Series Description

This series consists of transcripts of Congressional testimony in front of various committees. Topics include budget, planning, oversight, accidents and incidents, policy, International Space Station, and partnerships. The series is arranged by speaker's last name, and files are titled by speaker's initials and date of the speech.

General Notes

It is more effective to search www.govinfo.gov looking for specific topic and hearings, and then request transcripts. There is also significant overlap in the NASA HQ Archives Document Management System <https://historydms.hq.nasa.gov/>

When requesting electronic documents, please include the entire file name, e.g. Lovelace__SpeechesLovelace_1976 4-6-76.pdf.

Keywords: RAND, Douglas Aircraft, Salter, missiles, rockets, propulsion, computers, space vehicles, cameras, prelaunch checkout, satellites, gas dynamics, aerodynamics, cost estimates
