MANUFACTURING SUPPORT AND FACILITIES OPERATIONS CONTRACT (MSFOC) NNM09AA20C

ATTACHMENT J-8

Government Furnished Facilities

Building 101	Administration Building at MAF	Provides Administrative and Engineering Services Offices supporting NASA Program
Building 102	Engineering Building	Provides engineering and Production Support Offices including Cafeteria
Building 103	Manufacturing Building	Provides primary manufacturing space for large cryogenic structures
Building 104	Maintenance Shop	Provides the facilities contractor with welding, HVAC, Pipefitting, and battery shops
Building 105	Maintenance Building	Partially mothballed (incinerator, shredder) Back up Steam Boiler available
Building 106	Storage building	Emergency Generator and storage for hurricane supplies
Building 107	Facilities material storage	Storage and office area for facilities supplies
Building 108	Lubrication Storage	Storage of Lubrication supplies and some auxiliary storage of supplies
Building 109	Fabrication Shop	Employee meeting rooms and fabrication of materials for local projects
Building 110	Vertical Assembly Building	Provides manufacturing of assembled flight hardware, vertical assembly preferred.
Building 111	Engine Test Building	Mothballed Building
Building 114	High Bay Assembly Building	Provides manufacturing of spray on foams for flight hardware
Building 119	Storage Building	Mothballed Building
Building 123	Guard House	Provides security for Gate 11
Building 130	Systems Engineering Building	Provides for mixing of Thermal Protections Systems and Demineralized Water
Building 131	LH2 Tank Ablator Spray Facility	Provides mix rooms and cells for manufacturing of large aerospace structures
Building 135	Construction Fabrication Shop	Provides a large structure - fabrication support for local project
Building 140	Office Building	Provides offices for support organizations
Building 143	Pump House	Houses three storm water pumps
Building 159	Hazardous Waster Storage	Storage for over 90 day hazardous materials
Building 173	IWTF Operations Building	Provides labs, control room, Demineralized, and other equipment for treating waste water

Contract NNM09AA20C

Building 175	LN2/GN2 Conversion Facility	Provides pumps, boilers, and controls for converting liquid nitrogen to gaseous
Building 177	IWTF Sludge Handling Facility	Used to thicken, dewater, filter, and compress waste water residual material
Building 201	Fire Water Pump House	Provides housing for fire water protection pumps
Building 203	Storage Facility	Provides storage for surplus equipment
Building 207	Boiler House	Central building for five steam boilers and 6 chillers for Plant Chilled Water
Building 218	Bulk Storage	Storage for Hazardous Waster Trailers
Building 220	Vehicle Supply Component	Shipping and Receiving, storage of flight hardware, storage of facilities spare parts
Building 221	Hazardous Material Storage	Storage of Hazardous Materials, pest control supplies, bottled gases, PCB waste
Building 230	Guard House	Provide security for Gate 12, contractor's entrance
Building 239	Storage Shop	Houses instrumentation shop and fire water booster pumps
Building 301	Maintenance Shop	Shops for carpentry, sheet metal, electricians
Building 304	Pumping Station	Houses 3 storm water pumps
Building 305	Transportation/Handling Building	Storage for slings, harnesses, etc.
Building 318	Component Ablator Facility	Mix Room for ablator, machine shops, equipment room control room
Building 320	Facilities Operations Building	Provides offices, mail rooms, medical, security, fire protection, equipment rooms
Building 325	Storage Building	Stores large facilities equipment and roads and grounds equipment
Building 327	Maintenance Building	Offices and meeting rooms for janitorial, roads and grounds personnel
Building 350	Office and Engineering Building rooms	Used by NASA contractors, USDA, and DCMA for admin offices and compute
Building 351	Equipment Room and Cafeteria	Large meeting area, cafeteria, and equipment room for Building 350
Building 360	Guard House	Security for Gate 7, Main Entrance
Building 361	Guard House	Security for Gate 5
Building 404	Engineering Structures Test Facility	Offices and data acquisition for structural test of components for flight hardware
Building 406	Storage Building	Facilities Supplies for offices and high voltage supplies.
Building 409	Salvage Building	Houses recycling paper products and CO2 cleaning of hardware test panels
Building 411	ASRM LSC Installation Facility	Mothballed Building used for USDA Office Furniture.
Building 420	Acceptance & Prep Building	Final Assembly of External Tanks, (2 cells) Other cells under construction
Building 421	Boiler and Chiller House	Houses boilers, chillers, plant air equipment, electrical equipment for 420
Building 450	Main Pumping House	Houses 4 engines and pumps for storm water drainage throughout MAF
Building 451	Pneumatic Test Facility	Pneumatic testing of External Tanks
Building 452	Control Building	Houses all controls for Pneumatic testing of ET's. Safe House during testing
Building 485	Maintenance and Storage Building	Houses offices, storage, and Coast Guard storage for all barge operations

Compliance Documents

Contractors requesting and receiving access to the Compliance Documents must comply with Export Control Regulations and Procedures.

Parties reviewing any of the following materials marked 'RESTRICTED' agree to abide by the terms in the Sensitive But Unclassified (SBU) notice posted on those documents. Any disclosure, dissemination or transmission of these documents requires establishing the other party's need-to-know and requiring an SBU cover sheet on all documents distributed. All persons having access to these materials are individually responsible for complying with NASA regulations regarding SBU materials and may be subject to administrative sanctions if they disclose information designated SBU without proper authorization.

The documents listed herein contain specifications to which performance of the contract requirements and work described in the Performance Work Statement (Attachment J-1) and Data Procurement Document (Attachment J-3) shall conform. The contractor shall comply with all the requirements of these documents and all revisions thereto. Current versions shall be utilized, unless authorization to use obsolete versions has been properly documented. This listing is not intended to relieve the Contractor of its responsibility for identification of applicable regulations and procedures and compliance therewith when performing work onsite at MSFC/MAF.

For the Contractor's information, NASA recognizes a document hierarchy. NASA Interim Directives (NID), NASA Policy Directives (NPDs), NASA Procedural Requirements (NPRs), NASA Safety Standards (NSS), and NASA Technical Standards (NASA-STD) are headquarters' level documents. The center equivalent to these documents is Marshall Policy Directives (MPDs) and Marshall Procedural Requirements (MPRs) that are written to support the headquarters documents at the local level. The hierarchical order for these documents is NPD and NPR at the HQ level and MPDs, MPRs, and Marshall Work Instructions (MWIs).

Notwithstanding the hierarchy of NASA's documentation system, in terms of understanding the requirements for performing this contract, the Contractor's attention is invited to the documents

specifically referenced in the PWS, the WBS Unique Procedures, and documents referenced in the Data Requirements Documents.

As a Services Contract provider, the contractor shall utilize all NASA and MSFC Directives and Standards as applicable.

NASA Directives can be found at the following URL: <http://nodis3.gsfc.nasa.gov/>

MSFC Directives can be found at the following URL: <https://repository.msfc.nasa.gov/directives>

NASA and MSFC Standards can be found at the following URL: <http://standards.nasa.gov>

**MANUFACTURING SUPPORT AND FACILITIES
OPERATIONS CONTRACT (MSFOC)**

ATTACHMENT J-12-A

Critical Production Areas

Critical Production Areas

Listed below are the designated Critical Systems, Facilities, and Equipment.

1.0 SYSTEMS

A. Facility Systems

The following systems are designated as critical production facilities and considered as such in the PWS:

- [1] **Fire Detection System** - consists of all items and components external and internal to the fire detection panel. The entire system is considered critical including the panel, wiring and devices attached to the wiring.
- [2] **Vapor Detection System** - consists of all items and components external and internal to the detection panel.
- [3] **Breathing Air System**- consists of pumps, distribution power and piping, controls, fittings, components and utilities (power & potable water). Interface is the Motor Control Center (MCC) for power and the block valves, on potable water line to pumps.
- [4] **Process Systems** - consists of equipment, power distribution, piping, controls, components and utilities (power, steam, condensate, plant air, GN2, etc.). Interface is the MCC for power, the last block valve on each utility distribution line to the Production Facility for steam, plant air, GN2, etc., and the last block valve from each steam trap on equipment condensate lines from the Production Facility.
- [5] **Process HVAC Ventilation & Exhaust Systems** - consists of equipment, distribution for (power, piping, ductwork, pneumatic lines, etc.) controls, components and utilities (power, steam, chilled water, condensate, plant air, GN2, etc.). Interface is the MCC for power, the last block valve on each utility distribution line to the Production Facility for steam, chilled water, plant air, GN2, etc., and the last block valve from each steam trap for coils condensate lines from the Production Facility.
- [6] **Lighting for Production Operations and Emergency Lighting System** - consists of equipment and power distribution from power panels. Interface is at each power panel.
- [7] **Process Coatings**- consists of a special coating, when required, on walls, ceiling and floors associated with the Production process.

Contract NNM09AA20C

- [8] **Software** - consists of process control programs used to control and operate production cells, and machine tools. Automated welding equipment (i.e. Friction Stir Welders) will become MSFOC critical after ET last use.

- B. Typical support systems (i.e. potable water, offices, structures, fire protection system, etc) within these facilities that are not considered critical.

2.0 FACILITIES, SYSTEMS, EQUIPMENT AND UTILITIES

The following areas are designated as critical production facilities, systems, equipment, and utilities and considered as such in Attachment J-1-C, Manufacturing Support Requirements & Timeline. Equipment within these areas as defined in Attachment J-7, Government Furnished Property, is considered Production Critical Equipment.

A. Building 103

- [1] Cell Q
[2] SOFI Spray

MANUFACTURING SUPPORT AND FACILITIES OPERATIONS CONTRACT (MSFOC)

ATTACHMENT J-12-B

Items Requiring Configuration Control

This Attachment identifies critical and general facilities, systems, equipment, and utilities (FSEU) for which all installation, replacements and modifications will be controlled and properly documented to preclude personnel safety, major hardware damage, or major production delay or stoppage. This configuration control process will eliminate unauthorized changes to these critical and general FSEU to ensure a continuous state of readiness to support MAF customers.

This process will require configuration control drawings and software including Computer Aided Design (CAD) generated drawings and software which provide current configuration of designated mechanical, electrical or structural FSEU for items such as:

- Piping plans, sections and details.
- Process & HVAC instrumentation/control diagrams.
- Equipment schedules/arrangements.
- Hazard detection systems.
- Special coating schedules.
- Electrical power distribution and emergency lighting.
- Wiring and control schematics Electrical power distribution and emergency lighting.
- Software programs which control or operate FSEU utilized by multiple user(s)/tenant(s).

1.0 CRITICAL FACILITIES, SYSTEMS, EQUIPMENT, AND UTILITIES

Listed below are the designated Critical FSEU. Configuration control for these critical FSEU will be maintained by ET and transition to the MSFOC consistent with Attachment

J-1-C, "Manufacturing Support Requirements & Timeline".

