request
			Lubricate blower motor as necessary
			Clean coils
			Check safety interlocks
PMT4561A-ROOF0001	Preventive Maintenance - Roof	180-Day: Roof Inspection	Perform preventive and corrective maintenance to roof system
PMT4638	Preventive Maintenance - MSFC Rescue Team Trailer	30-day visual inspection	Perform visual inspection
		180-day PM Rescue Equipment	perform visual inspection
			perform preventive maintenance to all equipment in rescue trailer
PMT4728-DXAC0001	Preventive Maintenance - DXAC Unit	90-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		180-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Thru The Wall Unit (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
		365-Day: DX Unit Package, Stand-Alone or Split-Type, Air-Cooled, Direct-Driven (W/ Sealed condenser fan and blower motor)	Check operation and controls. If any problems are found issue work request
			Clean condenser and evaporator coils
			Check safety interlocks
PMT4728-GEN0001	Preventive Maintenance - Emergency Generator	30-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Verify day tank's fuel level is topped off between float ranges, if applicable.
		90-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Check generator output
			Verify day tank's fuel level is topped off between float ranges, if applicable.
		365-Day: Generator	Notify building manager of intent to perform generator maintenance prior to operating generator.
			Seal off all necessary components of building ventilation system in order to prevent entry of fumes into building.
			Check operation and controls. If any problems are found issue work request
			Check filters if applicable, change if necessary
			Check belts if applicable, change if necessary.
			Check coolant if applicable, add or change if necessary.
			Check stop switch and emergency alarm bell.
			Lubricate as necessary
			Tighten all bolts
			Check oil, add or change if necessary
			Check voltage.
			Check battery
			Check connections and battery charger
			Check generator output
			Winterize system
			Verify continuity of generator ground, including the fuel tank ground
			Verify day tank's fuel level is topped off between float ranges, if applicable.
PML4200-HST0001	Preventive Maintenance - Crane Operational/Load Test	1460-Day: Cranes and Hoists Operational/Load Test	Hoist and lower dummy rated loads at various speeds
			Verify Holding brakes stopping capabilities and ability to hold a rated load
			Verify trolley and bridge travel under rated load, with maximum safe movement in all directions at varying speeds
			Verify function of limit switch, emergency stop, and locking device under no load at full speed
			Verify function of final upper limit switch, such that all hoist motion is precluded (may be tripped manually)
			Verify that both means of hoist braking are capable of bringing a rated load to zero speed and holding it
			Verify function of indicating devices, if provided
			Hoist load and verify that load is supported by crane and held by the hoist brake(s) (load not to exceed 25% above rated cap)
			Use trolley to transport load for the full length of the bridge
			Use bridge to transport load for the full length of each runway, with the trolley positioned as close to the runway as possible
			Lower test load, and stop and hold load with the brakes
PML4205-CRN0001	Preventive Maintenance - Crane Operational/Load Test	365-Day: Cranes and Hoists Operational/Load Test	Hoist and lower dummy rated loads at various speeds

NNM08AA54C
ATTACHMENT J-24
PREVENTIVE MAINTENANCE

<u>PMNUM</u>	<u>PM DESCRIPTION</u>		<u>TASK DESCRIPTION</u>
			Verify trolley and bridge travel under rated load, with maximum safe movement in all directions at varying speeds
			Verify function of limit switch, emergency stop, and locking device under no load at full speed
			Verify function of final upper limit switch, such that all hoist motion is precluded (may be tripped manually)
			Verify that both means of hoist braking are capable of bringing a rated load to zero speed and holding it
			Verify function of indicating devices, if provided
			Hoist load and verify that load is supported by crane and held by the hoist brake(s) (load not to exceed 25% above rated cap)
			Use trolley to transport load for the full length of the bridge
			Use bridge to transport load for the full length of each runway, with the trolley positioned as close to the runway as possib
			Lower test load, and stop and hold load with the brakes
PML4707-HST0004	Preventive Maintenance - Crane Operational/Load Test	1460-Day: Cranes and Hoists Operational/Load Tes	Hoist and lower dummy rated loads at various speeds
			Verify Holding brakes stopping capabilities and ability to hold a rated load
			Verify trolley and bridge travel under rated load, with maximum safe movement in all directions at varying speeds
			Verify function of limit switch, emergency stop, and locking device under no load at full speed
			Verify function of final upper limit switch, such that all hoist motion is precluded (may be tripped manually)
			Verify that both means of hoist braking are capable of bringing a rated load to zero speed and holding it
			Verify function of indicating devices, if provided
			Hoist load and verify that load is supported by crane and held by the hoist brake(s) (load not to exceed 25% above rated cap)
			Use trolley to transport load for the full length of the bridge

