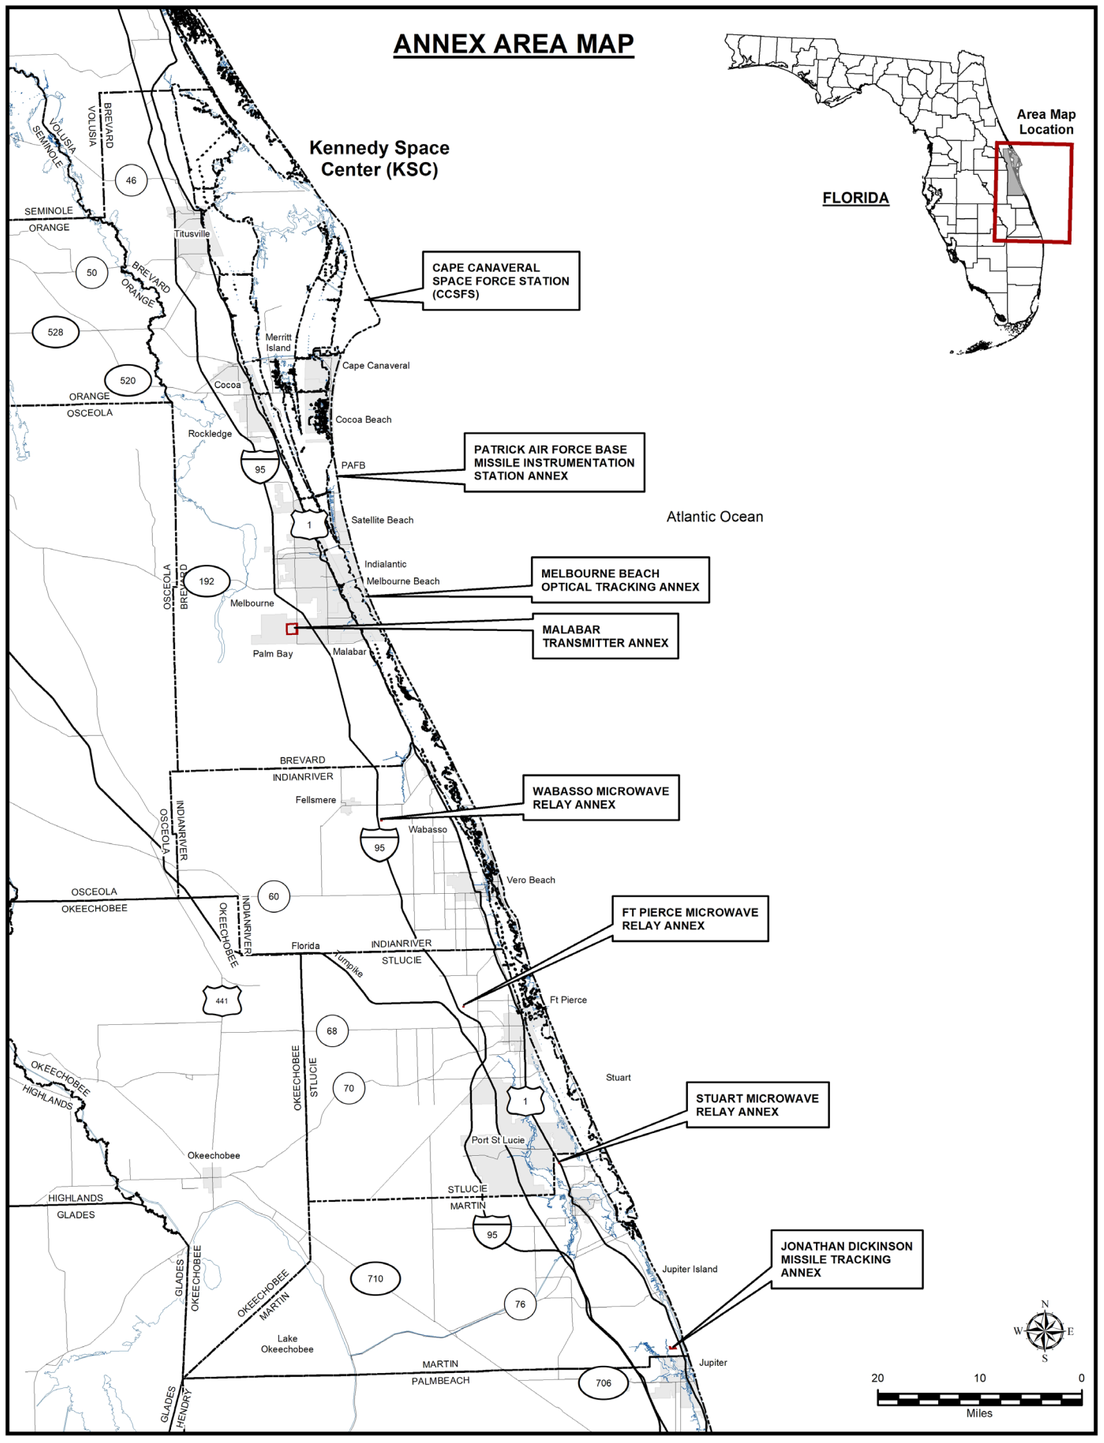

Map 26 Kennedy Space Center A-1
Map 27 Cape Canaveral Space Force Station A-2

BACKGROUND

KSC is located on Merritt Island off the eastern coast of Brevard County, Florida and occupies approximately 140,000 acres. KSC is the NASA center of excellence for launch and payload processing systems as well as the lead center for acquisition and management of expendable launch vehicle services and payload carriers.

The Basic Information Guide (BIG) is an unofficial document developed for use as a convenient reference document. Contained in this annual guide is basic data to help users locate facilities on KSC and CCSFS. It is not intended as a substitute for a variety of official documents used to support formal planning of facility development or operational needs. The NASA official databases are maintained by the BOSS Real Property office at ksc-boss-real-property@mail.nasa.gov.

Please refer any recommendations for improvements of this document to the attention of BOSS Master Planning at ksc-boss-masterplanning@mail.nasa.gov. KSC BIG displays NASA, Space Force, Contractor Partners, and Contractor facilities on KSC property and NASA facilities on CCSFS property. NASA/KSC data is valid as of December 2025. The Cape Canaveral Space Force Station (CCSFS) is included for reference purposes only and may not be current.

Notes

The dashed boxes next to the map numbers delineate the area covered by each map. Included with each map is a listing of facilities that are located on that map.

Facilities located outside of the map areas shown for Maps 2 through 24, can be viewed on Map 1, "GENERAL AREA MAP".

Notes

The dashed boxes next to the map numbers delineate the area covered by each map. Included with each map is a listing of facilities that are located on that map.

Facilities located outside of the map areas shown for Maps 2 through 24, can be viewed on Map 1, "GENERAL AREA MAP".