A. SYSTEMS

[1] Facility Systems

Typical facility systems as listed below, that are within these Production Facilities, will be designated as critical and subject to the controls imposed by this Internal Practice:

- [a] Fire Detection System** - consists of all items and components within the fire detection panel. Interface is the wire terminal strip in the fire detection panel.
- [b] Vapor Detection System** - consists of all items and components within the detection panel.
- [c] Breathing Air System**- consists of pumps, distribution power and piping, controls, fittings, components and utilities (power & potable water). Interface is the Motor Control Center (MCC) for power and the block valves, on potable water line to pumps.
- [d] Process Systems** - consists of equipment, power distribution, piping, controls, components and utilities (power, steam, condensate, plant air, GN2, etc.). Interface is the MCC for power, the last block valve on each utility distribution line to the Production Facility for steam, plant air, GN2, etc., and the last block valve from each steam trap on equipment condensate lines from the Production Facility.
- [e] Process HVAC Ventilation & Exhaust Systems** - consists of equipment, distribution for (power, piping, ductwork, pneumatic lines, etc.) controls, components and utilities (power, steam, chilled water, condensate, plant air, GN2, etc.). Interface is the MCC for power, the last block valve on each utility distribution line to the Production Facility for steam, chilled water, plant air, GN2, etc., and the last block valve from each steam trap for coils condensate lines from the Production Facility.
- [f] Lighting for Production Operations and Emergency Lighting System** - consists of equipment and power distribution from power panels. Interface is at each power panel.
- [g] Process Coatings**- consists of a special coating, when required, on walls, ceiling and floors associated with the Production process.

Contract NNM09AA20C

[h] **Software** - consists of process control programs used to control and operate production cells, machine tools, an automated weld tools.

[2] Typical support systems within these facilities that are not considered critical are:

[a] **Potable Water** - consists of distribution lines and fixtures, both within and outside of each Production area.

[b] **Power to Motor Control Centers and Power Panels** - consists of power distribution from MCC and power panels to their substations.

[c] **Facilities for Office Areas** - consist of HVAC and lights, building walls, personnel and vehicle doors.

[d] **Facilities for Production Areas** - consist of building structures for walls, ceilings, floor, roof and roof drains, and any utilities going through the area.

[e] **Fire Protection System** - consists of distribution lines, fire pumps, controls, control panels and fixtures both within and outside Production areas.

WYE	Work Year Equivalent

DEFINITIONS

Acquisition – The acquiring, by contract, of supplies or services (including construction) through purchase or lease, whether the supplies or services are already in existence or must be created, developed, demonstrated, or evaluated. Acquisition begins at the point when Agency needs are established and includes the description of requirements to satisfy Agency needs, solicitation and selection of sources, awards of contracts, contract financing, performance, administration, technical and management functions directly related to the process of fulfilling Agency needs by contract.

Activation of Facilities – The functional checkout (operational readiness review, test run, etc.) of facilities which have been repaired or modified.

Alternative Maintenance - Altering, modifying, upgrading or replacing systems or equipment with a completely new design in order to reduce or eliminate future unsatisfactory conditions.

Alteration - The work required to adjust layout arrangements, make changes, or modify other physical characteristics of an existing real property facility so that it may be more effectively adapted to or utilized for its designated purpose. This work changes the configuration of a facility (not maintenance or repairs) but does not increase its value; for example, moving a door or electrical outlet.

Annual Work Plan (AWP) - A plan prepared on an annual basis prior to the start of the applicable fiscal year that systematically lays out the maintenance and repair work to be accomplished within budget constraints. The AWP is based on the 5-year Maintenance Plan and the mission of MAF.

Architecture and Engineering (A&E) – A company or companies that specialize in providing professional architecture, engineering and construction design services

Ares – I – Crew Launch Vehicle that launches Orion (Crew Exploration Vehicle) into low earth orbit.

Ares – V – Cargo Launch Vehicle that launches heavy cargo payloads into space.

As-Built Drawings – Final construction drawings revised to reflect actual as-built conditions.

Assets - Any item of economic value owned by NASA. The item may be physical in nature (tangible) or a right to ownership (intangible) that is expressed in terms of cost or some other value.

Associate Contractor Agreement (ACA) - A documented mutual understanding between two or more contractors that enables support from one to the other or working together to meet a common objective and requiring minimal (if any) Government involvement.

Automated Data Transfer Capability - Ability to transfer data through network or direct connection between IT systems and alleviates the need for manual entry of data.

Contract NNM09AA20C

Availability - The ratio of the actual run time of a machine or system divided by the scheduled time for the machine or system. Availability is usually expressed as a percentage. For example, if an air handler was scheduled to run from 6 a.m. to 6 p.m., 5 days a week and in fact did run during those times, its Availability was 100 percent. If the air handler was stopped 1 day during the week for 1 hour, its availability for that week was 98.3 percent (59 hours divided by 60 hours).

Backlog of Maintenance and Repair (BMAR) - Also known as "Deferred Maintenance". The NASA unfunded facilities maintenance required to bring facilities and collateral equipment to a condition that meets acceptable facilities maintenance standards. See also Facilities Maintenance.

Bar Code - A series of parallel lines whose width and spacing represent a number when scanned by a laser reader. Used for identifying parts/equipment and a part of the existing bar coding system that allows for generation of special reports on equipment usage.

Benchmarking - To seek out the best examples of methods, processes, procedures, and products in order to establish a standard and assess one's own performance in terms of quality, productivity, or cost.

Book Value - The original capitalized value of an asset, adjusted for modifications where appropriate, as stated in the Agency's accounting records.

Buildings - The classification "buildings" includes the original brick, steel and mortar physical facilities (the "buildings"), including capital improvements of buildings, and fixed equipments that are normally required for the functional use of the buildings and become permanently attached to and made parts of the building and that cannot be removed without cutting into the walls, ceilings, or floors, such as plumbing, heating, and lighting equipment; elevators; central air-conditioning systems; and built-in safes and vaults. Also included is all equipment of any type built in, affixed to, or installed in real property in such manner that the installation cost, including special foundations or unique utilities or services, or the facility restoration cost after removal is substantial.

Capital (Capitalized) Equipment (Asset) - Individual items of Property, Plant, and Equipment (PP&E) that has an acquisition cost of \$100,000 or more, an estimated useful life of two years or more, is not intended for sale in the ordinary course of operations, and is acquired or constructed with the intention of being used or available for use by the Agency. Maintenance costs involving collateral equipment valued between \$5,000 and \$100,000 shall be tracked as an expense versus a capitalization. These criteria are retroactive to October 1, 1997.

Certification – Refers to certification of personnel or equipment to do specific jobs correctly and safely.

- A. Certification (Personnel): The act of verifying and documenting that personnel have completed required training, including OJT (on the job training), medical requirements (if any) and have demonstrated specified proficiency. Personnel certification is done in accordance with MWI

Contract NNM09AA20C

3410.1, *Personnel Certification Program*. Examples: welders, crane & forklift operators, NDE inspectors.

- B. **Certification of Equipment:** refers to periodic inspection and maintenance and checkout. A certification tag is usually attached to the equipment. Examples of equipment needing certification: Cranes, elevators, pressure vessel systems

Change Package – The consolidated record of all pertinent information associated with requesting, processing, and implementing a baseline, change or deviation/waiver. The typical change package includes the change request or deviation/waiver, supporting documentation, change evaluations, change board directives with authorized implementation actions, and action closure data. In the context of this contract, it refers to any proposal or request brought before the MAF Control Boards and working groups (WG), usually by the user community at MAF and which require action by the Board/WG.

Chief Operating Officer (COO) – Civil servant in charge of all MAF site operations.

Collateral Equipment – This encompasses building-type equipment, built-in equipment, and large, substantially affixed equipment/property and is normally acquired and installed as part of a facility project as described below (See NPR 8831.2):

- A. Building-Type Equipment - A term used in connection with facility projects to denote that equipment normally required for making a facility useful and operable. It is built in or affixed to the facility in such a manner that removal would impair the usefulness, safety, or environment of the facility. Such equipment includes elevators; heating, ventilating and air conditioning systems; transformers; compressors; and other like items generally accepted as being an inherent part of a building or structure and essential to its utility. It also includes general building systems and subsystems such as electrical, plumbing, pneumatic, fire protection, and control and monitoring systems.
- B. Built-in or Large, Substantially Affixed Equipment - A term used in connection with facility projects of any type other than building-type equipment that is to be built in, affixed to, or installed in real property in such a manner that the installation cost, including special foundations or unique utilities service, or the facility restoration work required after its removal is substantial.

Common (Shared) Manufacturing Resources – Production facilities, services, and equipment that multiple Users/Tenants are required to share.

Computerized Maintenance Management System (CMMS) – The work management system used by the Contractor, that enables effective and efficient coordination and integration with program and other institutional support contractors to ensure timely support to mission milestones. It is used to integrate and satisfy all customer requirements while emphasizing increased customer responsiveness, achieving first time quality, improving resource planning and efficiencies across departmental and contract boundaries, and maximizing cost-effectiveness.

Contract NNM09AA20C

Concept Drawings – Drawings developed initially for conveying basic project ideas.

Condition Monitoring - Also known as Predictive Maintenance it is the continuous or periodic monitoring and diagnosis of systems and equipment in order to forecast failure. Also see Predictive Testing and Inspection (PT&I).

Configuration Control - The discipline of processing changes to the configuration baseline to ensure that the changes are adequately described, assessed, approved by a proper authority, and closed upon verification of implementation.

Constraint - Any technical or operational limiting factor (except parts, material, equipment, or tools) that would prohibit performance of an activity, or cause personal injury or equipment damage equipment if not resolved satisfactorily before the start of the work sequence or step.

Construction - Per the Davis-Bacon Act, the erection, installation, or assembly of: (1) a new or replacement facility, or (2) an addition in area, volume, or both to an existing facility.

Construction Of Facility (CoF) Project - A facility project relating to the erection, installation, or assembly of a new facility, replacement of facility, or an addition in area, volume, or both to an existing facility. CoF projects can be Institutional or Program funded and include new facility construction and facility revitalization (repair, restoration, rehabilitation, and modification of existing facilities) with an estimated value of \$500,000 or greater. These construction activities include all construction as defined under the Davis Bacon Act. CoF projects are approved by NASA Headquarters and require Congressional approval.

Contracting Officer (CO) – The Contracting Officer is a person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings. The term includes certain authorized representatives of the Contracting Officer acting within the limits of their authority as delegated by the Contracting Officer (in accordance with procedures prescribed by the Acquisition Regulation (see Appendix B, resource 4, Part 1, Subpart 4).

Contracting Officer's Technical Representative (COTR) – The person who is an authorized Government representative of the Contracting Officer acting within the limits of their authority as specified by the COTR delegation letter. This term does not include any inspector or other person not named as COTR in the delegation letter or designated representatives.

Contractor - The supplier of the end item or service and associated support items to the Government under the terms of a specific contract.