PREDICTIVE TEST AND INSPECTION

PTI NUM	DESCRIPTION	JOBPLAN DESCRIPTION	JPTASK	OPERATION DESCRIPTION
PTI4655-CRN0002	Predictive Testing and Inspection- Cranes and Hoists	180-Day: Predictive Testing & Inspection- Critical Cranes	10.00	Perform infrared inspection on all crane electrical components and connections
			20.00	Record and correct any identified hotspots.
		365 Day - Predictive Testing & Inspection- Cranes	10.00	Perform infrared inspection on all crane electrical components and connections
			20.00	Record and correct any identified hotspots.
			30.00	Perform vibration analysis on all crane motors and gearboxes
PTI4656-AH0001	Predictive Testing & Inspection - Air Handling Unit	90 Day- Predictive Testing (Vibration and Temperature)	10.00	Perform Vibration Analysis
			20.00	Perform Temperature Analysis
PTI4656-CHWP0001	Predictive Testing & Inspection - Pumps	90 Day- Predictive Testing (Vibration and Temperature)	10.00	Perform Vibration Analysis
			20.00	Perform Temperature Analysis
PTI4656-CHWP0002	Predictive Testing & Inspection - Pumps	90 Day- Predictive Testing (Vibration and Temperature)	10.00	Perform Vibration Analysis
			20.00	Perform Temperature Analysis
PTI4656-CRN0001	Predictive Testing and Inspection- Cranes and Hoists	365 Day - Predictive Testing & Inspection- Cranes	10.00	Perform infrared inspection on all crane electrical components and connections
			20.00	Record and correct any identified hotspots.
			30.00	Perform vibration analysis on all crane motors and gearboxes
PTI4656-CRN0002	Predictive Testing and Inspection- Cranes and Hoists	365 Day - Predictive Testing & Inspection- Cranes	10.00	Perform infrared inspection on all crane electrical components and connections
			20.00	Record and correct any identified hotspots.
			30.00	Perform vibration analysis on all crane motors and gearboxes
PTI4656-HST0001	Predictive Testing and Inspection- Cranes and Hoists	365 Day - Predictive Testing & Inspection- Hoists	10.00	Perform infrared inspection on all crane electrical components and connections
			20.00	Record and correct any identified hotspots.
PTI4659-CRN0001	Predictive Testing and Inspection- Cranes and Hoists	365 Day - Predictive Testing & Inspection- Cranes	10.00	Perform infrared inspection on all crane electrical components and connections
			20.00	Record and correct any identified hotspots.
			30.00	Perform vibration analysis on all crane motors and gearboxes
PTI4659-CRN0002	Predictive Testing and Inspection- Cranes and Hoists	365 Day - Predictive Testing & Inspection- Cranes	10.00	Perform infrared inspection on all crane electrical components and connections
			20.00	Record and correct any identified hotspots.
			30.00	Perform vibration analysis on all crane motors and gearboxes
PTI4663A-ACMP0001	Predictive Testing & Inspection - Air Compressor	90 Day- Predictive Testing (Vibration and Temperature)	10.00	Perform Vibration Analysis
			20.00	Perform Temperature Analysis
PTI4663A-AH0001	Predictive Testing & Inspection - Air Handling Unit	180 Day- Predictive Testing (Vibration and Temperature)	10.00	Perform Vibration Analysis
			20.00	Perform Temperature Analysis
