

OFFICE OF SMALL BUSINESS PROGRAMS at Johnson Space Center

NASA's Johnson Space Center (JSC) in Houston, TX, actively engages small businesses through its Office of Small Business Programs (OSBP). The JSC OSBP is dedicated to ensuring that small businesses have ample opportunities to participate in NASA's missions by facilitating their involvement in contracts and projects. The office provides essential resources, training, and guidance to help small businesses navigate the procurement process and align their capabilities with NASA's needs. By promoting innovative solutions and technologies from small enterprises, the JSC OSBP contributes to advancements in human space exploration and technology development while supporting economic growth and job creation within the small business sector.

Johnson Space Center (Houston, TX 77058-3696)

CENTER MISSION

Johnson Space Center's mission statement is to Lead Human Space Exploration. The Center accomplishes this by focusing on four priorities: maximize use of the International Space Station; enable the success of the Commercial Crew Program; develop Orion for future missions; and build the foundation for human missions to Mars. This mission is continual progress toward these four priorities as the Center extends human exploration to the stars.

JSC is the home of Mission Control and astronaut training. In its early days, the Center led the Gemini, Apollo, Apollo-Soyuz, and Skylab projects. JSC was the home of NASA's Space Shuttle Program from 1981 to 2011 and currently leads International Space Station operations and missions, development of the Orion spacecraft, and NASA's Gateway outpost program, as well as numerous other advanced human exploration projects. The Center also plays an important role in NASA's Commercial Crew program.

As the Center has evolved into one of NASA's largest research and development facilities, the greater Houston area has developed into an aerospace hub with an identity of amazing achievements, hard work, and innovation.

DOING BUSINESS WITH JSC

The North American Industry Classification System (NAICS) Codes:

- 332510 – Hardware Manufacturing
- 336419 – Other Guided Missile and Space Vehicles Parts and Auxiliary Equipment Manufacturing
- 481212 – Nonscheduled Chartered Freight Air Transportation
- 541330 – Engineering Services
- 541511 – Custom Computer Programming Services
- 541611 – Administrative Management and General Management Consulting Services
- 541620 – Environmental Consulting Service
- 541715 – Research and Development in the Physical, Engineering, and Life Sciences (Except Biotechnology and Nanotechnology)
- 541990 – All Other Professional, Scientific, and Technical Services
- 561210 – Facilities Support Services