Contractor Performance Metrics – Critical measurements that relate to performance of the contractor. Examples: meeting cost, schedule, and performance requirements.

Corrective Maintenance (CM) – See Maintenance Definitions

Contract NNM09AA20C

Cost Analysis- The review and evaluation of the separate cost elements and profit in an offeror's or contractor's proposal (including cost or pricing data or information other than cost or pricing data), and the application of judgment to determine how well the proposed costs represent what the cost of the contract should be, assuming reasonable economy and efficiency.

Cost Realism- The process of independently reviewing and evaluating specific elements of each offeror's proposed cost estimate to determine whether the estimated proposed cost elements are realistic for the work to be performed; reflect a clear understanding of the requirements; and consistent with the unique methods of performance and materials described in the offeror's technical proposal.

Critical Production Facilities/Areas – Facilities, systems, equipment, and utilities that are used in support of production and/or exhibit one or more of the following criteria listed below:

- A. Malfunction would cause damage to production hardware and components, cause major production delays or stoppage, or cause major rework to production hardware/components
- B. Proper performance of the facility systems or equipment is required to support production operation that directly involves producing flight hardware and/or flight hardware components.

Critical Spares - Assets held for emergencies for which there is limited recurring demand. They shall be immediately available to prevent delay which might result in loss, damage, destruction of property, or danger to life due to an interruption of operations.

Customer - The user/tenant receiving direct benefit from the product or services by the Contractor.

Debris - Debris is any trash, wastepaper, gum, limbs, leaves or any other matter lying scattered about which is foreign to its surroundings. Examples - leaves/rocks in equipment areas, or other items not placed or intended for the given location.

Decontrolled – Non-collateral equipment items valued at less than \$1,000 and non-sensitive.

Dedicated Manufacturing Areas – Physical area(s) that have been reserved and set aside to house and support production operations of a single user.

Design - This term is used to encompass both preliminary design and final design for facility projects. Design costs are normally funded under the Construction of Facilities appropriation. Note: Design costs of facility projects proposed for funding under appropriations other than CoF are normally funded under the same appropriation from which the facility project is to be funded with such costs being identified separately from the facility project cost estimate.

Design Criteria Statement (DCS) – A written statement of the contractor's understanding of the requirements that the design must satisfy. The statement is required for local

Contract NNM09AA20C

projects and based on the project criteria received and information gathered from the user. The statement includes the contractor's estimated cost for construction and is typically generated for non-CoF (less than \$500K) projects.

Design Criteria Plan (DCP) – A written document of the contractor's understanding of the requirements that the design must satisfy. This document is required for CoF projects and is more detailed than a design criteria statement. It is based on the project criteria received and information gathered from the users. The document includes project background, objective, approach, ground rules, general codes and standards, requirements, scope, site plan, estimated cost, schedule, safety and environmental precautions.

Design Lead – Refines project requirements received from the MSFOC or Government and develops design schedule, design criteria/implementation plan, and design package including construction estimate.

Drawings - Graphic data as defined in MIL-STD 100A and prepared in accordance with MIL-STD-1000, Category D; and graphs or diagrams in accordance with industry standards and industry specifications on which details are represented with sufficient information to define completely, directly, or by reference the end result for use in the selection, procurement, and manufacture of the item required.

Emergency Repair – see Maintenance Definitions

Energy Management Control System (EMCS) - A computerized system for monitoring and controlling systems and equipment through an integrated network of microprocessor based controls.

Equipment - A tangible asset that is functionally complete for its intended purpose, durable, nonexpendable, and needed for the performance of a contract. Equipment is not intended for sale, and does not ordinarily lose its identity or become a component part of another article when put into use.

Estimated Cost - A calculated anticipated amount, as distinguished from an actual outlay, based upon related cost experience, prevailing wages and prices, or anticipated future conditions, usually for the purposes of contract negotiation, budgetary control, or reimbursement.

Excess - A classification assigned to government property for which there is no requirement at a particular operational level.

Facility – An enclosed structure to protect personnel, material or equipment from the elements and provide associated work or storage space. This includes the utility systems inside the building/structure and extends five feet from the facility or as otherwise defined.

- A. Architectural - Includes (interior/exterior) doors; windows; flooring (coatings and coverings); stairs and stairwells; interior walls, ceilings, and partitions.

Contract NNM09AA20C

- B. Structural - Includes foundation; structural system; building shell; roof; external attachments (e.g. walkway covers, overhangs, loading docks); and facilities water collection and drainage system.
- C. Electrical - Includes electrical wiring and lighting, hardware, and panels; power for equipment up to the point of disconnect, grounding or lightning arresting systems; alarm systems and communication equipment (excluding telephones).
- D. Mechanical - Includes all equipment, components and controls associated with the following systems as well as components located outside the facility: HVAC; plumbing; compressed air; steam; fire suppression; gas; boilers, furnaces; and generators.
- E. Building Specialty - Includes installed equipment within the facility such as food service and processing equipment; appliances; elevators; automatic doors; roll-up doors; blast doors; vehicle gates; waste disposal equipment; shop equipment and hoists.

Facilities Area Engineer (FAE) – Engineer responsible for all aspects of facilities work being performed in a specific area or building. The FAE is knowledgeable of all activities taking place in a specific area or building and its operational readiness.

Facilities Condition Assessment (FCA) - The inspection and documentation of the material condition of facilities and equipment, as measured against the applicable maintenance standard. It provides the basis for long-range maintenance planning as well as annual work plans and budgets.

Facilities Contract - A contract type under which Government facilities and equipment are provided to a contractor by the Government for use in connection with the performance of separate, related procurement or support services contract(s) for supplies or services.

Facilities Maintenance – See Maintenance Definitions.

Facilities Maintenance Management – See Maintenance Definitions.

Facility Project - The consolidation of applicable specific individual types of facility work, including related collateral equipment, which is required to fully reflect all of the needs, generally relating to one facility, which have been or may be generated by the same set of events or circumstances that are required to be accomplished at one time in order to provide for the planned initial operational use of the facility or a discrete portion thereof.

Failure - The inability of a system, subsystem, component, or part to perform the required function within specified limits, under specified conditions, for a specified duration.

Failure Analysis - The effort of physical inspections, test (destructive or nondestructive), and/or analytical processes required to determine the failure modes and causes.

Contract NNM09AA20C

Failure Mode - The functional description of the manner in which a failure occurs and the operating condition of the equipment or system at the time of failure.

Failure Modes And Effects Analysis (FMEA) - The analysis of the potential failure modes in a system to determine effects on system operation, personnel safety, and flight hardware; and to classify each failure mode according to severity.

Field Investigations – The collection of information and data, such as design description, existing concept and construction drawings, interviews with government design, safety, and environmental health engineers, and using-agency representative. Onsite inspection to obtain as-built conditions, define problems, and the extent of the construction, rehabilitation, or modification, so that a design approach can be decided.

Final Design Drawings – Completely reviewed/approved dimensioned drawings which delineate all features of the proposed construction, rehabilitation, or modification.

Finding - Discovery utilizing Predictive Testing & Inspection (PT&I) of an impending failure or degrading condition of a facility, system or equipment that indicates an action is required to prevent failure.

Fire Detection System - A system designed to detect and alert building inhabitants to the presence of fires, using smoke, heat, or other detectors, and audio or visual alarms.

Fire Suppression System - A facility system designed to extinguish or contain a fire by manual or automatic discharge of water, carbon dioxide, or other extinguishing agents.

Fiscal Year - In the Federal Government, it is the 12-month period from October 1st of a calendar year through September 30 of the following year.

Foreign Object Debris/Damage (FOD) – A substance, debris or article alien to a vehicle or system which would potentially cause damage. Any damage attributed to a foreign object which may degrade the product's required safety and/or performance characteristics.

Five-Year Maintenance Plan - The plan of maintenance work anticipated for the 5-year period beginning with the budget year. It comprises the maintenance (planned, level of effort, and anticipated unknowns) required to support the site mission needs and to correct the deficiencies identified by the current assessment of facilities.

Funding Availability - The amount of obligating authority provided by appropriations, contract authorizations, actual transfers to or from other appropriations, and anticipated reimbursements.

General Manufacturing Facilities - Facilities and/or portions of facilities, to which access is afforded and which are constructed, maintained and operated specifically for, but not incidental to, the benefit of all Michoud Assembly Facility (MAF) residents. General use areas within the manufacturing facilities include entry and hallways, stairs and stairwells, restrooms, and vending areas within dedicated facilities. An access restriction, for security or other reasons, does not alter this definition.

Contract NNM09AA20C

Geographic Information System: A computerized relational database management system for capture, storage, retrieval, analysis, and display of spatial data. GIS software applications allow users to develop linkages between graphical and non-graphical data.

Government Property - All property owned or leased by the Government or acquired by the Government. Government property includes both Government-furnished property and contractor acquired property with Government Funds.

Government Furnished Property – Property in possession of the Government and subsequently made available to the contractor (facilities, equipment, materials, special tooling and special test equipment).

Grounds - All grassy areas, shrubs, trees, sprinklers, right-of-ways and open fields, drainage ditches, swamps and water holding areas (lakes, ponds, lagoons, canals), fences, walls, grates, and other similar improvements to land that are included in the NASA Real Property Accountability System, and exterior pest and weed control. The maintenance tasks include mowing, spreading fertilizer, trimming hedges and shrubs, clearing ditches, snow removal, and related work. Included in this category is the cost of maintaining Grounds Care equipment such as mowers and tractors.

Hazard - The presence of a potential risk situation whereby environment, personnel errors, design characteristics, procedural deficiencies, or subsystem malfunctions may result in property damage, loss of personnel capability, loss of system, or loss of life.

Hazardous Operation (Hazardous Task) - Any operation involving activities that could result in exposure/injury/loss of life to operating personnel and/or damage to systems/equipment or have an environmental impact.

Hazardous Wastes - Any waste or combination of wastes of a solid, liquid, contained gaseous or semisolid form that requires special management in waste handling, processing, and disposal for the protection of human health or the environment, including, but not limited to, wastes containing substances that are corrosive, flammable, reactive, or toxic.

Industrial Safety Program – consists of daily monitoring of all MAF operations, working with employees to identify and mitigate and/or eliminate hazards and approving permits for potentially hazardous activities (e.g. Hot Work, Confined Space, Hazardous Materials shipping, etc).

Level A Personal Protective Equipment (PPE) - Consists of a self-contained breathing apparatus and a totally encapsulating chemical-protective (TECP) suit. Level A PPE provides the highest level of respiratory, eye, mucous membrane, and skin protection.

Level B PPE - Consists of a positive-pressure respirator (SCBA or SAR) and non-encapsulated chemical-resistant garments, gloves, and boots, which guard against chemical splash exposures. Level B PPE provides the highest level of respiratory protection with a lower level of dermal protection.