PTI4663A-AH0002	Predictive Testing & Inspection - Air Handling Unit	90 Day- Predictive Testing (Vibration and Temperature)	10.00	Perform Vibration Analysis
			20.00	Perform Temperature Analysis
PTI4663A-AH0004	Predictive Testing & Inspection - Air Handling Unit	180 Day- Predictive Testing (Vibration and Temperature)	10.00	Perform Vibration Analysis
			20.00	Perform Temperature Analysis
PTI4663A-AH021A	Predictive Testing & Inspection - Air Handling Unit	90 Day- Predictive Testing (Vibration and Temperature)	10.00	Perform Vibration Analysis
			20.00	Perform Temperature Analysis
PTI4663A-AH021B	Predictive Testing & Inspection - Air Handling Unit	90 Day- Predictive Testing (Vibration and Temperature)	10.00	Perform Vibration Analysis
			20.00	Perform Temperature Analysis
PTI4663A-AH022A	Predictive Testing & Inspection - Air Handling Unit	180 Day- Predictive Testing (Vibration and Temperature)	10.00	Perform Vibration Analysis
			20.00	Perform Temperature Analysis
PTI4663A-AH022B	Predictive Testing & Inspection - Air Handling Unit	180 Day- Predictive Testing (Vibration and Temperature)	10.00	Perform Vibration Analysis
			20.00	Perform Temperature Analysis
PTI4663A-AH023A	Predictive Testing & Inspection - Air Handling Unit	180 Day- Predictive Testing (Vibration and Temperature)	10.00	Perform Vibration Analysis
			20.00	Perform Temperature Analysis
PTI4663A-AH023B	Predictive Testing & Inspection - Air Handling Unit	180 Day- Predictive Testing (Vibration and Temperature)	10.00	Perform Vibration Analysis
			20.00	Perform Temperature Analysis
PTI4663A-ATS0001	Predictive Testing & Inspection - Auto Transfer Switch	365 Day- Predictive Testing (Infrared Inspection)	10.00	Perform infrared analysis
PTI4663A-ATS0002	Predictive Testing & Inspection - Auto Transfer Switch	365 Day- Predictive Testing (Infrared Inspection)	10.00	Perform infrared analysis
PTI4663A-ATS0003	Predictive Testing & Inspection - Auto Transfer Switch	365 Day- Predictive Testing (Infrared Inspection)	10.00	Perform infrared analysis
PTI4663A-MCC0001	Predictive Testing & Inspection - Manual Transfer Switch	365 Day- Predictive Testing (Infrared Inspection)	10.00	Perform infrared analysis
PTI4663A-MCC0002	Predictive Testing & Inspection - Manual Transfer Switch	365 Day- Predictive Testing (Infrared Inspection)	10.00	Perform infrared analysis
PTI4663A-MCC0003	Predictive Testing & Inspection - Manual Transfer Switch	365 Day- Predictive Testing (Infrared Inspection)	10.00	Perform infrared analysis
PTI4663A-PNL0001	Predictive Testing & Inspection - Panel Board (4663 Outage)	365 Day- Predictive Testing (Infrared Inspection)	10.00	Perform infrared analysis
PTI4663A-PNL0002	Predictive Testing & Inspection - Panel Board (4663 Outage)	365 Day- Predictive Testing (Infrared Inspection)	10.00	Perform infrared analysis
PTI4663A-PNL0003	Predictive Testing & Inspection - Panel Board (4663 Outage)	365 Day- Predictive Testing (Infrared Inspection)	10.00	Perform infrared analysis
PTI4663A-PNL0004	Predictive Testing & Inspection - Panel Board (4663 Outage)	365 Day- Predictive Testing (Infrared Inspection)	10.00	Perform infrared analysis
PTI4663A-PNL0009	Predictive Testing & Inspection - Panel Board (4663 Outage)	365 Day- Predictive Testing (Infrared Inspection)	10.00	Perform infrared analysis

