Dear Ms. Skarsgard,

The New Mexico Environment Department (NMED) has received the National Aeronautics and Space Administration Johnson Space Center White Sands Test Facility (Permittee) *Proposal to Transition NASA WSTF 600 Area Perched Groundwater Extraction Pilot Test (PGEPT) Annual Reporting into Projected Targeted Mobile Remediation Process (TMRP) Annual Reporting following PGEPT Project Year 12* Report, dated February 19, 2025. NMED has completed its review of the proposal and hereby issues this Approval with the following comments, which do not need to be addressed.

NMED COMMENTS

1. **Section 5.0 Current Status and Recommendations, last bullet**.
    a. The PGEPT interim status reporting requirement for well 600-G-138 will be transitioned to the TMRP Annual reporting requirement following the PGEPT Project Year 12 report;
    b. Groundwater data components presented in the annual PGEPT report will be incorporated as a component of TMRP interim status reporting upon implementation, as per the NMED-approved *TMRP Phase 2 Pilot Test Work Plan* (NMED, 2023);
    c. The annual TMRP reporting, which incorporates well 600-G-138, will be performed within two months of the completion of each project year as defined in the approved TMRP Work Plan (NMED 2023).

This approval is based on the information presented in the document as it relates to the objectives of the work identified by NMED at the time of review. Approval of this document does not constitute agreement with all information or every statement presented in the document.