Level C PPE - Consists of an Air Purifying Respirator (APR) and non-encapsulated chemical-resistant clothing, gloves, and boots. Level C PPE provides the same level of

Contract NNM09AA20C

skin protection as Level B, with a lower level of respiratory protection. Level C PPE is used when the type of airborne exposure is known to be guarded against adequately by an APR.

Life-Cycle Costs (LCC) - A form of economic analysis that considers the total cost of owning, operating, and maintaining collateral and non-collateral property over its useful life. Life-cycle costs are the sum of the present value of: a. Investment costs, less salvage values, at the end of the study period, b. Non-fuel operation and maintenance costs, c. Replacement costs, less salvage costs, of replaced building systems, and d. Energy costs.

Local Projects - Local institutional projects including system upgrades, re-configuration, repair, revitalization, or demolition projects with an estimated value of no less than \$2,000 and no more than \$500,000. These construction activities include all construction as defined under the Davis Bacon Act.

Kit or Kitting - An assembly, or act of assembling, of hardware, equipment, or consumables placed in suitable containers for control and issue.

Lockout/Tagout - The placement of a device and/or tag in accordance with an established procedure to ensure the equipment being controlled cannot be operated until the device and/or tag is removed.

MAF Energy Conservation and Management Council – The MAF Energy Conservation and Management Council (ECC) is the forum that brings all organizations, project representatives and tenants together with one primary mission—energy conservation and awareness. The council includes representatives from the Michoud Assembly Facility population that are tasked with raising awareness of the importance of energy conservation, improving communications on MAF's campus, recommending a campaign for conservation and identifying cost reduction ideas/projects.

Maintainability – see Maintenance Definitions.

Maintenance – see Maintenance Definitions.

Maintenance Project – see Maintenance Definitions.

Management Information System (MIS) – System that enables the effective and efficient preparation, management, control, and dissemination of information and data required to successfully accomplish the Contract requirements. The integrated architecture of the MIS links all Information Technology (IT) applications and enable sharing and integration of data from multiple functional areas.

Master Facility Drawings – Drawings, hard copy or electronic, that act as the official record of the site's facilities.

Material - Property that may be consumed or expended during the performance of a contract, component parts of a higher assembly, or items that lose their individual identity through incorporation into an end-item. Material does not include equipment, special tooling, and special test equipment.

Contract NNM09AA20C

Material Management System (MMS) - System used for tracking, maintaining and updating shelf life materials.

Material Safety Data Sheet (MSDS) - Written or printed material that provides the health and safety information about a specific material; i.e., chemical composition, physical properties, fire and explosion hazards, health hazards, reactivity data, spill or leak procedures, occupational protective measures, special precautions, and transportation data. As a minimum, contains all information required by the Occupational Safety and Health Administration (OSHA).

Mishap - An unplanned event involving (or potentially involving) injury or death to persons, damage to or loss of property or equipment, or mission failure; categorized (in accordance with NPR 8621.1) as follows:

- A. Close Call: An undesirable and unexpected event resulting in no personal injury or illness, personal injury or illness requiring only first aid, and/or minor damage (of less than \$1,000) but with potential for causing a more serious mishap (see below) or negative mission impact.
- B. Type A Mishap: A mishap causing death, hospitalization (within 30 days from the same mishap) of three or more persons for other than observation, and/or damage to equipment or property resulting in a loss of \$1,000,000 or more*.
- C. Type B Mishap: A mishap resulting in permanent disability to one or more persons, inpatient hospitalization of one or two persons, and/or property damage or mission failure resulting in a loss of \$250,000 or more but less than \$1,000,000*.
- D. Type C Mishap: A mishap causing occupational injury or illness that results in a case involving day(s) away from work and/or damage to equipment or property or mission failure resulting in loss of \$25,000 or more but less than \$250,000*.
- E. Type D Mishap: A mishap consisting of personal injury requiring medical treatment of more than first aid but without any property damage or mission failure costing \$1,000 or more but less than \$25,000. (Personal occupational hearing loss in excess of 25 decibels in either ear is classified as an incident.) **Mishaps resulting in damage to aircraft, space hardware, or ground support equipment that meet these criteria are included, as are test failures in which the damage was unanticipated.*

Mission Critical - A building, area, equipment, or system that is critical to the site mission.

Mission Support - A building, area, or system that provides support to the site primary mission.

Contract NNM09AA20C

Modification - The modernization or alterations of an existing facility so that it can be used more effectively to carry out its function and purpose. Modification means change and these changes are dictated by the dynamic character of the MSFC R&D activities. Original configuration is altered. See Rehabilitation and Modification.

National Center for Advanced Manufacturing (NCAM) – Located at MAF, NCAM addresses advanced manufacturing requirements of space transportation systems. Through NCAM, partnerships between National Aeronautics and Space Administration (NASA), other government agencies, industry, and academia are formed that leverage assets to successfully meet the requirements of future aerospace systems.

Non-Destructive Evaluation (NDE) - Test and inspection methods used to determine the integrity of equipment that does not involve destruction of the test object. Examples include ultrasonic, magnetic particle, x-ray, eddy current, and dye-penetrant.

Non-Collateral Equipment - All equipment other than collateral equipment. Such equipment, when acquired and used in a facility or a test apparatus, can be severed and removed after erection or installation without substantial loss of value or damage thereto or to the premises where installed. Non-collateral equipment imparts to the facility or test apparatus its particular character at the time, e.g., furniture in an office building, laboratory equipment in a laboratory, test equipment in a test stand, machine tools in a shop facility, computers in a computer facility, and it is not required to make the facility useful or operable as a structure or building. (See also Collateral Equipment.)

Non-record Materials – Materials such as library and museum materials made or acquired for reference or exhibition purposes; extra copies of documents preserved only for convenience of reference, such as reading and suspense copies; materials of short term value such as drafts, working papers, and routing and transmittal sheets on which no documented administrative action has been taken; and stocks of publications and processed documents

Obligation - An obligation is incurred when an order is placed, a contract awarded, a service received, or other similar transactions that occur requiring disbursement of money. Obligations are the sum of undelivered orders, liabilities, and disbursements.

Occupational Health - The review and monitoring of employee health that assures employees are protected from hazardous materials and fit for the work required at MAF.

Operating Plan - A budget plan, when approved, is the basis for funding and financial control of obligations, costs, and disbursements.

Operational Readiness Review – Preoperational review of all plans, procedures, changes and risks, associated with a specific operation, to ensure that the operational objectives are met without property damage or personnel injury and to determine test, operational system readiness.

Operations - This term is used for assigned systems that require continuous and periodic operational activity. Continuous operational activity will include, but not limited to Central Power Plant Operations, Industrial Waste Water Treatment, Port and Harbor Operations and Energy Management and Control Systems Operations. Periodic operational activity

Contract NNM09AA20C

will include, but is not limited to liquid nitrogen conversion facility, demineralizer, and satellite boilers and chillers. Operations will also include examination, lubrication, the first hour trouble shooting and adjustment of equipment and systems.

Orion – Crew Exploration Vehicle that is launched by Ares I

Outage - The planned or unintentional interruption or termination of a utility service such as electricity, water, steam, chilled water, sanitary sewage, EMCS control, or natural gas.

Pest Management - The utilization of control measures coordinated for overall environmental protection so as to reduce pest numbers to a controlled level without adverse effects to the surroundings.

Phase-In Period - Period of time from contract start date up to the date the contractor assumes full contractual responsibility.

Planned Repair - Repair performed prior to failure. Machinery condition degradation, usually identified through Preventive Maintenance (PM), Predictive Testing and Inspection (PT&I), or other inspection, is repaired to prevent catastrophic failure. Also see Repair.

Planning Programming Budgeting & Execution (PPBE) - A time-phased projection of resource requirements in terms of planned rates of obligations. These estimates serve as a guide for resources and allotment authorizations, and provide a baseline for measuring performance and future budget planning.

Plant, Property, and Equipment – Any tangible asset including land, that meet the following criteria: (1) has an estimated useful life of 2 years or more, (2) is not intended for sale in the ordinary course of operations, and (3) has been acquired or constructed with the intention of being used or being available for use by the entity.

Predictive Testing and Inspection (PT&I): The use of advanced technology to assess machinery condition. PT&I replace maintenance scheduled at arbitrary time and usage intervals with maintenance that is scheduled only when the condition of the equipment requires it. The PT&I data obtained allows for planning and scheduling corrective maintenance or repairs in advance of failure. Common PT&I technologies include vibration analysis, infrared thermography, and lubricating oil analysis.

Predictive Maintenance (PdM) - Condition-based tasks which measure equipment performance or material condition against a pre-determined standard to assess whether conditions are satisfactory or corrective maintenance is required. Task results can be used to develop data to predict future unsatisfactory conditions or failures.

Pressure System - An assembly of components under pressure, including vessels, piping, valves, pumps, relief devices, expansion joints, and gauges.

Pressure Vessel - Any vessel used for storage or handling of gas or liquid under positive pressure, including components of systems.

Preventive Maintenance (PM) – see Maintenance Definitions

Proactive Maintenance – See Maintenance Definitions.

Production Support Lead Engineer (PSLE) - The PSLE responsibilities include coordination with User(s)/Tenant(s) and other MAF organizations to achieve requirements development, management, and implementation, including:

- A. Assist the PSSM in collecting, analyzing, and inputting User(s)/Tenant(s) requirements
- B. Coordination with other MAF contractor personnel to ensure that User(s)/Tenant(s) requirements can be accommodated.
- C. Coordination with other PSLEs to ensure that the “Integrated Manufacturing Support Schedule (IMSS)” continues to meet the needs of the entire User(s)/Tenant(s) community and communicate impacts/conflict to the PSSM.
- D. Coordination with the PSSM, UOM, and Functional Leads (i.e., IT, Security, Export Control, Facilities) to ensure requirements are implemented and provide timely communication/resolution of issues/problems.
- E. Coordination of requirements changes and the work the plan/schedule (IMSS) to accommodate those changes.

Production Support Systems Manager (PSSM) - The PSSM is responsible for working with User(s)/Tenant(s) to understand their requirements. The PSSM helps guide User(s)/Tenant(s) through the MAF capabilities, rules, and serves as a single point of contact. Responsibilities include coordination between User(s)/Tenant(s) and other MAF organizations to achieve User(s)/Tenant(s) requirements development, management, and implementation. PSSM responsibilities include:

- A. Coordination with assigned User(s)/Tenant(s) to provide support at design and integration reviews to ensure communication of customer requirements.
- B. Coordination with User(s)/Tenant(s) to collect, analyze, and monitor the requirements throughout the review process.
- C. Coordination with MAF organizations to ensure that User(s)/Tenant(s) requirements can be accommodated.
- D. Coordination of requirements changes and work the plan/planning to accommodate those changes.
- E. Coordination and resolution between organizations requesting the same resources.

Contract NNM09AA20C

- F. Conducting daily/weekly informal and formal communication/meetings, as necessary to ensure User(s)/Tenant(s) requirements are met and issues are addressed.
- G. Coordination with other PSSMs to ensure that the IMSS continues to meet the needs of the entire User(s)/Tenant(s) community.
- H. Coordination with User(s)/Tenant(s) to ensure requirements are implemented and timely communication/resolution of issues/problems occurs.