DIRECTIVES, INSTRUCTIONS, POLICIES, AND REGULATIONS

The documents listed herein contain specifications to which the contractor's work must conform. The contractor shall comply with all the requirements of these documents and all revisions thereto. Current versions shall be utilized, unless authorization to use obsolete versions has been properly documented. This listing is not intended to relieve the Contractor of its responsibility for identification of applicable regulations and procedures and compliance therewith when performing work onsite at MSFC.

For the Contractor's information, NASA recognizes a department hierarchy. NASA Policy Directives (NPDs) and NASA Procedural Requirements (NPRs) are headquarters' level documents and take precedence over center level documents. The center equivalent to these documents is Marshall Policy Directive (MPDs) and Marshall Procedural Requirements (MPRs) that are written to support the headquarter documents at the local level. The hierarchical order for these documents is NPD and NPR at the HQ level and MPD and MPR at the center level. Beyond the documents, the center also has Marshall Work Instructions (MWI) that typically support implementation of one of the higher level documents and Organizational Instructions (OI's) that provide work direction for activities that do not affect the entire center.

Notwithstanding the hierarchy of NASA's documentation system, in terms of understanding the requirements for performing this contract, the Contractor's attention is invited to the documents specifically referenced in the PWS and documents referenced in the Data requirements.

As a services Contract provider, the Contractor shall utilize all NASA and MSFC Directives and Standards as applicable, as well as Organizational Instruction(s) (OIs).

PERSONAL IDENTITY VERIFICATION PROCEDURES

PIV Card Issuance Procedures (in accordance with FAR Clause 52.204-9, Personal Identity Verification of Contractor Personnel, Personal Identity Verification of Contractor Personnel):

FIPS 201 Appendix A graphically displays the following procedure for the issuance of a PIV credential.

Figure A-1, FIPS 201, Appendix A

The following steps describe the procedures for the NASA Personal Identity Verification Card Issuance (PCI) of a PIV credential:

Step 1:

The Contractor's Corporate Security Officer (CSO), Program Manager (PM), or Facility Security Officer (FSO) submits a formal letter that provides a list of contract employees (applicant) names requesting access to the NASA Contracting Officer's Technical Representative (COTR). In the case of a foreign national applicant, approval through the NASA Foreign National Management System (NFMMS) must be obtained for the visit or assignment before any processing for a PIV credential can take place. Further, if the foreign national is not under a contract where a COTR has been officially designated, the foreign national will provide the information directly to their visit/assignment host, and the host sponsor will fulfill the duties of the COTR mentioned herein. In each case, the letter shall provide notification of the contract or foreign national employee's (hereafter the "applicant") full name (first, middle and last), social security number (SSN) or NASA Foreign National Management System Visitor Number

NNM08AA54C
ATTACHMENT J-29

if the foreign national does not have a SSN, and date of birth. If the contract employee has a current satisfactorily completed National Agency Check with Inquiries (NACI) or an equivalent or higher degree of background investigation, the letter shall indicate the type of investigation, the agency completing the investigation, and date the investigation was completed. Also, the letter must specify the risk/sensitivity level associated with the position in which each applicant will be working (NPR 1600.1, §4.5 is germane) Further, the letter shall also acknowledge that contract employees may be denied access to NASA information or information systems based on an unsatisfactory background investigation/adjudication. .

After reviewing the letter for completeness and concurring with the risk/sensitivity levels, the COTR/host must forward the letter to the Center Chief of Security (CCS). The CCS shall review the OPM databases (e.g., DCII, PIP, et al.), and take appropriate steps to validate the applicant's investigation status. Requirements for a NACI or other investigation shall be initiated only if necessary.

Applicants who do not currently possess the required level of background investigation shall be directed to the e-QIP web site to complete the necessary background investigation forms online. The CCS shall provide to the COTR/host information and instructions on how to access the e-QIP for each contract or foreign national employee requiring access

Step 2

Upon acceptance of the letter/background information, the applicant will be advised that in order to complete the investigative process, he or she must appear in-person before the authorized PIV registrar and submit two forms of identity source documents in original form. The identity source documents must come from the list of acceptable documents included in Form I-9, Employment Eligibility Verification, one which must be a Federal¹ or State issued picture identification. Fingerprints will be taken at this time. The applicant must appear **no later than** the entry on duty date.

When the applicant appears, the registrar will electronically scan the submitted documents; any document that appears invalid will be rejected by the registrar. The registrar will capture electronically both a facial image and fingerprints of the applicant. The information submitted by the applicant will be used to create or update the applicant identity record in the Identity Management System (IDMS).

Step 3:

Upon the applicant's completion of the investigative document, the CCS reviews the information, and resolves discrepancies with the applicant as necessary. When the applicant has appeared in person and completed fingerprints, the package is electronically submitted to initiate the NACI. The CCS includes a request for feedback on the NAC portion of the NACI at the time the request is submitted.

Step 4

Prior to authorizing physical access of a contractor employee to a federally-controlled facility or access to a Federal information system, the CCS will ensure a National Crime Information Center (NCIC) with an Interstate Identification Index check is/has been

¹ A non-PIV government identification badge, including the NASA Photo Identification Badge, **MAY NOT BE USED** for the original issuance of a PIV vetted credential

NNM08AA54C
ATTACHMENT J -29

performed. In the case of a foreign national, a national check of the Bureau of Immigration and Customs Enforcement (BICE) database will be performed for each applicant. If this process yields negative information, the CCS will immediately notify the COTR/host of the determination regarding access made by the CCS.

