Deputy Program Manager for Operations

SUBJECT: Tracking and Data Relay Satellite System Reimbursable for Fiscal Year 2025

NASA has evaluated the predicted life expectancy of the Tracking and Data Relay Satellite (TDRS) constellation and its impacts to overall services. As of August 8, 2024, NASA has decided to no longer accept new users without an active agreement on the TDRS network to preserve capacity for current users with active agreements and to avoid introducing new risks.

Effective October 1, 2024, the rates for the TDRS System reimbursable support to customers with existing agreements for Fiscal Year 2025 are as follows:

Single Access (SA): \$122.00 per minute

Multiple Access Return (MAR): \$10.00 per minute*

Multiple Access Forward (MAF): \$19.00 per minute*

Commercial Space Launch Act Customer Only (SA): \$34.00 per minute

Commercial Space Launch Act Customer Only (MAR): \$3.00 per minute

Commercial Space Launch Act Customer Only (MAF): \$6.00 per minute

**Rates will be based on actual delivered return/forward service usage.*

The rates are equivalent to the Fiscal Year 2024 rates and will remain in effect until further notice.