Production Work Authorization – Authority used to verify access to External Tank critical production areas.

Program Critical Hardware (PCH) – Those items that meet one or more of the criteria listed below:

- A. Flight hardware items that support the critical path in the program schedule and the loss, damage, or delay of which could impact program schedules.
- B. Flight hardware assemblies with close tolerance or delicate construction, which could be damaged by improper handling, and such resulting damage could compromise a flight vehicle, payload, or safety of personnel.

Programmed Maintenance (PGM) – see Maintenance Definitions.

Program Year-

Project - Within a program, an undertaking with a scheduled beginning and ending that normally involves one of the following primary purposes: (1) the design, development, and demonstration of major advanced hardware items; (2) the design, construction, and operation of a new launch vehicle (and associated ground support) during its research and development phase; and (3) the construction and operation of one or more aeronautical or space vehicles and the necessary ground support in order to accomplish a scientific or technical objective.

Real Property - Land, buildings, structures, utility systems, and improvements and appurtenances thereto permanently annexed to land. Also includes collateral equipment (i.e., building-type equipment, built-in equipment and large substantially affixed equipment).

Records – All documentary materials, regardless of physical form or characteristics, made or received by an agency of the United States Government under Federal law or in connection with the transaction of public business and preserved or appropriate for preservation by that agency or its legitimate successor as evidence of organization, functions, policies, decisions, procedures, operations or other activities of the Government or because of the informational value of data in them.

Recurring Maintenance – see Maintenance Definitions.

Rehabilitation – Is the restoration or overhaul to a reasonably efficient operating condition of a part or all of a facility which has deteriorated due to wear, tear, and use. It improves the general condition of buildings, structures, or systems, rather than specific fixtures, equipment, or repair items. Original configuration is not altered.

Rehabilitation and Modification - That facility work required to restore and enhance, alter, or adjust a facility or component thereof, including collateral equipment, to such a condition that it may be more effectively used for its presently designated purpose or to increase its functional capability. For simplification in facility project titles, work may be properly identified as rehabilitation provided the primary reason for accomplishment is that the basic restoration work must be done in any event. It is deemed prudent to accomplish any related enhancement, alteration, or adjustment work at the same time. If the pressing requirement is for the alteration and adjustment work to achieve an increase in functional capability, then this may be simply classified as "Modification" even though restoration is also involved.

Reimbursements - Amounts collected or to be collected for commodities, work, or services furnished or to be furnished to another appropriation or fund or to an individual, firm, or corporation that by law may be credited to an appropriation or fund account. Amounts to be collected include accounts receivable, reimbursements earned but not billed, and amounts anticipated for the remainder of the year. They may also include interagency orders accepted and on hand for which delivery has not been made, to the extent that the order is a valid obligation of the ordering agency and the collection will be credited to the appropriation being reported.

Reliability Centered Maintenance (RCM) – see Maintenance Definitions.

Repair – see Maintenance Definitions.

Replacement of Obsolete Items (ROI) – see Maintenance Definitions.

Risk – The combination of the probability that a program or project may experience an undesired event and the consequences, impact, or severity of the undesired event, were it to occur. Both the probability and consequences may have associated uncertainties. Some examples of undesired events include a cost overrun, schedule slippage, safety mishap, health problem, malicious activities, environmental impact, failure to achieve a needed scientific or technological breakthrough, or mission success criteria.

Risk Assessment - An engineering and operational analysis which identifies risks, failure modes and potential hazards. The evaluation of a risk item that determines: (1) what can go wrong, (2) how likely is it to occur, and (3) what the consequences are.

Root Cause - A fundamental deficiency that results in a nonconformance and must be corrected to prevent recurrence of the same or a similar nonconformance.

Root-Cause Failure Analysis (RCFA) - The process of exploring, in increasing detail, all possible causes related to a machine failure. Failure causes are grouped into general

categories for further analysis. For example, causes can be related to machinery, people, methods, materials, policies, environment, and measurements.

Rough Order Of Magnitude (ROM) - An estimate to accomplish a configuration change or a project or task(s) based on minimal available data.

Run-To-Failure (RTF) - A maintenance approach where no action is taken (time or cycle based actions), following installation, to prevent failure. Candidate systems or machines for run-to-failure are usually low cost, easily repaired, and non-critical.

SATERN – NASA-wide, web-based system used for employee training. The SATERN database will maintain a record of employee training.

Specifications – As it relates to facilities; a document that stipulates methods, materials, performance, testing, limitations, or other criteria that must be adhered to during the construction of a facility.

Standard Operating Procedure (SOP) - This is a standing procedure that provides step by-step instructions to operate systems. It is used for activities that commonly occur.

Structures - A structure is a constructed unit established for a designated objective. Structures that are part of or inside a facility are included with the facility. Structures are generally described as:

- A. Allowing pedestrian and vehicular transportation. Includes roads and parking areas or gravel surfaces, curbs, shoulders, guard rails, medians, wheel stops, walkways, bridges, sidewalks, and associated hardware.
- B. Preventing access and maintaining privacy. Includes fences, gates, barbed wire, grounding systems, planters, bollards, chains, and associated hardware and attachments.
- C. Retaining or directing natural elements. Includes culverts, drainage systems, gravity storm water systems, retaining wall, bulkheads, landscaped borders, head walls, rip rapped areas, retention/detention ponds, spillways, canals, navigational lock, catch basins, and oil/water separators.
- D. Providing information. Includes signs, pavement markings, flag poles, displays, historical markers, monuments, and associated equipment.
- E. Other - Boat ramps, docks, landfill, and associated equipment.

Sustaining Engineering (SE) – Engineering support for assigned facilities, systems, equipment, and utilities that optimizes availability and costs in meeting both existing and changing mission needs of MAF users. Engineering support ensures that assigned facilities, systems, equipment, and utilities fulfill the original design intent and is compatible with the OEM intended and/or current use. Sustaining Engineering includes

facility planning, construction project management, configuration control, engineering support, and cost estimating.

Test Equipment (Or Measuring Devices) - Gauges; instruments; tools; fixtures; transducers; and measuring, monitoring, analysis, and diagnostic equipment used to measure static or transient phenomena to determine the characteristics or conformance to specifications of an article, material, system, process, or environment.

Technical Excellence - Strong foundational competencies in technical leadership, planning, and execution which are institutionalized across a company or contract. Values, norms, and practices are geared to achieving goals, while maintaining a strong safety focus. Capability is centered on the development, implementation, and dissemination of industry "best practices" and lessons learned within the technical community at large.

Trouble Calls – see Maintenance Definitions.

Unit Operation Manager (UOM) –An individual responsible for all activities taking place in a specific area or building and its operational readiness. UOM area(s) can consist of a single cell, multiple cells, or an entire building. UOMs support the PSLE and/or PSSM in evaluation of new and/or changing requirements. UOMs ensure the day-to-day support needed for efficient operations, including:

- A. Cell preparedness (configuration control; facility operational readiness; shared CNC machine software verification/validation, etc.).
- B. MAF functional/institutional support is available when required.
- C. Cell(s)/Building utilization schedule and execution.
- D. Issue identification to PSLE/PSSM.
- E. Meeting support and schedule input as required.

Uninterruptible Power Supply (UPS) - A system designed to provide temporary redundancy upon loss of power, so that an orderly shut down may be accomplished without loss of data.

User(s)/Tenant(s) – Refers to a NASA Program/Project or related entity other government agencies and/or non-profit organizations or any other entity that maintains a permanent presence at MAF.

Utilities - Consist of Electrical Systems (power, lighting, heating), Communications System, Potable Water System, Industrial Waste Water System, Sanitary Sewage System, Steam Systems, Chilled/Cooling Water Systems, Compressed Air Systems, Gaseous Nitrogen System, and Natural Gas Systems.

Utility System - System for collecting or distributing services between a common point and specific locations both above and below ground.

Contract NNM09AA20C

Work Breakdown Structure - A product or service-oriented hierarchical division of the hardware, software, services, and data required to produce the program's/projects end product or service, structured according to the way the work will be performed, and reflective of the way in which program/project costs, schedule, technical and risk data are to be accumulated, summarized and reported.

Work Control Center (WCC) - The central organizational point for receipt, tracking, reporting, and management of work generated from all sources.

Work Order - The document allocating resources to perform certain items of maintenance or other work. It includes the specific maintenance task requirements (usually by craft), labor, material, and equipment estimates; coordinating instructions; administrative and financial information.

Work Request - A written or oral request from a customer or internal maintenance person who has observed a deficiency and perceives a need for maintenance or repair work or who has a request for new work. The work request is evaluated by management and, if approved, converted into a work order for accomplishment.

Work Year Equivalents (WYE) - Computed by dividing the total hours compensated (includes regular hours, annual leave, sick leave, compensatory time used, and overtime, and excludes leave without pay).

Maintenance Definitions

Corrective Maintenance (CM) - Maintenance tasks performed to rectify unsatisfactory conditions or failures. Corrective maintenance may be planned or unplanned and done on a case-by-case basis when a system or equipment failure is detected. Corrective action is oriented to restoring system or equipment operation quickly and to a condition substantially equivalent to its originally intended and designed capacity, efficiency, or capability. It includes the substantially equivalent replacements of utility systems and collateral equipment necessitated by incipient or actual breakdown. Corrective maintenance can be initiated as a result of a checkouts, inspections, analysis, engineering rationale or trouble call.

Emergency Repair - The restoration of existing facilities or the components thereof, when such facilities or components have been made inoperative by major breakdown, accident, or other circumstances that could not be anticipated in normal operations and the repair thereof is of such urgency that it cannot await programming and accomplishment in the normal budget cycle. In the process of emergency repair, the replacement of components or materials will be of the size or character currently required to meet firm demands or needs.

Facilities Maintenance - The recurring day-to-day work required to preserve facilities (buildings, structures, grounds, utility systems, and collateral equipment) in such a condition that they may be used for their designated purpose over an intended service life. Maintenance minimizes or corrects wear and tear and thereby forestalls major repairs. Facilities maintenance includes Preventative Maintenance, Predictive Testing & Inspection, Grounds Care, Programmed Maintenance, repair, Trouble Calls, Replacement of Obsolete Items, and Service Request (Not a maintenance item but work performed by maintenance organizations). Facilities Maintenance includes the cost of labor, materials, and parts but does not include new work.

Facilities Maintenance Management - The planning, prioritizing, organizing, controlling, reporting, evaluating, and adjusting of facilities maintenance operations to support NASA activities with quality facilities based upon customers' facility needs and predetermined maintenance goals at minimum cost.

Maintainability – Is a measure of the ability of an item to be retained in, or restored to, a specified condition when the maintenance is performed by personnel having specified skill levels, using prescribed procedures and resources, at each prescribed level of maintenance and repair. It is a characteristic of design that permits hardware to be serviced, inspected, and repaired with a minimum expenditure of maintenance resources.