Step 5

Upon receipt of the completed NAC, the CCS will update IDMS from the NAC portion of the NACI and indicate the result of the suitability determination. If an unsatisfactory suitability determination is rendered, the COTR will advise the contractor that the employee is being denied physical access to all federally-controlled facilities and Federal information systems.

Based on a favorable NAC and NCIC/III or BICE check, the CCS will authorize the issuance of a PIV federal credential in the Physical Access Control System (PACS) database. The CCS, based on information provided by the COTR/host, will determine what physical access the applicant should be granted once the PIV issues the credential.

Step 6:

Using the information provided by the applicant during his or her in-person appearance, the PIV card production facility creates and instantiates the approved PIV card for the applicant with an activation date commensurate with the applicant's start date.

Step 7:

The applicant proceeds to the credential issuance facility to begin processing for receipt of his/her federal credential.

The applicant provides to the credential issuing operator proof of identity with documentation that meets the requirements of FIPS 201 (DHS Employment Eligibility Verification (Form I-9) documents. These documents **must** be the same documents submitted for registration.

The credential issuing operator will verify that the facial image, and optionally reference finger print, matches the enrollment data used to produce the card. Upon verification of identity, the operator will locate the employee's record in the PACS database, and modify the record to indicate the PIV card has been issued. The applicant will select a PIN for use with his or her new PIV card. Although root data is inaccessible to the operator, certain fields (hair color, eye color, et al.) may be modified to more accurately record the employee's information.

The applicant proceeds to a kiosk or other workstation to complete activation of the PIV card using the initial PIN entered at card issuance.

**ALTERNATIVE FOR APPLICANTS WHO DO NOT HAVE A COMPLETED AND
ADJUDICATED NAC AT THE TIME OF ENTRANCE ON DUTY**

Steps 1 through 4 shall be accomplished for all applicants in accordance with the process described above. If the applicant is unable to appear in person until the time of entry on duty, or does not, for any other reason, have a completed and adjudicated NAC portion of the NACI at the time of entrance on duty, the following interim procedures shall apply.

NNM08AA54C
ATTACHMENT J-29

1. If the documents required to submit the NACI have not been completed prior to EOD, the applicant will be instructed to complete all remaining requirements for submission of the investigation request. This includes presentation of I-9 documents and completion of fingerprints, if not already accomplished. If the applicant fails to complete these activities as prescribed in NPR 1600.1 (Chapters 3 & 4), it may be considered as failure to meet the conditions required for physical access to a federally-controlled facility or access to a Federal information system, and result in denial of such access.
2. Based on favorable results of the NCIC, the applicant shall be issued a temporary NASA identification card for a period not-to-exceed six months. If at the end of the six month period the NAC results have not been returned, the agency will at that time make a determination if an additional extension will be granted for the temporary identification card.
3. Upon return of the completed NAC, the process will continue from Step 5.

