VISITOR GUIDE

NASA's Glenn Research Center in Cleveland designs and develops innovative technologies to transform aviation, revolutionize space exploration, and inspire new discoveries for the benefit of all.

Glenn's unique, world-class facilities enable NASA, other government agencies, and academic and industry partners to perform specialized aerospace research and testing. As a leading expert in power, propulsion, and communications, Glenn makes major contributions to NASA's aeronautics and spaceflight missions.

NASA's Neil Armstrong Test Facility in Sandusky offers the world's largest and most powerful space environment simulation chambers. Stationed on 6,400 acres, it is also the only place in the world that can test a full-sized spacecraft for all the conditions of spaceflight. The facility has tested everything from the Orion spacecraft and Mars rovers to flight hardware for commercial space companies.

With a highly skilled workforce of more than 3,000 scientists, engineers, technicians, and support personnel, Glenn is integral to the region's economy. The center's economic impact in Ohio exceeds \$2 billion per year and supports nearly 9,000 jobs across the state.

GLENN CENTER LEADERSHIP

James A. Kenyon, Ph.D.,
Center Director

Dawn M. Schaible,
Deputy Center Director

Laurence "Larry" A. Sivic,
Associate Center Director

Duration of Visitor Badges

All official visitors will receive an official visitor pass to access NASA Glenn Research Center for a period not to exceed 29 days in a calendar year.

Citizenship and Identification

An official visitor must be a U.S. citizen or one of the following: lawful permanent resident (LPR), also known as permanent resident alien (PRA) or green card holder; U.S. citizen representing a foreign entity; or a person with multiple citizenships (one of which is U.S.).

All visitors age 18 and over (including bus drivers for scheduled groups) are required to present one form of current government-issued photo identification. Identification must be one of the following:

- Driver's license or ID card issued by a state. Driver's licenses that do not have photos cannot be used for photo identification.
- U.S. passport or U.S. passport card
- ID card issued by a U.S. federal, state, or local government agency or entity provided it contains a photo and name (e.g., U.S. military ID card or PIV badge)
- U.S. Permanent Resident card (green card) or Alien Registration Receipt card (I-551)
- Employment Authorization Document (I-766), provided it contains a photo
- Foreign passport, provided it contains a photo and name

Please note: if a current and valid form of government-issued photo identification cannot be presented, access to the center will be denied.

Visitors are required to display their visitor pass on their outermost garment and above the waist during the visit and must be always accompanied by a NASA Glenn badged employee.

Foreign nationals who are LPRs, also known as PRAs or green card holders; U.S. citizens representing a foreign entity; and persons with multiple citizenships (one of which is U.S.) will be processed as a U.S. citizen.

If a visitor is not a U.S. citizen, the visitor must be processed in accordance with the NASA Foreign National Access Management Program.

Information on International Visitor visits – 216-433-3033 or 216-433-6308

Information on U.S. citizen visits – 216-433-2205

Inspection Notice

NASA policy for entry into, continued presence on, or exiting from this real property, facility, or installation is contingent upon the visitor's consent to inspection of their person and property in their possession or under their control. Therefore, all vehicles and bags are subject to inspection and visitors may experience a slight delay upon entering the center. Please factor this potential delay into your schedule. A refusal to inspection will result in access to the center being denied.

Taxis, shuttles, and rideshare vehicles are not permitted on center. All visitors using these services will be required to be dropped off at the Main Gate parking lot.

Photography

Photography is permitted, except for: NASA-designated Limited and Exclusion areas (identified as such by signs conspicuously posted on the exterior of applicable facilities), utility infrastructure (e.g., electrical, sewage lift stations, substations, etc.), Sensitive But Unclassified, export controlled, ITAR-restricted, or classified technology, material, hardware, or test equipment, and fuel storage areas. Visitors shall refer to their host or escort for further information.

FACILITIES

NASA Glenn Research Center's world-class facilities and expert staff help develop and verify cutting-edge technologies in the areas of aeronautics, aerospace, and space. Our premier ground test facilities support powered flight through the atmosphere and beyond.

For over 80 years, NASA Glenn has been using its state-of-the-art test facilities to conduct research. Over time, however, some could not meet the requirements of newer technology, and the center has removed these underutilized facilities, including several that made major technological contributions. [The Glenn Historic Facilities](#) section documents these historic facilities and their impact.

SMOKING LOCATIONS

NASA's Glenn Research Center's Smoking Policy is to promote good health and provide an environment reasonably free from pollutants, including tobacco smoke and e-cigarette vapor. Smoking and vaping are prohibited in all areas of the center other than next to a smoking receptacle. Smokers shall dispose of cigarette butts in the smoking receptacle.