Maintenance – The recurring day-to-day, periodic, scheduled or unscheduled work required to preserve or restore a piece of equipment, a system, or utility to such a condition that it can be effectively utilized for its intended purpose, output, redundancy, and availability. The term includes work undertaken to prevent damage to a facility that otherwise would be more costly to restore.

Contract NNM09AA20C

Maintenance Project - A non-CoF project (<\$500K) which is approved and funded for a fiscal year as a result of the comprehensive inspection process.

Planned Repair - Repair performed prior to failure. Machinery condition degradation, usually identified through Preventive Maintenance (PM), Predictive Testing and Inspection (PT&I), or other inspection, is repaired to prevent catastrophic failure. Also see Repair.

Predictive Maintenance (PdM) - Condition-based tasks which measure equipment performance or material condition against a pre-determined standard to assess whether conditions are satisfactory or corrective maintenance is required. Task results can be used to develop data to predict future unsatisfactory conditions or failures.

Preventive Maintenance (PM) - Also called time-based maintenance or interval-based maintenance. PM is the planned, scheduled periodic inspection (including safety), adjustment, cleaning, lubrication, parts replacement, and minor (no larger than Trouble Call scope) repair of equipment and systems for which a specific operator is not assigned. PM consists of many checkpoint activities on items that, if disabled, would interfere with an essential operation, endanger life or property, or involve high cost or long lead time for replacement. In a shift away from reactive maintenance, PM schedules periodic inspection and maintenance at predefined time or usage intervals in an attempt to reduce equipment failures.

Proactive Maintenance - The collection of efforts to identify, monitor and control future failure with an emphasis on the understanding and elimination of the cause of failure. Proactive maintenance activities include the development of design specifications to incorporate maintenance lessons learned and to ensure future maintainability and supportability, the development of repair specifications to eliminate underlying causes of failure, and performing Root Cause Failure Analysis (RCFA) to understand why in-service systems failed.

Programmed Maintenance (PGM) - Those maintenance tasks whose cycle exceeds one year, such as painting a building every fifth year. (This category is different from PM in that if a planned cycle is missed the original planned work still remains to be accomplished, whereas in PM only the next planned cycle is accomplished instead of doing the work twice, such as two lubrications, two adjustments, or two inspections.)

Recurring Maintenance - Maintenance performed on an item of equipment that is planned and performed on a set work schedule. The work and work schedules are based upon established standards.

Reliability Centered Maintenance (RCM) - The process used to determine the most effective approach to maintenance. A maintenance philosophy utilizing the most effective mix of corrective, preventive, predictive, and alternative maintenance tasks for a given system or equipment item based on intended function, failure analysis, and consequences of failures. The underlying principle of RCM is that maintenance tasks should result in real benefits of improved safety, improved operational availability, or reduced life-cycle costs. It involves identifying actions that, when taken, will reduce the probability of failure and which are the most cost

Contract NNM09AA20C

effective. It seeks the optimal mix of Condition-Based Actions, other Time- or Cycle-Based actions, or a Run-to-Failure approach. (see also Condition-Based Maintenance, Predictive Testing & Inspection.)

Repair – Repair is the restoration of a piece of equipment, a system, or a real property facility to such a condition that it may be effectively utilized for its designated purposes. Repair may be overhaul, reprocessing, or replacement of constituent parts or materials that have deteriorated by action of the elements or usage and have not been corrected through maintenance, or replacement cost of the entire unit or system is beyond economical repair.

Replacement of Obsolete Items (ROI) - There are many components of a facility that should be programmed for replacement as a result of becoming obsolescent (no longer parts-supportable), not meeting electrical or building codes, or being unsafe; the systems, however, are still operational and would not be construed as a repair. Examples: a. Electric switchgear, breakers, and motor starters, b. Elevators, c. Control systems, d. Boiler and central HVAC systems and controls, e. Fire detection systems, f. Cranes and hoists, g. A/C systems using CFC refrigerants.

Trouble Calls - Trouble Calls are generally called in by telephone or submitted electronically by occupants of a facility (or facility managers or maintenance workers). This category is composed of two types of work.

- A. Routine calls are minor facility problems that are too small to be estimated (usually less than about 20 work hours or \$2,000) and generally are responded to by grouping Trouble Calls by craft and location.
- B. Emergency calls, which normally start as a Trouble Call, require immediate action to eliminate hazards to personnel or equipment, to prevent loss of, or damage to Center property; or to restore essential services that have been disrupted. Emergency work is usually a response-type work effort, often initially worked by Trouble Call technicians. Due to its nature, emergency work is not restricted to a level of effort such as Trouble Calls.

WELDERS - Receive rate prescribed for craft performing
operation to which welding is incidental.

=====
Unlisted classifications needed for work not included within
the scope of the classifications listed may be added after
award only as provided in the labor standards contract clauses
(29CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates
listed under the identifier do not reflect collectively
bargained wage and fringe benefit rates. Other designations
indicate unions whose rates have been determined to be
prevailing.

Contract NNM09AA20C

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$3.24 per hour or \$129.60 per week or \$561.60 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 8 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE PARENTHESES AFTER THEM RECEIVE THE FOLLOWING BENEFITS (as numbered):

- 1) Does not apply to employees employed in a bona fide executive, administrative, or professional capacity as defined and delineated in 29 CFR 541. (See CFR 4.156)
- 2) **APPLICABLE TO AIR TRAFFIC CONTROLLERS ONLY - NIGHT DIFFERENTIAL:** An employee is entitled to pay for all work performed between the hours of 6:00 P.M. and 6:00 A.M. at the rate of basic pay plus a night pay differential amounting to 10 percent of the rate of basic pay.
- 3) **AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY:** If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regarding and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the

Contract NNM09AA20C

employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition.

NOTE: These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A link to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

Contract NNM09AA20C

- 1) When preparing the bid, the contractor identifies the need for a (conformed occupation) and computes a proposed rate).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title), a Federal grade equivalency (FGE) for each proposed classification), job description), and rationale for proposed wage rate), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

K 1.0 FAR 52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The Offeror is cautioned that the listed provisions may include blocks that must be completed by the Offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the Offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at these addresses:

<http://www.arnet.gov/far/>

<http://www.hq.nasa.gov/office/procurement/regs/nfstoc.htm>

A. FEDERAL ACQUISITION REGULATION (FAR) (48 CFR CHAPTER 1)

PROVISION

<u>NUMBER</u>	<u>DATE</u>	<u>TITLE</u>
52.203-11	SEP 2005	CERTIFICATION AND DISCLOSURE REGARDING PAYMENTS TO INFLUENCE CERTAIN FEDERAL TRANSACTIONS
52.222-21 FACILITIES	FEB 1999	CERTIFICATION OF NONSEGREGATED
52.222-38 REQUIREMENTS	DEC 2001	COMPLIANCE WITH VETERAN'S EMPLOYMENT
52.223-4	OCT 1997	RECOVERED MATERIAL CERTIFICATION

B. NASA FAR SUPPLEMENT (NFS) (48 CFR CHAPTER 18)

<u>CLAUSE NUMBER</u>	<u>DATE</u>	<u>TITLE</u>
--------------------------	-------------	--------------

N/A

K 2.0 FAR 52.204-3 TAXPAYER IDENTIFICATION (OCT 1998)

A. Definitions.

"Common parent," as used in this solicitation provision, means that corporate entity that owns or controls an affiliated group of corporations that files its Federal income tax returns on a consolidated basis, and of which the Offeror is a member.

"Corporate status," as used in this solicitation provision, means a designation as to whether the Offeror is a corporate entity, an unincorporated entity (e.g., sole proprietorship or partnership), or a corporation providing medical and health care services.

"Taxpayer Identification Number (TIN)," as used in this solicitation provision, means the number required by the Internal Revenue Service to be used by the Offeror in reporting income tax and other returns.

- B.** All Offerors are required to submit the information required in paragraphs C. through E. of this solicitation provision in order to comply with reporting requirements of 26 U.S.C. 6041, 6041A, and 6050M and implementing regulations issued by the Internal Revenue Service. If the resulting contract is subject to the reporting requirements described in 4.903, the failure or refusal by the Offeror to furnish the information may result in a 31 percent reduction of payments otherwise due under the contract.

C. Taxpayer Identification Number (TIN).

☒ TIN: 62-0510412

☐ TIN has been applied for.

☐ TIN is not required because:

☐ Offeror is a nonresident alien, foreign corporation, or foreign partnership that does not have income effectively connected with the conduct of a trade or business in the U.S. and does not have an office or place of business or a fiscal paying agent in the U.S.;

☐ Offeror is an agency or instrumentality of a foreign Government;

☐ Offeror is an agency or instrumentality of a state or local Government;

☐ Other State basis. _____

D. Corporate Status.

☐ Corporation providing medical and health care services, or engaged in the billing and collecting of payments for such services;

☐ Other corporate entity;

☐ Not a corporate entity;

☐ Sole proprietorship;

☐ Partnership;

☐ Hospital or extended care facility described in 26 CFR 501 (c)(3) that is exempt from taxation under 26 CFR 501(a).

E. Common Parent.

☐ Offeror is not owned or controlled by a common parent as defined in paragraph (a) of this clause. ☒ Name and TIN of common parent:

Name Jacobs Engineering Group, Inc.

TIN 95-4081636

K 3.0 FAR 52.204-5 WOMEN-OWNED BUSINESS OTHER THAN SMALL BUSINESS (MAY 1999)

- A. Definition.** "Women-owned business concern," as used in this provision, means a concern that is at least 51 percent owned by one or more women; or in the case of any publicly owned business, at least 51 percent of its stock is owned by one or more women; and whose management and daily business operations are controlled by one or more women.
- B. Representation.** [Complete only if the offeror is a women-owned business concern and has not represented itself as a small business concern in paragraph (b)(1) of FAR 52.219-1, "Small Business Program Representation, of this solicitation."] The Offeror represents that it ☐ is a women-owned business concern.

K 4.0 FAR 52.204-8 ANNUAL REPRESENTATIONS AND CERTIFICATIONS (JAN 2006)

A.

- [3] The North American Industry classification System (NAICS) code for this acquisition is 561210 [insert NAICS code].
- [4] The small business size standard is \$32.0M [insert size standard].
- [5] The small business size standard for a concern which submits an offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is 500 employees.

B.

- [1] If the clause at 52.204-7, "Central Contractor Registration", is included in this solicitation, paragraph (c) of this provision applies.
- [2] If the clause at 52.204-7 is not included in this solicitation, and the Offeror is currently registered in CCR, and has completed the ORCA electronically, the Offeror may choose to use paragraph (c) of this provision instead of completing the corresponding individual representations and certification in the solicitation. The Offeror shall indicate which option applies by checking one of the following boxes:
- [a] ☒ Paragraph (c) applies.
- [b] ☐ Paragraph (c) does not apply and the Offeror has completed the individual representations and certifications in the solicitation.