Safety Health (S) Management Implementation Guide and Assessment Matrix

Score	Commitment and Involvement (Element 1)		Worksite System and Analysis (Element 2)	Hazard Prevention and Control (Element 3)	Safety and Health Training (Element 4)
	A. Management	B. Employee			
10	Benchmarking indicates "best in Class." In areas of visible management leadership, responsibility/accountability, meaningful metrics, and incentive/recognition systems.	Employees fully involved, safety committees functioning well, is a complete behavior process functioning at least one year, employees involved in process planning and risk assessment.	All sub-elements fully in place and functioning well for at least one year.	All programs and sub-elements fully functioning for one year, strong professional support.	All training processes functioning, all levels of personnel trained to identified needs, management training ongoing.
9	All sub-elements are in place and functioning well, but have as yet to reach full maturity.	All processes functioning but for limited time, employees involved to great extent.	All sub-elements in place, employees actively participating.	All programs and sub-elements in place and functioning.	All training processes established, management initial training complete.
8	One sub-element not fully in place but all are being implemented.	Most processes in place, employee involvement growing.	All sub-elements functioning, employee participation growing.	At least five sub-elements functioning and one in final stage of implementation.	Most personnel trained to identified needs, training recordkeeping and recall system functioning.
7	Two sub-elements not fully implemented. Implementation in process on all elements. Employee participation and commitment widespread.	Process activities expanding through organization. Committees and teams functioning.	At least five sub-elements functioning and remainder established.	At least four sub-elements functioning, remaining two developing.	Management and supervisor training in process specialized training in process.
6	All sub-elements in process or in place. Strong management leadership and commitment begun, metric systems in place, resourcing appropriate.	Employee representatives functioning, joint committees functioning, participating in risk assessment and accident investigation.	At least four sub-elements functioning and remaining three in process, employee participation beginning to spread through organization.	Medical and safety programs strengthening, emergency preparedness program established and exercised.	Management training in process developed, supervisor training developed, training recordkeeping and recall system developed.
5	Management commitment and leadership accepted by workers, worker participation and commitment begun, metric system.	Employee representatives appointed/elected, committees beginning to perform functions (investigation, analysis, process improvement).	All sub-elements established, employees beginning to participate.	Rules written, medical and safety programs developing Personal Protective Equipment adequate.	Training template completed for all personnel, training needs identified, process development begun, recordkeeping and recall system being developed.
4	Management commitment and leadership flowing down to workers, metric systems being developed, incentive/recognition system in process.	All processes being established, involvement and awareness enhancement growing.	At least five sub-elements initiated including self-assessment, hazard reporting, and mishap close call investigations.	Rules in process, emergency preparedness program being developed.	Training development in process, specialized training established, mandatory training in process
3	Generally good management commitment and leadership, implementation plans approved for all elements.	All process needs identified, awareness and involvement enhancement activities begun.	Job Hazard analysis established, investigations strengthened and include employees.	Medical program initiated safety and health program initiated.	Training needs evaluation complete, training templates in process, recordkeeping and recall system needs to be established
2	Management exhibits some aspects of leadership, accountability systems not well defined, employee participation framework defined, limited metrics.	Committees established, little activity, employee involvement beginning, awareness of process started.	Plans established to implement all sub-elements, at least two sub-elements beginning to function.	Personal protective equipment requirements established and being enforced, plans developed for other elements.	Training needs evaluation begun, training template forms developed.
1	Sub-elements have not been established to any significant extent, management leadership is lacking, little or no employee participation.	No committees, little or no employee involvement, no process, little process planning.	Two or fewer sub-elements established, no self-inspection, shallow accident investigation process.	Few or no programs or sub-elements established, few written rules, limited enforcement.	Training needs not established, no management training, limited or no supervisor training.

The MSFC Environmental Engineering and Occupational Health Office performs periodic environmental compliance inspections to assess contractor performance relative to the provisions of DRD 987SA-001. These findings are provided to MSFC senior management. In incidences of non-compliance, the contractor is liable for all clean-up expenses and all applicable fines.

SAFETY PERFORMANCE EVALUATION SUMMARY EVALUATION CRITERIA AND PERFORMANCE RECOGNITION

Evaluation Criteria

- Management Commitment and Employee Involvement
- System and Worksite Hazard Analysis
- Hazard Prevention and Control
- Safety and Health Training

Score	≥ 36 points (Annual Score)	≥ 28 points (Annual Score)	≤ 16 points (Quarterly Score)
LTC (Lost Time Case Report)	<u>and</u> ≤ 50% of the LTC Rate for the applicable SIC rate Exception: Contractors with less than 100 employees located onsite MSFC shall have no lost time injuries during the past year	<u>and</u> less than the applicable SIC rate Exception: Contractors with less than 100 employees located onsite MSFC shall have no more than one lost time injury during the past year.	<u>or</u> more than the applicable SIC rate Exception: Contractors with less than 100 employees located onsite MSFC. A Level III rating will be given when greater than two lost time injuries are reported during the past year.
Grade Levels	I	II	III
Recognition	Formal award publicly recognized. Appropriate Past Performance referrals provided.	Formal letter of commendation – will impact contract evaluation and past performance. (Score must either be the same score or higher from the last evaluation.)	Formal letter expressing concern. Corrective Action Plan requested. Data placed in Past Performance Database. Failure to improve could result in Contract Options not being exercised.

NOTE: If the contractor's safety performance evaluation does not fall within one of the above categories, no recognition will be provided.

DEDUCTIONS

Failure to report information on all personnel and property mishaps that meet the criteria of NASA NPR 8621.1B, on a monthly basis will result in a deduction of \$1,000 for each occurrence of failure to report. Information to be reported includes items listed in paragraph 6 of the clause.