- C. The Offeror has completed the annual representations and certifications electronically via the Online Representations and Certifications Application (ORCA) website at <http://orca.bpn.gov>. After reviewing the ORCA database information, the Offeror verifies by submission of the offer that the representations and certifications currently posted electronically have been entered or updated within the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to the NAICS code referenced for this solicitation), as of the date of this offer and are incorporated in this offer by reference (see FAR 4.1201); except for the changes identified below [offeror to insert changes, identifying change by clause number, title, date]. These amended representation(s) and/or certification(s) are also incorporated in this offer and are current, accurate, and complete as of the date of this offer.

FAR Clause	Title	Date	Change
52.209-5	Certification Regarding Debarment, Suspension, Proposed Debarment, And Other Responsibility Matters	Dec 2001	[ii] Have [X see note ¹] have not [], within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, or receiving stolen property; and
52.230.1	Cost Accounting Standards Notices and Certification	June 2000	[3] Check the appropriate box below: [a] [X] <i>Certificate of Concurrent Submission of Disclosure Statement.</i> The Offeror hereby certifies that, as a part of the offer, copies of the Disclosure Statement have been submitted as follows: [i] Original and one copy to the cognizant Administrative Contracting Officer (ACO) or cognizant Federal agency official authorized to act in that capacity (Federal official), as applicable; and

Contract NNM09AA20C

			[ii] One copy to the cognizant Federal auditor. (Disclosure must be on Form No. CASB DS-1 or CASB DS-2, as applicable. Forms may be obtained from the cognizant ACO or Federal official and/or from the loose-leaf version of the Federal Acquisition Regulation.) Date of Disclosure Statement: <u>07/29/08</u> Name and Address of Cognizant ACO or Federal Official Where Filed: <u>Mr. Joe D. Warren, AEDC/PKM, 100 Kindel Dr., Suite A337, Arnold AFB, TN 37389-1337</u> C. Additional Cost Accounting Standards Applicable to Existing Contracts The Offeror shall indicate below whether award of the contemplated contract would, in accordance with subparagraph (a)(3) of the Cost Accounting Standards clause, require a change in established cost accounting practices affecting existing contracts and subcontracts. [] yes [X] no
52.230.7	Proposal Disclosure – Cost Accounting Practice Changes	Apr 2005	The Offeror shall check “yes” below if the contract award will result in a required or unilateral change in cost accounting practice, including unilateral changes requested to be desirable changes. [] Yes [X] No

Note 1 - In 2006 the City of Larkspur, California filed suit against Sverdrup Civil, Inc., and others relating to a 1994 contract for earthquake retrofit work and other services performed by Sverdrup Civil in connection with a bridge in Northern California. The City alleged that Sverdrup Civil's design was deficient and that Sverdrup Civil had a duty to disclose all material facts related to the quality of its work and all potential issues which could or would flow from that work. The project was completed in 1995, well in advance of Jacobs Engineering Group Inc.'s acquisition of Sverdrup Civil in 1999. Based on Jacobs' ownership of Sverdrup Civil, n/k/a Jacobs Civil, Jacobs Engineering Group Inc. was included as a defendant in the suit. The City's claim for negligent design was withdrawn. The remaining claims went to trial in August 2008. On September 18, 2008 the jury found that there was no fraud. However, the jury did find that Sverdrup had intentionally concealed or made a false promise with intent to deceive about an important fact upon which the City had relied and Jacobs was therefore liable to the City for damages of \$8.3 million as successor in interest. Jacobs disagrees with this finding and is preparing various post-trial motions and an appeal.

Any changes provided by the Offeror are applicable to this solicitation only, and do not result in an update to the representations and certifications posted on ORCA.

K 5.0 FAR 52.209-5 CERTIFICATION REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS (DEC 2001)

A.

[1] The Offeror certifies, to the best of its knowledge and belief, that --

[a] The Offeror and/or any of its Principals --

[i] Are ☐ are not ☐ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

[ii] Have ☐ have not ☐, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, or receiving stolen property; and

[iii] Are ☐ are not ☐ presently indicted for, or otherwise criminally or civilly charged by a Governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision.

[b] The Offeror has ☐ has not ☐, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

[2] "Principals," for the purposes of this certification, means officers; directors; owners; partners; and, persons having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division, or business segment, and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

B. The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

C. A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional

information as requested by the Contracting Officer may render the Offeror non-responsible.

- D. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- E. The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

K 6.0 FAR 52.219-1 SMALL BUSINESS PROGRAM REPRESENTATIONS (ALTERNATE I) (ARP 2002)

A.

- [1] The North American Industry Classification System (NAICS) code for this acquisition is 561210 *[insert NAICS code]*.
- [2] The small business size standard is \$32.0M *[insert size standard]*.
- [3] The small business size standard for a concern which submits an offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is 500 employees.

B. Representations.

- [1] The Offeror represents as part of its offer that it ☐ is, ☐ is not a small business concern.
- [2] *[Complete only if the offeror represented itself as a small business concern in paragraph (b)(1) of this provision.]* The Offeror represents, for general statistical purposes, that it ☐ is, ☐ is not, a small disadvantaged business concern as defined in 13 CFR 124.1002.
- [3] *[Complete only if the offeror represented itself as a small business concern in paragraph (b)(1) of this provision.]* The Offeror represents as part of its offer that it ☐ is, ☐ is not a women-owned small business concern.
- [4] *[Complete only if the offeror represented itself as a small business concern in paragraph (b)(1) of this provision.]* The offeror represents as part of its offer that it ☐ is, ☐ is not a veteran-owned small business concern.
- [5] *[Complete only if the offeror represented itself as a veteran-owned small business concern in paragraph (b)(4) of this provision.]* The Offeror represents as part of its offer that is ☐ is, ☐ is not a service-disabled veteran-owned small business concern.
- [6] *[Complete only if the offeror represented itself as a small business concern in paragraph (b)(1) of this provision.]* The Offeror represents, as part of its offer, that –
 - [a] It ☐ is, ☐ is not a HUBZone small business concern listed, on the date of this representation, on the List of Qualified HUBZone Small Business

Concerns maintained by the Small Business Administration, and no material change in ownership and control, principal office, or HUBZone employee percentage has occurred since it was certified by the Small Business Administration in accordance with 13 CFR part 126; and

- [b] It [] is, [] is not a joint venture that complies with the requirements of 13 CFR part 126, and the representation in paragraph (b)(6)(i) of this provision is accurate of the HUBZone small business concern or concerns that are participating in the joint venture. [*The offeror shall enter the name or names of the HUBZone small business concern or concerns that are participating in the joint venture: _____.*] Each HUBZone small business concern participating in the joint venture shall submit a separate signed copy of the HUBZone representation.
- [7] [Complete if offeror represented itself as disadvantaged in paragraph (b)(2) of this provision.] The Offeror shall check the category in which its ownership falls:
- ___ Black American.
 - ___ Hispanic American.
 - ___ Native American (American Indians, Eskimos, Aleuts, or Native Hawaiians).
 - ___ Asian-Pacific American (persons with origins from Burma, Thailand, Malaysia, Indonesia, Singapore, Brunei, Japan, China, Taiwan, Laos, Cambodia (Kampuchea), Vietnam, Korea, The Philippines, U.S. Trust Territory of the Pacific Islands (Republic of Palau), Republic of the Marshall Islands, Federated States of Micronesia, the Commonwealth of the Northern Mariana Islands, Guam, Samoa, Macao, Hong Kong, Fiji, Tonga, Kiribati, Tuvalu, or Nauru).
 - ___ Subcontinent Asian (Asian-Indian) American (persons with origins from India, Pakistan, Bangladesh, Sri Lanka, Bhutan, the Maldives Islands, or Nepal).
 - ___ Individual/concern, other than one of the preceding.

C. Definitions. As used in this provision--

- [1] "Service-disabled veteran-owned small business concern"—
- [a] Means a small business concern—
 - [b] Not less than 51 percent of which is owned by one or more service-disabled veterans or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more service-disabled veterans; and
 - [c] The management and daily business operations of which are controlled by one or more service-disabled veterans or, in the case of a service-disabled veteran with permanent and severe disability, the spouse or permanent caregiver of such veteran.
- [2] Service-disabled veteran means a veteran, as defined in 38 U.S.C. 101(2), with a disability that is service-connected, as defined in 38 U.S.C. 101(16).

- [3] "Small business concern," means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR Part 121 and the size standard in paragraph (a) of this provision.
- [4] "Veteran-owned small business concern" means a small business concern—
 - [a] Not less than 51 percent of which is owned by one or more veterans (as defined at 38 U.S.C. 101(2)) or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more veterans; and
 - [b] The management and daily business operations of which are controlled by one or more veterans.
- [5] "Women-owned small business concern," means a small business concern --
 - [a] That is at least 51 percent owned by one or more women; or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more women; and
 - [b] Whose management and daily business operations are controlled by one or more women.

D. Notice.

- [1] If this solicitation is for supplies and has been set aside, in whole or in part, for small business concerns, then the clause in this solicitation providing notice of the set-aside contains restrictions on the source of the end items to be furnished.
- [2] Under 15 U.S.C. 645(d), any person who misrepresents a firm's status as a small, HUBZone small, small disadvantaged, or women-owned small business concern in order to obtain a contract to be awarded under the preference programs established pursuant to section 8(a), 8(d), 9, or 15 of the Small Business Act or any other provision of Federal law that specifically references section 8(d) for a definition of program eligibility, shall --
 - [a] Be punished by imposition of fine, imprisonment, or both;
 - [b] Be subject to administrative remedies, including suspension and debarment; and
 - [c] Be ineligible for participation in programs conducted under the authority of the Act.

K 7.0 FAR 52.222-22 PREVIOUS CONTRACTS AND COMPLIANCE REPORTS (FEB 1999)

The Offeror represents that –

- [a] It [] has, [] has not participated in a previous contract or subcontract subject to the Equal Opportunity clause of this solicitation;
- [b] It [] has, [] has not filed all required compliance reports; and

- [c] Representations indicating submission of required compliance reports, signed by proposed subcontractors, will be obtained before subcontract awards.

K 8.0 FAR 52.222-25 AFFIRMATIVE ACTION COMPLIANCE (APR 1984)

The Offeror represents that--

- [a] It ☐ has developed and has on file, ☐ has not developed and does not have on file, at each establishment, affirmative action programs required by the rules and regulations of the Secretary of Labor (41 CFR 60-1 and 60-2), or
- [b] It ☐ has not previously had contracts subject to the written affirmative action programs requirement of the rules and regulations of the Secretary of Labor.

K 9.0 FAR 52.223-13 CERTIFICATION OF TOXIC CHEMICAL RELEASE REPORTING (AUG 2003)

- A. Executive Order 13148, of April 21, 2000, Greening the Government through Leadership in Environmental Management, requires submission of this certification as a prerequisite for contract award.

- B. By signing this offer, the Offeror certifies that --

- [1] As the owner or operator of facilities that will be used in the performance of this contract that are subject to the filing and reporting requirements described in section 313 of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA) (42 U.S.C. 11023) and section 6607 of the Pollution Prevention Act of 1990 (PPA) (42 U.S.C. 13106), the Offeror will file and continue to file for such facilities for the life of the contract the Toxic Chemical Release Inventory Form (Form R) as described in sections 313(a) and (g) of EPCRA and section 6607 of PPA; or
- [2] None of its owned or operated facilities to be used in the performance of this contract is subject to the Form R filing and reporting requirements because each such facility is exempt for at least one of the following reasons: *[Check each block that is applicable.]*
 - [a] ☐ The facility does not manufacture, process, or otherwise use any toxic chemicals listed in 40 CFR 372.65;
 - [b] ☐ The facility does not have 10 or more full-time employees as specified in section 313(b)(1)(A) of EPCRA, 42 U.S.C. 11023(b)(1)(A);
 - [c] ☐ The facility does not meet the reporting thresholds of toxic chemicals established under section 313(f) of EPCRA, 42 U.S.C. 11023(f) (including the alternate thresholds at 40 CFR 372.27, provided an appropriate certification form has been filed with EPA);
 - [d] ☐ The facility does not fall within the following Standard Industrial Classification (SIC) codes or their corresponding North American Industry Classification System sectors:
 - [i] Major group code 10 (except 1011, 1081, and 1094).

Contract NNM09AA20C

- [ii] Major group code 12 (except 1241).
 - [iii] Major group codes 20 through 39.
 - [iv] Industry code 4911, 4931, 4939 (limited to facilities that combust coal and/or oil for the purpose of generating power for distribution in commerce).
 - [v] Industry code 4953 (limited to facilities regulated under the Resource Conservation and Recovery Act, Subtitle C (42 U.S.C. 6921, *et seq.*)), or 5169, 5171, 7389 (limited to facilities primarily engaged in solvent recovery services on a contract or fee basis); or
- [e] [] (v) The facility is not located within any State of the United States or its outlying areas.

K 10.0 FAR 52.225-2 BUY AMERICAN ACT CERTIFICATE (JUN 2003)

- A. The Offeror certifies that each end product, except those listed in paragraph (b) of this provision, is a domestic end product and that the Offeror has considered components of unknown origin to have been mined, produced, or manufactured outside the United States. The Offeror shall list as foreign end products those end products manufactured in the United States that do not qualify as domestic end products. The terms "component," "domestic end product," "end product," "foreign end product," and "United States" are defined in the clause of this solicitation entitled "Buy American Act—Supplies."

- B. Foreign End Products:

Line Item No.:	Country of Origin:

[List as necessary]

- C. The Government will evaluate offers in accordance with the policies and procedures of Part 25 of the Federal Acquisition Regulation.

K 11.0 FAR 52.227-15 REPRESENTATION OF LIMITED RIGHTS DATA AND RESTRICTED COMPUTER SOFTWARE (MAY 1999)

- A. This solicitation sets forth the work to be performed if a contract award results, and the Government's known delivery requirements for data (as defined in FAR 27.401). Any resulting contract may also provide the Government the option to order additional data

Contract NNM09AA20C

under the Additional Data Requirements clause at 52.227-16 of the FAR, if included in the contract. Any data delivered under the resulting contract will be subject to the Rights in Data -- General clause at 52.227-14 that is to be included in this contract. Under the latter clause, a Contractor may withhold from delivery data that qualify as limited rights data or restricted computer software, and deliver form, fit, and function data in lieu thereof. The latter clause also may be used with its Alternates II and/or III to obtain delivery of limited rights data or restricted computer software, marked with limited rights or restricted rights notices, as appropriate. In addition, use of Alternate V with this latter clause provides the Government the right to inspect such data at the Contractor's facility.

B. As an aid in determining the Government's need to include Alternate II or Alternate III in the clause at 52.227-14, "Rights in Data -- General", the offer shall complete paragraph (c) of this provision to either state that none of the data qualify as limited rights data or restricted computer software, or identify, to the extent feasible, which of the data qualifies as limited rights data or restricted computer software. Any identification of limited rights data or restricted computer software in the Offeror's response is not determinative of the status of such data should a contract be awarded to the Offeror.

C. The Offeror has reviewed the requirements for the delivery of data or software and states *[offeror check appropriate block]* --

☐ None of the data proposed for fulfilling such requirements qualifies as limited rights data or restricted computer software.

☐ Data proposed for fulfilling such requirements qualify as limited rights data or restricted computer software and are identified as follows:

Note: "Limited rights data" and "Restricted computer software" are defined in the contract clause entitled "Rights in Data -- General."

K 12.0 FAR 52.230-1 COST ACCOUNTING STANDARDS NOTICES AND CERTIFICATION (JUN 2000)

Note: This notice does not apply to small businesses or foreign Governments. This notice is in three parts, identified by Roman numerals I through III.

Offerors shall examine each part and provide the requested information in order to determine Cost Accounting Standards (CAS) requirements applicable to any resultant contract.

If the Offeror is an educational institution, Part II does not apply unless the contemplated contract will be subject to full or modified CAS coverage pursuant to 48 CFR 9903.201-2(c)(5) or 9903.201-2(c)(6), respectively.

A. Disclosure Statement -- Cost Accounting Practices and Certification

Contract NNM09AA20C

- [1] Any contract in excess of \$500,000 resulting from this solicitation will be subject to the requirements of the Cost Accounting Standards Board (48 CFR Chapter 99), except for those contracts which are exempt as specified in 48 CFR 9903.201-1.
- [2] Any Offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of 48 CFR Chapter 99 must, as a condition of contracting, submit a Disclosure Statement as required by 48 CFR 9903.202. When required, the Disclosure Statement must be submitted as a part of the Offeror's proposal under this solicitation unless the Offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal. If an applicable Disclosure Statement has already been submitted, the Offeror may satisfy the requirement for submission by providing the information requested in paragraph (c) of Part I of this provision.

Caution: In the absence of specific regulations or agreement, a practice disclosed in a Disclosure Statement shall not, by virtue of such disclosure, be deemed to be a proper, approved, or agreed-to practice for pricing proposals or accumulating and reporting contract performance cost data.

- [3] Check the appropriate box below:

[a] ☐ *Certificate of Concurrent Submission of Disclosure Statement.* The Offeror hereby certifies that, as a part of the offer, copies of the Disclosure Statement have been submitted as follows:

- [i] Original and one copy to the cognizant Administrative Contracting Officer (ACO) or cognizant Federal agency official authorized to act in that capacity (Federal official), as applicable; and
- [ii] One copy to the cognizant Federal auditor.

(Disclosure must be on Form No. CASB DS-1 or CASB DS-2, as applicable. Forms may be obtained from the cognizant ACO or Federal official and/or from the loose-leaf version of the Federal Acquisition Regulation.)

Date of Disclosure Statement: _____ Name and Address of Cognizant ACO or Federal Official Where Filed:

The Offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the Disclosure Statement.

[b] ☐ *Certificate of Previously Submitted Disclosure Statement.* The Offeror hereby certifies that the required Disclosure Statement was filed as follows:

Date of Disclosure Statement: _____ Name and Address of Cognizant ACO or Federal Official Where Filed:

The Offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the applicable Disclosure Statement.

[c] ☐ *Certificate of Monetary Exemption.* The Offeror hereby certifies that the Offeror, together with all divisions, subsidiaries, and affiliates under common control, did not receive net awards of negotiated prime contracts and

Contract NNM09AA20C

subcontracts subject to CAS totaling \$50 million or more in the cost accounting period immediately preceding the period in which this proposal was submitted. The Offeror further certifies that if such status changes before an award resulting from this proposal, the Offeror will advise the Contracting Officer immediately.

- [d] ☐ *Certificate of Interim Exemption.* The Offeror hereby certifies that
- [i] the Offeror first exceeded the monetary exemption for disclosure, as defined in (3) of this subsection, in the cost accounting period immediately preceding the period in which this offer was submitted and
 - [ii] in accordance with 48 CFR 9903.202-1, the Offeror is not yet required to submit a Disclosure Statement. The Offeror further certifies that if an award resulting from this proposal has not been made within 90 days after the end of that period, the Offeror will immediately submit a revised certificate to the Contracting Officer, in the form specified under subparagraph (c)(1) or (c)(2) of Part I of this provision, as appropriate, to verify submission of a completed Disclosure Statement.

Caution: Offerors currently required to disclose because they were awarded a CAS-covered prime contract or subcontract of \$50 million or more in the current cost accounting period may not claim this exemption (4). Further, the exemption applies only in connection with proposals submitted before expiration of the 90-day period following the cost accounting period in which the monetary exemption was exceeded.

B. Cost Accounting Standards -- Eligibility for Modified Contract Coverage

If the Offeror is eligible to use the modified provisions of 48 CFR 9903.201-2(b) and elects to do so, the Offeror shall indicate by checking the box below. Checking the box below shall mean that the resultant contract is subject to the Disclosure and Consistency of Cost Accounting Practices clause in lieu of the Cost Accounting Standards clause.

☐ The Offeror hereby claims an exemption from the Cost Accounting Standards clause under the provisions of 48 CFR 9903.201-2(b) and certifies that the Offeror is eligible for use of the Disclosure and Consistency of Cost Accounting Practices clause because during the cost accounting period immediately preceding the period in which this proposal was submitted, the Offeror received less than \$50 million in awards of CAS-covered prime contracts and subcontracts. The Offeror further certifies that if such status changes before an award resulting from this proposal, the Offeror will advise the Contracting Officer immediately.

Caution: An Offeror may not claim the above eligibility for modified contract coverage if this proposal is expected to result in the award of a CAS-covered contract of \$50 million or more or if, during its current cost accounting period, the Offeror has been awarded a single CAS-covered prime contract or subcontract of \$50 million or more.

C. Additional Cost Accounting Standards Applicable to Existing Contracts

Contract NNM09AA20C

The Offeror shall indicate below whether award of the contemplated contract would, in accordance with subparagraph (a)(3) of the Cost Accounting Standards clause, require a change in established cost accounting practices affecting existing contracts and subcontracts.

☐ yes ☐ no

K 13.0 FAR 52.230-7 PROPOSAL DISCLOSURE – COST ACCOUNTING PRACTICE CHANGES (APR 2005)

The Offeror shall check “yes” below if the contract award will result in a required or unilateral change in cost accounting practice, including unilateral changes requested to be desirable changes.

☐ Yes ☐ No

If the Offeror checked “Yes” above, the Offeror shall--

- A.** Prepare the price proposal in response to the solicitation using the changed practice for the period of performance for which the practice will be used; and
- B.** Submit a description of the changed cost accounting practice to the Contracting Officer and the Cognizant Federal Agency Official as pricing support for the proposal.
